Important: If you are in doubt about the meaning or effect of the contents of this MPF Scheme Brochure, you should seek independent professional advice.

Important to note:

- You should consider your own risk tolerance level and financial circumstances before making any investment choices. When, in your selection of constituent funds or the Default Investment Strategy, you are in doubt as to whether a certain constituent fund or the Default Investment Strategy is suitable for you (including whether it is consistent with your investment objectives), you should seek independent financial and/or professional advice and make investment choices most suitable for you taking into account your circumstances.
- The asset allocation of the DIS CFs in the DIS and some of the constituent funds which are referred to as the Retirement Funds will change over time and hence the risk profile and return will also change over time. The DIS CFs or the Retirement Funds may not be suitable for all Members. You should understand the relevant risks involved before investment and consider factors other than age and review your own investment objectives.
- The Manulife MPF Interest Fund and the Manulife MPF Stable Fund (collectively the "Guaranteed Funds") under the Scheme each invests solely in APIFs in the form of insurance policy provided by Manulife (International) Limited. The guarantee is also given by Manulife (International) Limited. Your investments in the Guaranteed Funds, if any, are therefore subject to the credit risks of Manulife (International) Limited. Please refer to sections 3.4.2 (*Manulife MPF Stable Fund (the "Stable Fund")*) and 7.2.4(b) (*Manulife MPF Stable Fund*) and sections 3.4.1 (*Manulife MPF Interest Fund (the "Interest Fund")*) and 7.2.4(c) (*Manulife MPF Interest Fund*) of this MPF Scheme Brochure for details of the credit risks, guarantee features and qualifying conditions.
- The Manulife MPF Retirement Income Fund (the "Retirement Income Fund") does not guarantee distribution of dividend, the frequency of distribution, and the dividend amount/yield. Dividends may be paid out of the realised capital gains, capital and/or gross income while charging/paying all or part of the fees, charges and expenses to/out of the capital, resulting in an increase in distributable income available for dividend distribution. Payment of dividends out of capital and/or effectively out of capital represent a withdrawal of part of the original investment or from any capital gains attributable to that original investment. Distribution of dividends will result in an immediate decrease or adjustment in the net asset value per unit of the Retirement Income Fund on the ex-dividend date.
- Members who are below age 65 should note that the regular and frequent distribution of dividends and reinvestment of such dividends into the Retirement Income Fund will inevitably involve an investment time-lag during which dividends are not reinvested and it is subject to out-of-market risk on a recurring basis (currently, on a monthly basis). With the feature of dividend distribution, the return of the Retirement Income Fund for these Members may be impacted negatively or positively as its net asset value per unit may have gone up or down at the time when dividends are reinvested. Therefore the return of the Retirement Income Fund for these Members may deviate from that of a constituent fund with similar investment portfolio without such arrangement and may not always be advantageous to these Members.
- Investment involves risks and not each of the constituent funds would be suitable for everyone. You should consider the risks associated with each of the constituent funds and the Default Investment Strategy and your investments/accrued benefits may suffer loss.

1. INTRODUCTION

Manulife Global Select (MPF) Scheme (the “**Scheme**”) is a master trust scheme registered with the MPFA under the MPF Ordinance and authorised by the SFC. Although the Scheme has been registered with and authorised by the MPFA and the SFC respectively, such registration and authorisation do not imply official recommendation of the Scheme by the MPFA and the SFC.

SFC authorisation is not a recommendation or endorsement of the Scheme. It does not guarantee the commercial merits of the Scheme, or its performance. It does not mean the MPF Scheme is suitable for all scheme participants or fund holders. It is also not an endorsement of its suitability for any particular scheme participant or fund holder.

The Scheme is constituted by the Trust Deed and is governed by the laws of Hong Kong. The Scheme is designed to provide retirement benefits to Members under the Scheme.

The Scheme commenced on December 1, 2000. The Scheme financial year end is March 31.

Manulife Financial Corporation (“MFC”) is a leading international financial services group with principal operations in Asia, Canada and the United States. The group provides financial advice, insurance, as well as wealth and asset management solutions for individuals, groups and institutions. Manulife has been in Hong Kong for over 120 years and its experience in managing pension plans can be traced back to 1936 when Manulife sold its first provident fund plan. With its wealth of experience, financial strength and ISO 9001 certification, Manulife provides professional provident funds services of superb quality to both employers and the workforce of Hong Kong.

Manulife Provident Funds Trust Company Limited accepts responsibility for the accuracy of the information contained in this MPF Scheme Brochure as at the date of publication.

2. DIRECTORY OF APPROVED TRUSTEE AND OTHER SERVICE PROVIDERS

Sponsor	Manulife (International) Limited	22/F, Manulife Financial Centre, 223-231 Wai Yip Street, Kwun Tong, Kowloon, Hong Kong
Trustee and Custodian	Manulife Provident Funds Trust Company Limited	22/F, Manulife Financial Centre, 223-231 Wai Yip Street, Kwun Tong, Kowloon, Hong Kong
Administrator	Manulife (International) Limited	22/F, Manulife Financial Centre, 223-231 Wai Yip Street, Kwun Tong, Kowloon, Hong Kong
Auditors	Ernst & Young	22/F, CITIC Tower, 1 Tim Mei Avenue, Central, Hong Kong
Guarantor in relation to the Guaranteed Funds	Manulife (International) Limited	22/F, Manulife Financial Centre, 223-231 Wai Yip Street, Kwun Tong, Kowloon, Hong Kong

2.1 Sponsor

The Scheme is promoted by Manulife (International) Limited in its capacity as the Sponsor. As the Sponsor, Manulife (International) Limited is responsible for promoting, distributing and procuring sales of the Scheme, providing advice in relation to the product design and features of the Scheme, and providing ancillary and support services, including but not limited to business development, marketing, product development and any other support services to the Trustee as may be agreed between the Trustee and the Sponsor from time to time. The Sponsor is also the Guarantor of the Guaranteed Funds.

2.2 Trustee and custodian

Manulife Provident Funds Trust Company Limited is the Trustee of the Scheme. The Trustee is capitalised in excess of statutory requirements and supported by Manulife (International) Limited under the Manulife Financial Group. The Trustee assumes the investment management function of the Scheme.

2.3 Investment managers of the first level APIFs

Manulife Investment Management (Hong Kong) Limited manages the first level pooled investment funds and the second level umbrella unit trust of the Scheme. Manulife Investment Management (Hong Kong) Limited is a wholly-owned subsidiary of MFC which now conducts its global institutional asset management under the brand name of Manulife Investment Management. The investment division of MFC has been operating for over 100 years[†], and has global expertise around the world in wealth management. Manulife Investment Management (Hong Kong) Limited is licensed with the SFC to carry out asset management activities in Hong Kong.

Subject to the prior approval of the SFC and agreement of the MPFA, Manulife Investment Management (Hong Kong) Limited may from time to time delegate any or all of its investment management functions to one or more sub-investment managers who may or may not be within the Manulife Group.

[†] A wholly owned subsidiary of MFC, The Manufacturers Life Insurance Company, was incorporated on June 23, 1887, and has been operating for over 100 years, providing a wide range of financial, insurance and investment management services to individuals, families, businesses and groups.

3. FUND OPTIONS, INVESTMENT OBJECTIVES AND POLICIES

3.1 Scheme structure

Constituent funds		First level pooled investment funds

Manulife MPF 2025 Retirement Fund	→	Manulife 2025 Retirement Unit Trust Fund
Manulife MPF 2030 Retirement Fund	→	Manulife 2030 Retirement Unit Trust Fund
Manulife MPF 2035 Retirement Fund	→	Manulife 2035 Retirement Unit Trust Fund
Manulife MPF 2040 Retirement Fund	→	Manulife 2040 Retirement Unit Trust Fund
Manulife MPF 2045 Retirement Fund	→	Manulife 2045 Retirement Unit Trust Fund

All first level pooled investment funds are in the form of a unit trust, except for the Interest Fund Policy and the Stable Fund Policy which are in the form of insurance policies.

3.2 Table for constituent funds

The Scheme currently consists of the following constituent funds. The Trustee may at any time establish a new constituent fund, subject to the approval by the MPFA and the SFC.

No.	Name of constituent fund	Investment Manager**	Fund structure	Fund descriptor	Investment focus
1.	Manulife MPF Interest Fund	N/A	Investing in a single APIF	Guaranteed Fund – Capital Guarantee	At least 70% in HKD fixed income instruments and up to 30% in other investments
2.	Manulife MPF Stable Fund	N/A	Investing in a single APIF	Guaranteed Fund – Interest Guarantee	Up to 40% in equities and equity-related investments, and remainder in bonds, deposits and other investments
3.	Manulife MPF Retirement Income Fund	N/A	Investing in a single APIF	Mixed Assets Fund – Global - around 20% to 60% in equities and equity-related investments	Around 20% to 60% in equities and equity-related investments, and remainder in bonds, deposits and other investments
4.	Manulife MPF Growth Fund	N/A	Investing in a single APIF	Mixed Assets Fund – Global – around 50% to 90% in equities and equity-related investments	Around 50% to 90% in equities and equity-related investments, and remainder in bonds, deposits and other investments
5.	Manulife MPF Aggressive Fund	N/A	Investing in a single APIF	Mixed Assets Fund – Global – mainly in equities and equity-related investments	Mainly equities and equity-related investments, and up to 30% in bonds, deposits and other investments
6.	Manulife MPF Conservative Fund	N/A	Investing in a single APIF	Money Market Fund – Hong Kong	Fixed income instruments
7.	Manulife MPF Hong Kong Equity Fund	N/A	Investing in a single APIF	Equity Fund – Hong Kong	At least 70% in Hong Kong equities and equity-related investments (less than 30% in shares of companies listed in mainland China), and up to 30% in bonds, deposits and other investments
8.	Manulife MPF International Equity Fund	N/A	Investing in a single APIF	Equity Fund – Global	Global equities and equity-related investments, and up to 30% in bonds, deposits and other investments
9.	Manulife MPF Pacific Asia Equity Fund	N/A	Investing in a single APIF	Equity Fund – Pacific Asia	Mainly equities, and up to 30% in bonds, deposits and other investments
10.	Manulife MPF European Equity Fund	N/A	Investing in a single APIF	Equity Fund – Europe	Mainly equities, and up to 30% in bonds, deposits and other investments

No.	Name of constituent fund	Investment Manager**	Fund structure	Fund descriptor	Investment focus
11.	Manulife MPF North American Equity Fund	N/A	Investing in a single APIF	Equity Fund – North America	Mainly equities, and up to 30% in bonds, deposits and other investments
12.	Manulife MPF Japan Equity Fund	N/A	Investing in a single APIF	Equity Fund – Japan	Mainly equities, and up to 30% in bonds, deposits and other investments
13.	Manulife MPF Hong Kong Bond Fund	N/A	Investing in a single APIF	Bond Fund – Hong Kong	At least 70% in HKD denominated permitted deposits and debt securities, and up to 30% in other investments
14.	Manulife MPF RMB Bond Fund	N/A	Investing in a single APIF	Bond Fund – China	At least 70% in RMB denominated debt securities, and up to 30% in other RMB or non-RMB denominated investments
15.	Manulife MPF Pacific Asia Bond Fund	N/A	Investing in a single APIF	Bond Fund – Pacific Asia	Mainly in debt securities issued by any government, central bank, supra-nationals, multilateral international agency or corporate issuers in the Asia Pacific region, and up to 30% in other investments
16.	Manulife MPF International Bond Fund	N/A	Investing in a single APIF	Bond Fund – Global	Mainly in permitted deposits, debt securities issued by any government, central bank or multilateral international agency, and up to 30% in other investments
17.	Manulife MPF China Value Fund	N/A	Investing in a single APIF	Equity Fund – Greater China	Mainly in shares of companies covering different sectors of the economy in the Greater China region, and up to 30% in bonds, deposits and other investments
18.	Manulife MPF Healthcare Fund	N/A	Investing in a single APIF	Equity Fund – Healthcare Sector	Mainly in equity-related investments and equities of companies in health care and related industries and which are listed on any stock exchange, and up to 30% in bonds, deposits and other investments

No.	Name of constituent fund	Investment Manager**	Fund structure	Fund descriptor	Investment focus
19.	Manulife MPF Hang Seng Index Tracking Fund	N/A	Investing in a single APIF	Equity Fund – Hong Kong	Shares of constituent companies of the Hang Seng Index
20.	Manulife MPF Fidelity Growth Fund	N/A	Investing in a single APIF	Mixed Assets Fund – Global – approximately 90% in equities	Approximately 90% of the second level APIF in global equities
21.	Manulife MPF Fidelity Stable Growth Fund	N/A	Investing in a single APIF	Mixed Assets Fund – Global – approximately 50% in equities	Approximately 50% of the second level APIF in global equities and 45% in global bonds and remainder of 5% in cash deposits
22.	Manulife MPF Core Accumulation Fund	N/A	Investing in a single APIF	Mixed Assets Fund – Global – around 60% in higher risk assets and 40% in lower risk assets	Approximately 60% in higher risk assets and remainder in lower risk assets
23.	Manulife MPF Age 65 Plus Fund	N/A	Investing in a single APIF	Mixed Assets Fund – Global – around 20% in higher risk assets and 80% in lower risk assets	Approximately 20% in higher risk assets and remainder in lower risk assets
24.	Manulife MPF Smart Retirement Fund	N/A	Investing in a single APIF	Mixed Assets Fund – Global – maximum 65% in equities	Around 40% to 60% in equities and equity-related investments, and remainder in bonds, deposits and other investments
25.	Manulife MPF 2025 Retirement Fund	N/A	Investing in a single APIF	Mixed Assets Fund – Global – maximum 95% in equities	Initially 75% to 95% in equities and equity-related investments and remainder in bonds, deposits and other investments, and gradually contain more fixed-income securities according to the Glide Path
26.	Manulife MPF 2030 Retirement Fund	N/A	Investing in a single APIF	Mixed Assets Fund – Global – maximum 95% in equities	Initially 75% to 95% in equities and equity-related investments and remainder in bonds, deposits and other investments, and gradually contain more fixed-income securities according to the Glide Path

No.	Name of constituent fund	Investment Manager**	Fund structure	Fund descriptor	Investment focus
27.	Manulife MPF 2035 Retirement Fund	N/A	Investing in a single APIF	Mixed Assets Fund – Global – maximum 100% in equities	Initially 80% to 100% in equities and equity-related investments and remainder in bonds, deposits and other investments, and gradually contain more fixed-income securities according to the Glide Path
28.	Manulife MPF 2040 Retirement Fund	N/A	Investing in a single APIF	Mixed Assets Fund – Global – maximum 100% in equities	Initially 80% to 100% in equities and equity-related investments and remainder in bonds, deposits and other investments, and gradually contain more fixed-income securities according to the Glide Path
29.	Manulife MPF 2045 Retirement Fund	N/A	Investing in a single APIF	Mixed Assets Fund – Global – maximum 100% in equities	Initially 80% to 100% in equities and equity-related investments and remainder in bonds, deposits and other investments, and gradually contain more fixed-income securities according to the Glide Path

** Currently, no investment manager is appointed at the constituent fund level.

The assets of the first level pooled investment funds of the constituent funds invest in the following underlying funds:

3.3 MPF Default Investment Strategy (the “DIS”)

The DIS is a ready-made investment arrangement mainly designed for those Members who are not interested or do not wish to make an investment choice, and is also available as an investment choice itself for Members who find it suitable for their own circumstances. With effect from April 1, 2017, the default investment arrangement of the Scheme is the DIS. For those Members who do not make an investment choice, their contributions and accrued benefits transferred from another scheme (“**transferred monies**”) will be invested in accordance with the DIS. The DIS is required by law to be offered in every MPF scheme and is designed to be substantially similar in all schemes.

The fund performance of each DIS CF will be reported against its respective Reference Portfolio. Each Reference Portfolio is subject to review on regular basis and may change. For more and the latest information about the reference portfolios, please visit the website of the Hong Kong Investment Funds Association at www.hkifa.org.hk.

3.3.1 Key features about the DIS

(a) Asset allocation of the DIS

The DIS aims to balance the long-term effects of investment risk and return through investing in the DIS CFs, namely the Manulife MPF Core Accumulation Fund (the “**Core Accumulation Fund**” or “**CAF**”) and the Manulife MPF Age 65 Plus Fund (the “**Age 65 Plus Fund**” or “**A65F**”) according to the pre-set allocation percentages depending upon the Member's age. The CAF will invest around 60% in higher risk assets and 40% in lower risk assets of its NAV whereas the A65F will invest around 20% in higher risk assets and 80% in lower risk assets. Both constituent funds adopt globally diversified investment principles and use different classes of assets, including global equities, fixed income, money market instruments and cash, and other types of assets allowed under the MPF legislation.

(b) De-risking of the DIS

Accrued benefits invested through the DIS will be invested in a way that adjusts risk depending on a Member's age. The DIS will manage investment risk exposure by automatically reducing the exposure to higher risk assets and correspondingly increasing the exposure to lower risk assets as the Member gets older. Such de-risking is to be achieved by way of reducing the holding in the CAF and increasing the holding in the A65F throughout the prescribed time span as detailed below. Diagram 1 below shows the target proportion of investment in riskier assets over time. The asset allocation stays the same up until 50 years of age, then reduces steadily until the age of 64, after which it stays steady again.

Members should refer to section 4.26 (*Additional key risks relating to the DIS*) for further information on the risks associated with investing in accordance with the DIS.

Diagram 1: Asset allocation between constituent funds in the DIS

Note: The exact proportion of the portfolio in higher/lower risk assets at any point in time may deviate from the target glide path mainly due to market fluctuations.

The above de-risking is to be achieved by annual adjustments of asset allocation gradually from the CAF to the A65F under the DIS. Switching of the existing accrued benefits among the CAF and the A65F will be automatically carried out each year (“**Annual De-risking**”) on a Member's birthday and according to the allocation percentages in the DIS de-risking table as shown in Diagram 2 below.

3.3.2 Dealing day of Annual De-risking

If a Member's birthday is not on a dealing day, then the Annual De-risking will be moved to the next available dealing day. If the birthday of the relevant Member falls on February 29 and in the year which is not a leap year, then the Annual De-risking will be moved to March 1 or the next available dealing day. Members should also note that as the de-risking process involves switching between the two DIS CFs, rounding differences in the number of units may arise and please refer to section 6.6 (*Switching*) on how the number of units will be calculated. **When one or more instructions from Members, such as subscription, redemption or switching instructions, are being processed, and units are to be issued/redeemed (in the case of the Interest Fund where investment is to be made in or monies to be withdrawn from) on the dealing day same as the dealing day scheduled for the Annual De-risking for a relevant Member, the instruction(s) and the Annual De-risking in respect of such Member will take place on the same day although the Annual De-risking will only take place after processing the instruction(s).** A Member can visit our website at www.manulife.com.hk for the relevant information on our MPF services. To the extent practicable, a notice will be sent to those Members who invest in the DIS at least 60 days prior to their 50th birthday to notify them of the commencement of the first de-risking. A confirmation of de-risking details will also be sent to the Member within five Business Days after the de-risking process has been completed. **Member should be aware that the above de-risking will not apply where a Member has chosen the CAF and the A65F as individual fund choices (rather than as part of the DIS).**

In summary, under the DIS:

- When a Member is below the age of 50, all his contributions and transferred monies will be invested in the CAF.
- When a Member is between the ages of 50 and 64, all his contributions and transferred monies will be invested according to the allocation percentages between the CAF and the A65F as shown in the DIS de-risking table in Diagram 2 below. The de-risking on the existing accrued benefits will be automatically carried out as described above.
- When a Member reaches the age of 64, all his contributions and transferred monies will be invested in the A65F.

If the Trustee does not have the full date of birth of the relevant Member, the Annual De-risking will be carried out as follows:

- If only the year and month of birth is available, the Annual De-risking will take place on the last calendar day of the birth month or the next available dealing day if such day is not a dealing day.
- If only the year of birth is available, the Annual De-risking will take place on the last calendar day of the year or the next available dealing day if such day is not a dealing day.

When the relevant Member provides or rectifies his date of birth and the allocation percentages between the CAF and the A65F for the DIS at the Member's age is different from the current allocation percentages for such Member in the Trustee's record, the Trustee will adjust the allocation percentages between the CAF and the A65F for the accrued benefits and update the allocation percentages applicable to the new contributions according to the allocation percentages in the DIS de-risking table shown in Diagram 2 below as soon as practicable. The Annual De-risking of a Member will discontinue when the Trustee has received sufficient confirmation regarding the death of the Member.

Diagram 2: DIS de-risking table

<i>Age</i>	<i>Core Accumulation Fund</i>	<i>Age 65 Plus Fund</i>
<i>Below 50</i>	100.0%	0.0%
<i>50</i>	93.3%	6.7%
<i>51</i>	86.7%	13.3%
<i>52</i>	80.0%	20.0%
<i>53</i>	73.3%	26.7%
<i>54</i>	66.7%	33.3%
<i>55</i>	60.0%	40.0%
<i>56</i>	53.3%	46.7%
<i>57</i>	46.7%	53.3%
<i>58</i>	40.0%	60.0%
<i>59</i>	33.3%	66.7%
<i>60</i>	26.7%	73.3%
<i>61</i>	20.0%	80.0%
<i>62</i>	13.3%	86.7%
<i>63</i>	6.7%	93.3%
<i>64 and above</i>	0.0%	100.0%

Note: The above allocation between the CAF and the A65F is made at the point of Annual De-risking and the proportion of the CAF and the A65F in the DIS portfolio may vary during the year due to market fluctuations.

Please refer to sections 3.4.22 (*Manulife MPF Core Accumulation Fund* (the “Core Accumulation Fund” or “CAF”)) and 3.4.23 (*Manulife MPF Age 65 Plus Fund* (the “Age 65 Plus Fund” or “A65F”)) for the investment policies of the CAF and the A65F and sections 6.5 (*Contribution investment instruction*), 6.6 (*Switching*), 6.7 (*Circumstances for accrued benefits to be invested in the DIS*) and 6.8 (*Transfer*) about specific administrative arrangements for the DIS.

3.4 Statements of Investment Policies

The risk factors listed under each constituent fund are provided for reference only and intended to show the most relevant risk factors associated with each constituent fund. Members are advised to read section 4 (*Risk factors*) for details of all risk factors, which may be interrelated to each other.

3.4.1 Manulife MPF Interest Fund (the “Interest Fund”)

(a) *Objective*

The Interest Fund is a non-unitised bond fund that provides a capital guarantee and aims to provide Members with interest each month at a rate that is equal to or exceeds the prescribed savings rate published by the MPFA. The interest rate (which shall not be less than zero) shall be declared by the Trustee on a monthly basis at its sole discretion at the recommendation of Manulife (International) Limited at the end of the month, based on economic and market conditions during that month. Please refer to section 7.2.4(c) (*Manulife MPF Interest Fund*) for details.

The Interest Fund is designed to provide capital guarantee and short-term growth for Members who wish to invest conservatively, are close to the age of retirement or are seeking a temporary safe-haven during more turbulent economic times.

(b) *Balance of investments*

It is intended that the underlying investments of the Interest Fund will invest at least 70% of its NAV in HKD fixed income instruments. The underlying portfolio may also include other investments as permitted under the General Regulation, up to 30% of the NAV of the Interest Fund.

At the end of each month, interest to be calculated and credited for the month (which shall not be less than zero) shall be equal to the aggregate of daily interest for the month. Each daily interest within the month shall be calculated at month-end by reference to the minimum balance recorded for such respective day multiplied by the interest rate declared by the Trustee and will be credited to the Interest Fund at the end of each month. For details, please refer to section 7.2.4(c) (*Manulife MPF Interest Fund*).

The insurer (as the guarantor) of the Interest Fund Policy provides a guarantee. The “capital” to be guaranteed shall comprise of the accrued benefits standing to the Member’s account at any given time (inclusive of any contributions net of redemption and any credited interest, minus any applicable service fees). In order to provide the capital guarantee and return, a reserve account funded solely by a smoothing provision will be maintained at the Interest Fund Policy level to provide for systematic funding for the cost of the guarantee. The guarantee feature will therefore lead to a dilution of performance of the Interest Fund. In addition, Manulife (International) Limited will use its own assets to ensure that the guarantee is fulfilled over the term of the Scheme if assets of the Interest Fund prove inadequate. Please refer to section 7.2.4(c) (*Manulife MPF Interest Fund*) for a detailed explanation of the smoothing provision.

Investments in the Interest Fund Policy are held as the assets of Manulife (International) Limited. Where Manulife (International) Limited is liquidated, you may not have access to your investments temporarily, or their value may be reduced.

Before you invest in the Interest Fund, you should consider the risk posed by Manulife (International) Limited, the insurer of the Interest Fund Policy, under the circumstances set out above and, if necessary, seek additional information or advice.

(c) *Security lending and repurchase agreements*

The portfolio of any underlying APIF under the Interest Fund will not engage in security lending and will not enter into repurchase agreements.

(d) *Futures and options*

The portfolio of any underlying APIF under the Interest Fund may acquire financial futures contracts and financial option contracts for hedging purposes.

(e) *Risks*

The performance of the Interest Fund is subject to a number of risks, including the following:

- Market and investment risks
- Credit risk and credit rating risk
- Political, economic and social risks
- Counterparty and settlement risk
- Risks related to futures and options
- Derivatives
- Interest rate risk
- Risks associated with investment in underlying funds
- Valuation and accounting risk
- Early termination risk

Please refer to section 4 (*Risk factors*) for a detailed description of each of the risks listed.

3.4.2 Manulife MPF Stable Fund (the “Stable Fund”)

(a) Objective

The Stable Fund is a unitised balanced fund that aims to provide relatively stable medium- to long-term growth. Members are also provided with an interest guarantee upon the occurrence of one of the pre-determined events or on the ground of terminal illness provided that the qualifying condition is satisfied (see section 3.4.2(b) (*Balance of investments*)). The guaranteed rate of interest for each month will be equal to the prescribed savings rate published by the MPFA.

The guarantee provides a comfort zone for Members upon the occurrence of a pre-determined event or terminal illness (see section 3.4.2 (b) (*Balance of investments*)), during an unfavourable investment climate which may temporarily jeopardise investment returns.

The Stable Fund provides a conservative investment for Members who are prepared to accept modest fluctuations in the value of their investment in order to achieve long-term returns.

(b) Balance of investments

It is intended that the underlying investment will be made on a diversified basis. Up to 40% of the portfolio of the Stable Fund will be indirectly invested in equities and equity-related investments, with the remainder of the assets being indirectly invested in bonds, deposits and other investments as permitted under the General Regulation. The investment manager may at its discretion invest in any region such as America, Pacific Asia, Japan, Europe, etc., with a relative bias towards Hong Kong. The intended asset allocation above is for reference only and may be changed as and when market, political, structural, economic and other conditions change that the investment manager deems appropriate.

Units issued as a result of contributions made to the Stable Fund can notionally be classified as “qualifying units” or “non-qualifying units”. Units acquired by contributions that satisfy the qualifying condition below will be classified as qualifying units. Those acquired by contributions that do not satisfy the qualifying condition below will be classified as non-qualifying units.

The insurer (as the guarantor) of the Stable Fund Policy provides a guarantee. Upon redemption of units in the Stable Fund, Members may receive either an amount as calculated in accordance with section 7.2.4(a) (*Constituent funds other than the Manulife MPF Stable Fund and the Manulife MPF Interest Fund*) or a “guaranteed” amount, whichever is higher, provided that:

- (i) the qualifying condition as set out below is satisfied; and
- (ii) the redemption is effected as a result of a certain pre-determined event or on the ground of terminal illness.

Qualifying condition

Where contributions are received in cleared funds **before the Member’s 55th birthday** (the “**qualifying condition**”), qualifying units will be issued. In other cases, non-qualifying units will be issued.

Pre-determined events

The guaranteed amount in respect of the qualifying units of a Member will be payable in any of the following pre-determined events:

- the Member reaching the normal retirement age of 65;
- the Member becoming totally incapacitated; or
- the Member's death.

The Stable Fund will be operated on a dual-account basis. In respect of each sub-scheme of a Member, each Member holding units in the Stable Fund will have an “actual” account and a “guaranteed” account. The “actual” account is an account holding the units in the Stable Fund, under which sub-accounts are maintained for the purpose of holding accrued benefits deriving from various types of mandatory and voluntary contributions. The “guaranteed” account is a notional account, with corresponding sub-accounts, in which a balance will be maintained and calculated on the basis that respective contribution monies (that satisfy the qualifying condition) are invested at the guaranteed rate of interest. Please refer to section 7.2.4(b) (*Manulife MPF Stable Fund*) for details.

A reserve account funded by a provision for guarantee, which is deducted from the assets value of the Stable Fund Policy in which the Stable Fund invests, will be maintained at the Stable Fund Policy level to provide for systematic funding for the cost of the guarantee. The guarantee features will therefore lead to a dilution of performance of the Stable Fund. In addition, Manulife (International) Limited provides a third party guarantee and will use its own assets to ensure that the guarantee is fulfilled over the term of the Scheme if assets of the Stable Fund is proved to be inadequate.

Investments in the Stable Fund Policy are held as the assets of Manulife (International) Limited. Where Manulife (International) Limited is liquidated, you may not have access to your investments temporarily, or their value may be reduced.

Before you invest in the Stable Fund, you should consider the risk posed by the Manulife (International) Limited, the insurer of the Stable Fund Policy, under the circumstances set out above and, if necessary, seek additional information or advice.

(c) *Security lending and repurchase agreements*

The portfolio of any underlying APIF under the Stable Fund will not engage in security lending and will not enter into repurchase agreements. The underlying ITCIS may engage in security lending and may enter into repurchase agreements.

(d) *Futures and options*

The portfolio of any underlying APIF under the Stable Fund may acquire financial futures contracts and financial option contracts for hedging purposes. The underlying ITCIS may acquire financial futures contracts and financial option contracts.

(e) *Risks*

The performance of the Stable Fund is subject to a number of risks, including the following:

- Market and investment risks
- Emerging market risk
- Credit risk and credit rating risk
- Political, economic and social risks
- Risks associated with investment in underlying funds
- Counterparty and settlement risk
- Risks related to futures and options
- Equity investment risk and volatility risk
- Derivatives
- Interest rate risk
- Risks related to ITCIS
- Liquidity risk
- Valuation and accounting risk
- Early termination risk

Please refer to section 4 (*Risk factors*) for a detailed description of each of the risks listed.

3.4.3 Manulife MPF Retirement Income Fund (the “Retirement Income Fund”)

(a) Objective

The Retirement Income Fund is a unitised balanced fund which is designed to seek to provide regular and stable income by way of distribution of dividend to Members’ account/sub-account, with the secondary objective of generating long-term capital growth, for Members who hold a longer term investment view and who are prepared to accept fluctuations in the value of their investments in order to achieve long-term returns. The dividends distributed to Members’ account/sub-account will be invested in the Retirement Income Fund or the Manulife MPF Interest Fund (“**Interest Fund**”) based on the Member’s age as at the record date as explained under section 3.4.3 (f)(*Distribution of dividend*).

(b) Balance of investments

It is intended that the underlying investments of the Retirement Income Fund will be made on a diversified basis. Around 20% to 60% of the underlying portfolio of the Retirement Income Fund will be indirectly invested in equities and equity-related investments, with the remainder of the assets being indirectly invested in bonds, deposits and other investments as permitted under the General Regulation. The investment manager may invest in any region such as America, Pacific Asia, Japan, Europe, etc. The intended asset allocation above is for reference only and may be changed as and when market, political, structural, economic and other conditions change that the investment manager deems appropriate.

The Retirement Income Fund will maintain an effective currency exposure to HKD of not less than 30% of its NAV in accordance with section 16 of Schedule 1 to the General Regulation through investments in HKD or currency hedging.

(c) Security lending and repurchase agreements

The portfolio of any underlying APIF under the Retirement Income Fund will not engage in security lending and will not enter into repurchase agreements. The underlying ITCIS (if any) may engage in security lending and may enter into repurchase agreements.

(d) Futures and options

The portfolio of any underlying APIF under the Retirement Income Fund may acquire financial futures contracts and financial option contracts for hedging purposes. The underlying ITCIS (if any) may acquire financial futures contracts and financial option contracts.

(e) Risks

The performance of the Retirement Income Fund is subject to a number of risks, including the following:

- Market and investment risks
- Currency risk
- Derivatives
- Credit risk and credit rating risk
- Political, economic and social risks
- Risks associated with investment in underlying funds
- Counterparty and settlement risk
- Valuation and accounting risk
- Early termination risk
- Risk related to securities lending and repurchase agreements
- RMB currency risk
- Mainland Chinese assets risk
- Equity investment risk and volatility risk
- Emerging market risk
- Risks associated with Stock Connect programmes
- Interest rate risk
- Risks related to ITCIS
- Liquidity risk
- Custodial risk
- Risks related to futures and options
- Additional risks related to the Manulife MPF Retirement Income Fund
- Risks associated with the SME board, ChiNext market and/or the STAR Board
- Additional risk factors relating to investment in debt securities in onshore and offshore China market

Please refer to section 4 (Risk Factors) for a detailed description of each of the risks listed.

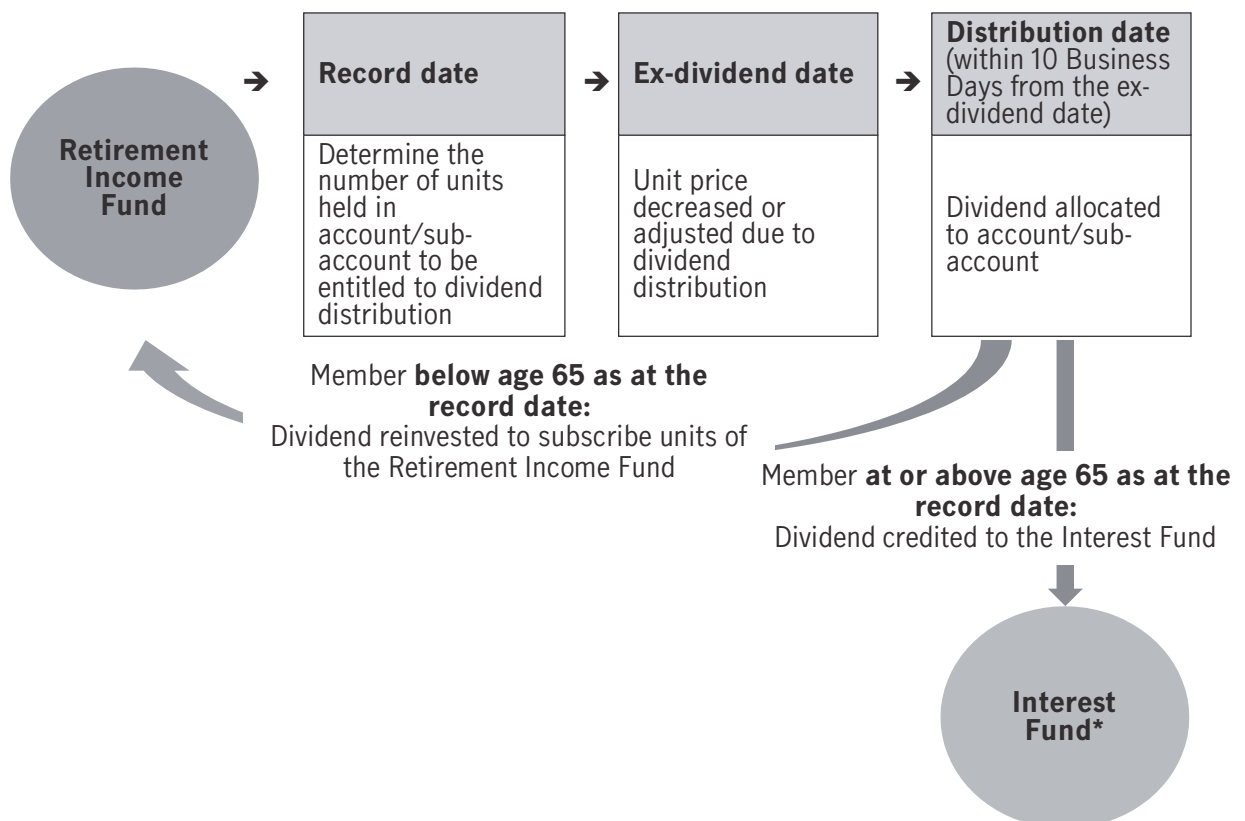

(f) *Distribution of dividend*

The Retirement Income Fund aims to distribute dividend on a regular basis. Currently, it is intended that the Retirement Income Fund will distribute dividend on a monthly basis starting from the seventh month (or earlier as advised by the investment manager of the underlying first level APIF if it considers appropriate) after the launch date of September 21, 2020. Prior to the first month commencing distribution of dividend in each calendar year, a dealing day of each month for that calendar year will be pre-determined as the record date (“**record date**”). The NAV per unit of the Retirement Income Fund on the next dealing day immediately following the record date (“**ex-dividend date**”) will be decreased or adjusted to reflect the distribution of dividend. The schedule of the pre-determined record dates and ex-dividend dates of each month for each calendar year will be made available at www.manulife.com.hk as soon as practicable prior to the first record date of that calendar year. If any date becomes a non-dealing day, such date and the corresponding following dates in relation to the dividend distribution process will be postponed to the respective next dealing day accordingly without notice.

The amount of dividend per unit of the Retirement Income Fund shall be determined by the Trustee at the recommendation of the investment manager of the underlying first level APIF. The number of units of the Retirement Income Fund held in the account/sub-account of a Member as at the record date will be entitled to the dividend as determined and applicable to such record date. For the avoidance of doubt, the number of units which are to be redeemed or switched out (if any) from the Retirement Income Fund as at the record date will not be entitled to dividend distribution. Further, the number of units which are to be subscribed for or switched into (if any) the Retirement Income Fund as at the record date will be entitled to dividend distribution.

The amount of dividend will be allocated to the account/sub-account of the relevant Members and reinvested in either the Retirement Income Fund or invested the Interest Fund based on the Member’s age as at the record date. Such reinvestment or investment will be made on a dealing day within 10 Business Days from the ex-dividend date (“**distribution date**”). The amount of dividend per unit and the distribution date corresponding to each record date will be published at www.manulife.com.hk within six Business Days after the distribution date.

A one-off reminder will be issued to those Members at the time when dividend will start to be invested in the Interest Fund. Please refer to the chart below for the dividend distribution process:

* Please refer to section 3.4.1 (*Manulife MPF Interest Fund*) for details of the Interest Fund, particularly the investment objective and risks.

Members should note that dividends will not be paid out directly in cash but will be allocated to Members' account/sub-account. If Members are at or above age 65, dividends will be credited to and invested in the Interest Fund, which will be subject to relevant risks such as the credit risks of the guarantor as well as fees and charges applicable to the Interest Fund.

Members should also note that their investments in the Retirement Income Fund (including dividends distributed) are subject to the same vesting, preservation and withdrawal requirements applicable to mandatory and voluntary contributions (as applicable).

Notes:

The Trustee may, after consulting and agreeing with the investment manager of the underlying first level APIF and the sponsor, and having regard to the interests of the Members, amend the schedule of any future record dates and ex-dividend dates by updating the website as soon as practicable without notice to Members. Members should check the latest information available at the website.

The Trustee may, at the recommendation of the investment manager of the underlying first level APIF, determine whether or not to make any distribution of dividend for any month and the amount of dividend. The Trustee and the investment manager may consider various factors such as economic and market conditions and outlook, investment environment and performance of the underlying first level APIF, etc. and in any case the dividend shall be determined by the Trustee at its sole discretion. The dividend will be allocated to the account/sub-account of the relevant Members as mentioned above or, having regard to the interests of the relevant Members, made in such other manner as the Trustee considers appropriate.

The Trustee may, at the recommendation of the investment manager of the underlying first level APIF, determine if and to what extent dividends are paid out of the realised capital gains, capital and/or gross income while charging/paying all or part of the fees, charges and expenses to/out of the capital, resulting in an increase in distributable income available for dividend distribution. Subject to prior approval of the MPFA and the SFC, the Trustee may amend the aforementioned dividend policy by giving one month's prior notice to Members.

Members should note that payment of dividends out of capital and/or effectively out of capital represent a withdrawal of part of the original investment or from any capital gains attributable to that original investment. Distribution of dividends will result in an immediate decrease or adjustment in the NAV per unit of the Retirement Income Fund on the ex-dividend date. Despite the above, dividends will be allocated to Members' account/sub-account for investment as provided under section 3.4.3(f) (*Distribution of dividend*).

The amount of dividend per unit and the composition of dividend distribution (i.e. the percentages of dividend being made out of net distributable income and capital) for the last 12 months will be made available at www.manulife.com.hk or on request.

Members who are below age 65 should note that the regular and frequent distribution of dividends and reinvestment of such dividends into the Retirement Income Fund will inevitably involve an investment time-lag (i.e. within 10 Business Days from the ex-dividend date) during which dividends are not reinvested and it is subject to out-of-market risk on a recurring basis (currently, on a monthly basis). With the feature of dividend distribution, the return of the Retirement Income Fund for these Members may be impacted negatively or positively as its NAV per unit may have gone up or down at the time when dividends are reinvested. Therefore the return of the Retirement Income Fund for these Members may deviate from that of a constituent fund with similar investment portfolio without such arrangement and may not always be advantageous to these Members. These members should consider carefully whether the Retirement Income Fund is suitable for them and, if necessary, seek independent professional advice.

Members should note that the Retirement Income Fund does not provide any guarantee on the capital or investment return or dividend amount/yield. There is no assurance on the dividend distribution frequency and the dividend amount/yield may fluctuate.

3.4.4 Manulife MPF Growth Fund (the “Growth Fund”)

(a) *Objective*

The Growth Fund is a unitised balanced fund which is designed to provide medium- to long-term capital growth for Members who hold a longer term investment view and who are prepared to accept fluctuations in the value of their investments in order to achieve long-term returns.

(b) *Balance of investments*

It is intended that the underlying investments of the Growth Fund will be made on a diversified basis. Around 50% to 90% of the underlying portfolio of the Growth Fund will be indirectly invested in equities and equity-related investments, with the remainder of the assets being indirectly invested in bonds, deposits and other investments as permitted under the General Regulation. The investment manager may at its discretion invest in any region such as America, Pacific Asia, Japan, Europe, etc. The intended asset allocation above is for reference only and may be changed as and when market, political, structural, economic and other conditions change that the investment manager deems appropriate.

(c) *Security lending and repurchase agreements*

The portfolio of any underlying APIF under the Growth Fund will not engage in security lending and will not enter into repurchase agreements. The underlying ITCIS (if any) may engage in security lending and may enter into repurchase agreements.

(d) *Futures and options*

The portfolio of any underlying APIF under the Growth Fund may acquire financial futures contracts and financial option contracts for hedging purposes. The underlying ITCIS (if any) may acquire financial futures contracts and financial option contracts.

(e) *Risks*

The performance of the Growth Fund is subject to a number of risks, including the following:

- Market and investment risks
- Currency risk
- Derivatives
- Risks associated with Stock Connect Programme
- Interest rate risks
- Risks related to ITCIS
- Liquidity risk
- Custodial risk
- Early termination risk
- RMB currency risk
- Mainland Chinese assets risk
- Equity investment risks and volatility risk
- Emerging market risk
- Growth Enterprise Market
- Credit risk and credit rating risk
- Political, economic and social risks
- Risks associated with investment in underlying funds
- Counterparty and settlement risk
- Valuation and accounting risk
- Risks related to futures and options
- Risks associated with the SME board, ChiNext market and/or the STAR Board
- Additional risk factors relating to investment in debt securities in onshore and offshore China market

Please refer to section 4 (*Risk factors*) for a detailed description of each of the risks listed.

3.4.5 Manulife MPF Aggressive Fund (the “Aggressive Fund”)

(a) *Objective*

The Aggressive Fund is a unitised equity fund aiming to provide long-term capital growth. The Aggressive Fund is designed for Members who hold a long-term investment view and who are prepared to accept significant fluctuations in the value of their investments in order to achieve long-term returns.

(b) *Balance of investments*

It is intended that the underlying investments of the Aggressive Fund will be made on a diversified basis. The underlying portfolio will be indirectly invested mainly in equities and equity-related investments. The underlying portfolio may also include bonds, deposits and other investments as permitted under the General Regulation, up to 30% of the NAV of the Aggressive Fund. The investment manager may at its discretion invest in any region such as America, Pacific Asia, Japan, Europe, etc., with a relative bias towards Hong Kong and Pacific Asia region markets. The intended asset allocation above is for reference only and may be changed as and when market, political, structural, economic and other conditions change that the investment manager deems appropriate.

(c) *Security lending and repurchase agreements*

The portfolio of any underlying APIF under the Aggressive Fund will not engage in security lending and will not enter into repurchase agreements. The underlying ITCIS (if any) may engage in security lending and may enter into repurchase agreements.

(d) *Futures and options*

The portfolio of any underlying APIF under the Aggressive Fund may acquire financial futures contracts and financial option contracts for hedging purposes. The underlying ITCIS (if any) may acquire financial futures contracts and financial option contracts.

(e) *Risks*

The performance of the Aggressive Fund is subject to a number of risks, including the following:

- Market and investment risks
- Currency risk
- Derivatives
- Risks associated with Stock Connect Programme
- Interest rate risks
- Risks related to ITCIS
- Liquidity risk
- Custodial risk
- Early termination risk
- RMB currency risk
- Mainland Chinese assets risk
- Risks associated with the SME board, ChiNext market and/or the STAR Board
- Additional risk factors relating to investment in debt securities in onshore and offshore China market
- Equity investment risks and volatility risk
- Emerging market risk
- Growth Enterprise Market
- Credit risk and credit rating risk
- Political, economic and social risks
- Risks associated with investment in underlying funds
- Counterparty and settlement risk
- Valuation and accounting risk
- Risks related to futures and options

Please refer to section 4 (*Risk factors*) for a detailed description of each of the risks listed.

3.4.6 Manulife MPF Conservative Fund (the “Conservative Fund”)

(a) *Objective*

The Conservative Fund, mandated by the MPF Ordinance, aims to provide a rate of return to match the prescribed savings rate published by the MPFA but with no guarantee of capital or interest.

(b) *Balance of investments*

The Conservative Fund invests solely in an APIF (the Manulife Conservative Unit Trust Fund). It is intended that the underlying investments will invest in fixed income instruments that comply with section 37 and Schedule 1 to the General Regulation. The underlying assets of the Conservative Fund must have an average portfolio remaining maturity period of not more than 90 days. The Conservative Fund must also maintain a total value of HKD currency investment equal to the total market value of the constituent fund, as measured by the effective currency exposure in accordance with section 16 of Schedule 1 to the General Regulation.

Members should note that an investment in the Conservative Fund is not the same as placing funds on deposit with a bank or deposit taking company and that there is no obligation on the part of the Trustee to redeem the investment at the subscription value. In addition, Members should note that the Conservative Fund is not subject to the supervision of the Hong Kong Monetary Authority.

(c) *Security lending and repurchase agreements*

The portfolio of any underlying APIF under the Conservative Fund will not engage in security lending and will not enter into repurchase agreements.

(d) *Futures and options*

The portfolio of any underlying APIF under the Conservative Fund will not acquire financial futures contracts and financial option contracts.

(e) *Risks*

The performance of the Conservative Fund is subject to a number of risks, including the following:

- Market and investment risks
- Early termination risk
- Interest rate risks
- Liquidity risk
- Custodial risk
- Currency risk
- Credit risk and credit rating risk
- Political, economic and social risks
- Counterparty and settlement risk
- Valuation and accounting risk

Please refer to section 4 (*Risk factors*) for a detailed description of each of the risks listed.

3.4.7 Manulife MPF Hong Kong Equity Fund (the “Hong Kong Equity Fund”)

(a) *Objective*

The Hong Kong Equity Fund is a unitised equity fund which is designed to provide medium- to long-term capital growth for Members who hold a longer term investment view and who are prepared to accept significant fluctuations in the value of their investments in order to achieve long-term returns.

(b) *Balance of investments*

It is intended that the underlying investments will be made on a diversified basis with at least 70% in shares of companies listed on the Hong Kong Stock Exchange or companies covering different sectors of the economy in Hong Kong and which are listed on any stock exchange. The underlying portfolio may also include bonds, deposits and other investments as permitted under the General Regulation, up to 30% of the NAV of the Hong Kong Equity Fund. The underlying portfolio may also, via the Stock Connect, invest less than 30% of the Hong Kong Equity Fund's NAV in shares of companies listed in mainland China. The intended asset allocation above is for reference only and may be changed as and when market, political, structural, economic and other conditions change that the investment manager deems appropriate.

(c) *Security lending and repurchase agreements*

The portfolio of any underlying APIF under the Hong Kong Equity Fund will not engage in security lending and will not enter into repurchase agreements.

(d) *Futures and options*

The portfolio of any underlying APIF under the Hong Kong Equity Fund may acquire financial futures contracts and financial option contracts for hedging purposes.

(e) *Risks*

The performance of Hong Kong Equity Fund is subject to a number of risks, including the following:

- Market and investment risks
- Currency risk
- Emerging market risk
- Growth Enterprise Market
- Political, economic and social risks
- Liquidity risk
- Custodial risk
- Risks related to futures and options
- Mainland Chinese assets risk
- Equity investment risks and volatility risk
- RMB currency risk
- Derivatives
- Risks associated with Stock Connect programme
- Concentration risk
- Counterparty and settlement risk
- Valuation and accounting risk
- Early termination risk
- Risks associated with the SME board, ChiNext market and/or the STAR Board

Please refer to section 4 (*Risk factors*) for a detailed description of each of the risks listed.

3.4.8 Manulife MPF International Equity Fund (the “International Equity Fund”)

(a) *Objective*

The International Equity Fund is a unitised equity fund aiming to provide medium to long-term capital growth for Members who hold a longer term investment view and who are prepared to accept fluctuations in the value of their investments in order to achieve long-term returns.

(b) *Balance of investments*

It is intended that the underlying investments will be made on a diversified basis. The underlying portfolio of the International Equity Fund will invest indirectly in global equities and equity-related investment. The investment manager may at its discretion invest in any region such as North America, Japan, Europe, other Pacific Asia region markets and Hong Kong. At least 30% of the International Equity Fund will be exposed to HKD currency investments as measured by the effective currency exposure in accordance with section 16 of Schedule 1 to the General Regulation. The underlying portfolio may also include bonds, deposits and other investments as permitted under the General Regulation, up to 30% of the NAV of the International Equity Fund. The intended asset allocation above is for reference only and may be changed as and when market, political, structural, economic and other conditions change that the investment manager deems appropriate.

(c) *Security lending and repurchase agreements*

The portfolio of any underlying APIF under the International Equity Fund will not engage in security lending and will not enter into repurchase agreements. The underlying ITCIS (if any) may engage in security lending and may enter into repurchase agreements.

(d) *Futures and options*

The portfolio of any underlying APIF under the International Equity Fund may acquire financial futures contracts and financial option contracts for hedging purposes. The underlying ITCIS (if any) may acquire financial futures contracts and financial option contracts.

(e) *Risks*

The performance of International Equity Fund is subject to a number of risks, including the following:

- Market and investment risks
- Currency risk
- Derivatives
- Risks associated with Stock Connect Programme
- Risks related to ITCIS
- Counterparty and settlement risk
- Valuation and accounting risk
- Early termination risk
- RMB currency risk
- Mainland Chinese assets risk
- Risks associated with the SME board, ChiNext market and/or the STAR Board
- Additional risk factors relating to investment in debt securities in onshore and offshore China market
- Equity investment risks and volatility risk
- Emerging market risk
- Growth Enterprise Market
- Political, economic and social risks
- Liquidity risk
- Custodial risk
- Risks related to futures and options

Please refer to section 4 (*Risk factors*) for a detailed description of each of the risks listed.

3.4.9 Manulife MPF Pacific Asia Equity Fund (the “Pacific Asia Equity Fund”)

(a) *Objective*

The Pacific Asia Equity Fund is a unitised equity fund which is designed to provide medium- to long-term capital growth for Members who hold a long-term investment view and who are prepared to accept significant fluctuations in the value of their investments in order to achieve long-term returns.

(b) *Balance of investments*

It is intended that the underlying investments of the Pacific Asia Equity Fund will be made on a diversified basis in shares of companies covering different sectors of the Asia Pacific markets, excluding Japan, and which are listed on any stock exchange. At least 30% of the NAV of the

Pacific Asia Equity Fund will be exposed to HKD currency investments as measured by the effective currency exposure in accordance with section 16 of Schedule 1 to the General Regulation. The underlying portfolio may also include bonds, deposits and other investments as permitted under the General Regulation, up to 30% of the NAV of the Pacific Asia Equity Fund. The intended asset allocation above is for reference only and may be changed as and when market, political, structural, economic and other conditions change that the investment manager deems appropriate.

(c) *Security lending and repurchase agreements*

The portfolio of any underlying APIF under the Pacific Asia Equity Fund will not engage in security lending and will not enter into repurchase agreements.

(d) *Futures and options*

The portfolio of any underlying APIF under the Pacific Asia Equity Fund may acquire financial futures contracts and financial option contracts for hedging purposes.

(e) *Risks*

The performance of the Pacific Asia Equity Fund is subject to a number of risks, including the following:

- Market and investment risks
- Currency risk
- Emerging market risk
- Growth Enterprise Market
- Political, economic and social risks
- Counterparty and settlement risk
- Valuation and accounting risk
- Early termination risk
- Mainland Chinese assets risk
- Risks associated with the SME board, ChiNext market and/or the STAR Board
- Equity investment risks and volatility risk
- RMB currency risk
- Derivatives
- Risks associated with Stock Connect programme
- Liquidity risk
- Custodial risk
- Risks related to futures and options

Please refer to section 4 (*Risk factors*) for a detailed description of each of the risks listed.

3.4.10 Manulife MPF European Equity Fund (the “European Equity Fund”)

(a) *Objective*

The European Equity Fund is a unitised equity fund which seeks to achieve medium- to long-term capital growth for Members who hold a longer term investment view and who are prepared to accept fluctuations in the value of their investments in order to achieve long-term returns.

(b) *Balance of investments*

It is intended that the underlying investments of the European Equity Fund will be made on a diversified basis in shares of companies covering different sectors of the economy in Europe and which are listed on any stock exchange. At least 30% of the NAV of the European Equity Fund will be exposed to HKD currency investments as measured by the effective currency exposure in accordance with section 16 of Schedule 1 to the General Regulation. The underlying portfolio may also include bonds, deposits and other investments as permitted under the General Regulation, up to 30% of the NAV of the European Equity Fund. The intended asset allocation above is for reference only and may be changed as and when market, political, structural, economic and other conditions change that the investment manager deems appropriate.

(c) *Security lending and repurchase agreements*

The portfolio of any underlying APIF under the European Equity Fund will not engage in security lending and will not enter into repurchase agreements.

(d) *Futures and options*

The portfolio of any underlying APIF under the European Equity Fund may acquire financial futures contracts and financial option contracts for hedging purposes.

(e) *Risks*

The performance of the European Equity Fund is subject to a number of risks, including the following:

- Market and investment risks
- Currency risk
- Political, economic and social risks
- Counterparty and settlement risk
- Valuation and accounting risk
- Early termination risk
- Equity investment risks and volatility risk
- Derivatives
- Liquidity risk
- Custodial risk
- Risks related to futures and options

Please refer to section 4 (*Risk factors*) for a detailed description of each of the risks listed.

3.4.11 Manulife MPF North American Equity Fund (the “North American Equity Fund”)

(a) *Objective*

The North American Equity Fund is a unitised equity fund aiming to provide medium- to long-term capital growth for Members who hold a long-term investment view and who are prepared to accept fluctuations in the value of their investments in order to achieve long-term returns.

(b) *Balance of investments*

It is intended that the underlying investments of the North American Equity Fund will be made on a diversified basis in shares of companies covering different sectors of the economy in North America and which are listed on any stock exchange. At least 30% of the NAV of the North American Equity Fund will be exposed to HKD currency investments as measured by the effective currency exposure in accordance with section 16 of Schedule 1 to the General Regulation. The underlying portfolio may also include bonds, deposits and other investments as permitted under the General Regulation, up to 30% of the NAV of the North American Equity Fund. The intended asset allocation above is for reference only and may be changed as and when market, political, structural, economic and other conditions change that the investment manager deems appropriate.

(c) *Security lending and repurchase agreements*

The portfolio of any underlying APIF under the North American Equity Fund will not engage in security lending and will not enter into repurchase agreements.

(d) *Futures and options*

The portfolio of any underlying APIF under the North American Equity Fund may acquire financial futures contracts and financial option contracts for hedging purposes.

(e) *Risks*

The performance of the North American Equity Fund is subject to a number of risks, including the following:

- Market and investment risks
- Currency risk
- Political, economic and social risks
- Counterparty and settlement risk
- Valuation and accounting risk
- Early termination risk
- Equity investment risks and volatility risk
- Derivatives
- Liquidity risk
- Custodial risk
- Risks related to futures and options

Please refer to section 4 (*Risk factors*) for a detailed description of each of the risks listed.

3.4.12 Manulife MPF Japan Equity Fund (the “Japan Equity Fund”)

(a) *Objective*

The Japan Equity Fund is a unitised equity fund which is designed to provide medium- to long-term capital growth for Members who hold a longer term investment view and who are prepared to accept significant fluctuations in the value of their investments in order to achieve long-term returns.

(b) *Balance of investments*

It is intended that the underlying investments of the Japan Equity Fund will be made on a diversified basis in shares of companies covering different sectors of the economy in Japan and which are listed on any stock exchange. At least 30% of the NAV of the Japan Equity Fund will be exposed to HKD currency investments as measured by the effective currency exposure in accordance with section 16 of Schedule 1 to the General Regulation. The underlying portfolio may also include bonds, deposits and other investments as permitted under the General Regulation, up to 30% of the NAV of the Japan Equity Fund. The intended asset allocation above is for reference only and may be changed as and when market, political, structural, economic and other conditions change that the investment manager deems appropriate.

(c) *Security lending and repurchase agreements*

The portfolio of any underlying APIF under the Japan Equity Fund will not engage in security lending and will not enter into repurchase agreements.

(d) *Futures and options*

The portfolio of any underlying APIF under the Japan Equity Fund may acquire financial futures contracts and financial option contracts for hedging purposes.

(e) *Risks*

The performance of the Japan Equity Fund is subject to a number of risks, including the following:

- Market and investment risks
- Currency risk
- Political, economic and social risks
- Liquidity risk
- Custodial risk
- Risks related to futures and options
- Equity investment risks and volatility risk
- Derivatives
- Concentration risk
- Counterparty and settlement risk
- Valuation and accounting risk
- Early termination risk

Please refer to section 4 (*Risk factors*) for a detailed description of each of the risks listed.

3.4.13 Manulife MPF Hong Kong Bond Fund (the “Hong Kong Bond Fund”)

(a) *Objective*

The Hong Kong Bond Fund is a unitised bond fund which is designed to provide a competitive overall rate of return for Members who hold a conservative investment view.

(b) *Balance of investments*

It is intended that the underlying investments of the Hong Kong Bond Fund will be made on a diversified basis with at least 70% of the NAV of the Hong Kong Bond Fund invested in HKD denominated permitted deposits and debt securities (in a portfolio with a range of maturity periods) issued by the Government of Hong Kong or any government, central bank or multilateral international agency. It may also purchase debt securities which satisfy the minimum credit rating stipulated by the MPFA or those which are listed on any approved stock exchange, being a security issued by, or guaranteed by, a company whose shares are so listed. In addition, the underlying portfolio may include other investments as permitted under the General Regulation, up to 30% of the NAV of the Hong Kong Bond Fund. The intended asset allocation above is for reference only, and may be changed as and when market, political, structural, economic and other conditions change that the investment manager deems appropriate.

(c) *Security lending and repurchase agreements*

The portfolio of any underlying APIF under the Hong Kong Bond Fund will not engage in security lending and will not enter into repurchase agreements.

(d) *Futures and options*

The portfolio of any underlying APIF under the Hong Kong Bond Fund may acquire financial futures contracts and financial option contracts for hedging purposes.

(e) *Risks*

The performance of the Hong Kong Bond Fund is subject to a number of risks, including the following:

- Market and investment risks
- Currency risk
- Credit risk and credit rating risk
- Political, economic and social risks
- Liquidity risk
- Custodial risk
- Risks related to futures and options
- Equity investment risks and volatility risk
- Derivatives
- Interest rate risks
- Concentration risk
- Counterparty and settlement risk
- Valuation and accounting risk
- Early termination risk

Please refer to section 4 (*Risk factors*) for a detailed description of each of the risks listed.

3.4.14 Manulife MPF RMB Bond Fund (the “RMB Bond Fund”)

(a) *Objective*

The RMB Bond Fund is a unitised bond fund which is designed to provide competitive overall rate of returns for Members who hold a longer-term investment view and want to seek returns through capital appreciation and income generation.

(b) *Balance of investments*

Both the RMB Bond Fund and its underlying APIF are denominated in HKD and not in RMB. The underlying investments will be made on a diversified basis (in terms of issuers and geographical distribution of such issuers) with at least 70% of the NAV of the RMB Bond Fund invested in RMB denominated debt securities that are issued, traded or distributed by any government, central bank, supra-nationals, multilateral international agencies and corporate issuers. It may also purchase RMB denominated debt securities which satisfy the minimum credit rating stipulated by the MPFA or those which are listed on any approved stock exchange being a security issued by, or guaranteed by, a company whose shares are so listed. These RMB denominated debt securities include but are not limited to bonds and convertible debt securities.

The RMB Bond Fund may also, through the underlying APIF, invest up to 30% of its NAV in other RMB or non-RMB denominated investments including money market instruments, certificates of deposits, cash and deposits, and non-RMB denominated debt securities, as permitted under the General Regulation. The non-RMB denominated investments are primarily denominated in HKD or US dollars, but may also be denominated in other currencies in the Asia Pacific region, as the investment manager deems appropriate having regard to various market conditions. It is intended that the non-RMB denominated investment exposure may help to mitigate the risks arising from RMB exchange rate fluctuations, provide flexibility to achieve steady growth over the long term in different market conditions and/or reduce the cost of currency hedging.

The RMB Bond Fund will maintain an effective currency exposure to HKD of not less than 30% of its NAV in accordance with section 16 of Schedule 1 to the General Regulation through investments in HKD or currency hedging.

The target ranges of asset allocation of the underlying APIF are as follows:

By investment type:	
Debt securities	70%-100%
Other instruments including money market instruments, certificates of deposits, cash and deposits	0%-30%
By currency:	
RMB denominated investments	70%-100%
Non-RMB denominated investments	0%-30%

The asset allocation of the underlying APIF may, at the discretion of its investment manager, deviate from the above target ranges during the period when there may be adverse impacts to the performance of the underlying APIF due to market, political, structural, economic and other conditions change as determined by the investment manager acting in good faith and in a reasonable manner.

(c) *Security lending and repurchase agreements*

Both the RMB Bond Fund and the portfolio of any underlying APIF will not engage in security lending and will not enter into repurchase agreements.

(d) *Futures and options*

The RMB Bond Fund will not acquire financial future contracts and financial option contracts. However, the portfolio of any underlying APIF may acquire financial futures contracts and financial option contracts for hedging purposes.

(e) *Risks*

The performance of the RMB Bond Fund is subject to a number of risks, including the following:

- Market and investment risks
- RMB currency risk
- Derivatives
- Interest rate risks
- Concentration risk
- Counterparty and settlement risk
- Valuation and accounting risk
- Early termination risk
- Currency risk relating to RMB valuation
- Mainland Chinese assets risk
- Currency risk
- Emerging market risk
- Credit risk and credit rating risk
- Political, economic and social risks
- Liquidity risk
- Custodial risk
- Risks related to futures and options
- Additional risk factors for investment in RMB denominated debt securities
- Additional risk factors relating to investment in debt securities in onshore and offshore China market

Please refer to section 4 (*Risk factors*) for a detailed description of each of the risks listed.

3.4.15 Manulife MPF Pacific Asia Bond Fund (the “Pacific Asia Bond Fund”)

(a) *Objective*

The Pacific Asia Bond Fund is a unitised bond fund which is designed to provide competitive overall rate of returns for Members who hold a longer term investment view and want to seek returns through income and capital appreciation.

(b) *Balance of investments*

It is intended that the underlying investments of the Pacific Asia Bond Fund will be made on a diversified basis mainly in debt securities issued by any government, central bank, supra-nationals, multilateral international agency or corporate issuers in the Asia Pacific region. It may also purchase debt securities which satisfy the minimum credit rating stipulated by the MPFA or those which are listed on any approved stock exchange being a security issued by, or guaranteed by, a company whose shares are so listed. At least 30% of the NAV of the Pacific Asia Bond Fund will be exposed to HKD currency investments, as measured by the effective currency exposure in accordance with section 16 of Schedule 1 to the General Regulation. The underlying portfolio may also include other investments as permitted under the General Regulation, up to 30% of the NAV of the Pacific Asia Bond Fund. The intended asset allocation above is for reference only and may be changed as and when market, political, structural, economic and other conditions change that the investment manager deems appropriate.

(c) *Security lending and repurchase agreements*

The portfolio of any underlying APIF under the Pacific Asia Bond Fund will not engage in security lending and will not enter into repurchase agreements.

(d) *Futures and options*

The portfolio of any underlying APIF under the Pacific Asia Bond Fund may acquire financial futures contracts and financial option contracts for hedging purposes.

(e) *Risks*

The performance of the Pacific Asia Bond Fund is subject to a number of risks, including the following:

- Market and investment risks
- RMB currency risk
- Derivatives
- Interest rate risks
- Liquidity risk
- Custodial risk
- Risks related to futures and options
- Mainland Chinese assets risk
- Currency risk
- Emerging market risk
- Credit risk and credit rating risk
- Political, economic and social risks
- Counterparty and settlement risk
- Valuation and accounting risk
- Early termination risk
- Additional risk factors relating to investment in debt securities in onshore and offshore China market

Please refer to section 4 (*Risk factors*) for a detailed description of each of the risks listed.

3.4.16 Manulife MPF International Bond Fund (the “International Bond Fund”)

(a) *Objective*

The International Bond Fund is a unitised bond fund which is designed to provide competitive overall rates of return for Members who want to have a stable return.

(b) *Balance of investments*

It is intended that the underlying investments of the International Bond Fund will be made on a diversified basis mainly in permitted deposits and debt securities issued by any government, central bank or multilateral international agency. It may also purchase debt securities which satisfy the minimum credit rating stipulated by the MPFA or those which are listed on any approved stock exchange being a security issued by, or guaranteed by, a company whose shares are so listed. At least 30% of the NAV of the International Bond Fund will be exposed to HKD currency investments, as measured by the effective currency exposure in accordance with section 16 of Schedule 1 to the General Regulation. The investment manager may at its discretion invest in any region such as North America, Europe, United Kingdom and Asia. The underlying portfolio may also include other investments as permitted under the General Regulation, up to 30% of the NAV of the International Bond Fund. The intended asset allocation above is for reference only and may be changed as and when market, political, structural, economic and other conditions change that the investment manager deems appropriate.

(c) *Security lending and repurchase agreements*

The portfolio of any underlying APIF under the International Bond Fund will not engage in security lending and will not enter into repurchase agreements.

(d) *Futures and options*

The portfolio of any underlying APIF may acquire financial futures contracts and financial option contracts for hedging purposes.

(e) *Risks*

The performance of the International Bond Fund is subject to a number of risks, including the following:

- Market and investment risks
- Emerging market risk
- Credit risk and credit rating risk
- Political, economic and social risks
- Liquidity risk
- Custodial risk
- Risks related to futures and options
- Mainland Chinese assets risk
- RMB currency risk
- Currency risk
- Derivatives
- Interest rate risks
- Counterparty and settlement risk
- Valuation and accounting risk
- Early termination risk
- Additional risk factors relating to investment in debt securities in onshore and offshore China market

Please refer to section 4 (*Risk factors*) for a detailed description of each of the risks listed.

3.4.17 Manulife MPF China Value Fund (the “China Value Fund”)

(a) Objective

The China Value Fund is a unitised equity fund which is designed to provide medium- to long-term capital growth for Members who hold a longer term investment view and who are prepared to accept significant fluctuations in the value of their investments in order to achieve long-term returns.

(b) Balance of investments

It is intended that the underlying investments of the China Value Fund will be made on a diversified basis mainly in shares of companies covering different sectors of the economy in the Greater China region, which includes the People’s Republic of China (“**PRC**”), Hong Kong and Taiwan, and which are listed on any stock exchange subject to the restrictions in the General Regulation and which have a value or growth proposition. At least 30% of the NAV of the China Value Fund will be exposed to HKD currency investments as measured by the effective currency exposure in accordance with section 16 of Schedule 1 to the General Regulation. The underlying portfolio may also include bonds, deposits and other investments as permitted under the General Regulation, up to 30% of the NAV of the China Value Fund. The intended asset allocation above is for reference only and may be changed as and when market, political, structural, economic and other conditions change that the investment manager deems appropriate.

(c) Security lending and repurchase agreements

The portfolio of any underlying APIF under the China Value Fund will not engage in security lending and will not enter into repurchase agreements.

(d) Futures and options

The portfolio of any underlying APIF under the China Value Fund may acquire financial futures contracts and financial option contracts for hedging purposes.

(e) Risks

The performance of the China Value Fund is subject to a number of risks, including the following:

- Market and investment risks
- Currency risk
- Emerging market risk
- Growth Enterprise Market
- Political, economic and social risks
- Liquidity risk
- Custodial risk
- Risks related to futures and options
- Mainland Chinese assets risk
- Risks associated with the SME board, ChiNext market and/or the STAR Board
- Equity investment risks and volatility risk
- RMB currency risk
- Derivatives
- Risks associated with Stock Connect programme
- Concentration risk
- Counterparty and settlement risk
- Valuation and accounting risk
- Early termination risk

Please refer to section 4 (*Risk factors*) for a detailed description of each of the risks listed.

3.4.18 Manulife MPF Healthcare Fund (the “Healthcare Fund”)

(a) Objective

The Healthcare Fund is a unitised equity fund which is designed to provide long-term capital growth for Members who hold a long-term investment view and who are prepared to accept significant fluctuations in the value of their investments in order to achieve long-term returns.

(b) Balance of investments

It is intended that the underlying investments of the Healthcare Fund will be made on a diversified basis mainly consisting of equity-related investments and equities of companies in health care and related industries and which are listed on any stock exchange. The underlying portfolio may invest in share of companies covering mainly in pharmaceutical, healthcare equipment and services, food and drug retails, managed care business and biotechnology

sectors. At least 30% of the NAV of the Healthcare Fund will be exposed to HKD currency investments as measured by the effective currency exposure in accordance with section 16 of Schedule 1 to the General Regulation. The investment manager may at its discretion invest in any region such as North America (including Canada), Europe (including the United Kingdom), Asia and Japan. The underlying portfolio may also include bonds, deposits and other investments as permitted under the General Regulation, up to 30% of the NAV of the Healthcare Fund. The intended asset allocation above is for reference only and may be changed as and when market, political, structural, economic and other conditions change that the investment manager deems appropriate.

(c) *Security lending and repurchase agreements*

The portfolio of any underlying APIF under the Healthcare Fund will not engage in security lending and will not enter into repurchase agreements.

(d) *Futures and options*

The portfolio of any underlying APIF under the Healthcare Fund may acquire financial futures contracts and financial option contracts for hedging purposes.

(e) *Risks*

The performance of the Healthcare Fund is subject to a number of risks, including the following:

- Market and investment risks
- Currency risk
- Derivatives
- Liquidity risk
- Custodial risk
- Risks related to futures and options
- Equity investment risks and volatility risk
- Emerging market risk
- Political, economic and social risks
- Counterparty and settlement risk
- Valuation and accounting risk
- Early termination risk

Please refer to section 4 (*Risk factors*) for a detailed description of each of the risks listed.

3.4.19 Manulife MPF Hang Seng Index Tracking Fund (the “Hang Seng Index Tracking Fund”)

(a) *Objective*

The Hang Seng Index Tracking Fund is a unitised equity fund which is designed to provide medium- to long-term capital growth for Members who hold a longer term investment view and who are prepared to accept significant fluctuations in the value of their investments in order to achieve long-term returns.

The Hang Seng Index Tracking Fund seeks to track the performance of the Hang Seng Index of Hong Kong. However, Members should note that there is no guarantee or assurance of exact or identical replication at any time of the performance of the Hang Seng Index.

(b) *Balance of investments*

It is intended that the underlying investments of the Hang Seng Index Tracking Fund will invest in shares of constituent companies of the Hang Seng Index in substantially similar composition and weighting as they appear in the index through an ITCIS (currently, the Tracker Fund of Hong Kong managed by State Street Global Advisors Asia Limited). The Hang Seng Index is a widely quoted indicator of the performance of some of the largest companies in terms of capitalization listed on the Main Board of the Hong Kong Stock Exchange. Information about Hang Seng Index can be found in **Appendix A**.

(c) *Security lending and repurchase agreements*

The portfolio of any underlying APIF under the Hang Seng Index Tracking Fund will not engage in security lending and will not enter into repurchase agreements. The underlying ITCIS will not engage in security lending.

(d) *Futures and options*

The underlying ITCIS may acquire financial futures contracts and financial option contracts for the purpose of hedging or achieving the investment objective.

(e) *Risks*

The performance of the Hang Seng Index Tracking Fund is subject to a number of risks, including the following:

- Market and investment risks
- Emerging market risk
- Political, economic and social risks
- Risks related to ITCIS
- Risks associated with investment in underlying fund
- Counterparty and settlement risk
- Valuation and accounting risk
- Early termination risk
- Equity investment risks and volatility risk
- Derivatives
- Concentration risk
- Risks relating to investing solely in a single ITCIS
- Liquidity risk
- Custodial risk
- Risks related to futures and options
- Additional risks related to the Manulife MPF Hang Seng Index Tracking Fund

Please refer to section 4 (*Risk factors*) for a detailed description of each of the risks listed.

3.4.20 Manulife MPF Fidelity Growth Fund (the “Fidelity Growth Fund”)

(a) *Objective*

The Fidelity Growth Fund is designed to provide long-term capital growth for Members who hold a long-term investment view and who are prepared to accept significant fluctuations in the value of their investments in order to achieve a long-term return. The underlying investments of the Fidelity Growth Fund will focus its investments into the global equity markets while enjoying the flexibility of investing in global bonds. It will be managed with a view to limiting the volatility of returns in the short term.

(b) *Balance of investments*

The assets of the first level pooled investment fund under the Fidelity Growth Fund will be invested as a feeder fund into the respective APIF operated within the umbrella unit trust structure currently managed by FIL Investment Management (Hong Kong) Limited.

It is intended that the investments of the APIF will be on a geographically diversified basis with a bias towards Hong Kong. Approximately 90% of the portfolio of the underlying APIF will be invested in global equities in the markets of Hong Kong, Europe, Japan, America and the Asia Pacific region.

(c) *Security lending and repurchase agreements*

The APIF managed by FIL Investment Management (Hong Kong) Limited may not engage in security lending and may not enter into repurchase agreements.

(d) *Futures and options*

The APIF managed by FIL Investment Management (Hong Kong) Limited may acquire financial futures contracts and financial option contracts for hedging purposes.

(e) *Risks*

The performance of the Fidelity Growth Fund is subject to a number of risks, including the following:

- Market and investment risks
- Currency risk
- Risks associated with Stock Connect programme
- Interest rate risks
- Risks associated with investment in underlying funds
- Counterparty and settlement risk
- Valuation and accounting risk
- Derivatives
- Emerging market risk
- RMB currency risk
- Mainland Chinese assets risk
- Risks associated with the SME board, ChiNext market and/or the STAR Board
- Additional risk factors relating to investment in debt securities in onshore and offshore China market
- Equity investment risks and volatility risk
- Growth Enterprise Market
- Credit risk and credit rating risk
- Political, economic and social risks
- Liquidity risk
- Custodial risk
- Early termination risk
- Risks related to futures and options

Please refer to section 4 (*Risk factors*) for a detailed description of each of the risks listed.

3.4.21 Manulife MPF Fidelity Stable Growth Fund (the “Fidelity Stable Growth Fund”)

(a) Objective

The Fidelity Stable Growth Fund is designed to provide medium- to long-term capital growth for Members who hold a medium to longer term investment view and who are prepared to accept fluctuations in the value of their investments in order to achieve a medium- to long-term return. The underlying investments of the Fidelity Stable Growth Fund will diversify its investment between equities and bonds and will be managed with a view to limiting the volatility of returns in the short term.

(b) Balance of investments

The assets of the first level pooled investment fund under the Fidelity Stable Growth Fund will be invested as a feeder fund into the respective APIF operated within the umbrella unit trust structure currently managed by FIL Investment Management (Hong Kong) Limited.

It is intended that the investments of the APIF will be on a geographically diversified basis with a bias towards Hong Kong. Approximately 50% of the portfolio of the underlying APIF will be invested in global equities and 45% of the portfolio of the underlying APIF will be invested in global bonds in the markets of Hong Kong, Europe, Japan, America and the Asia Pacific region, with the remainder of 5% of the assets being in cash deposits as permitted under the General Regulation.

(c) Security lending and repurchase agreements

The APIF managed by FIL Investment Management (Hong Kong) Limited may not engage in security lending and may not enter into repurchase agreements.

(d) Futures and options

The APIF managed by FIL Investment Management (Hong Kong) Limited may acquire financial futures contracts and financial option contracts for hedging purposes.

(e) Risks

The performance of the Fidelity Stable Growth Fund is subject to a number of risks, including the following:

- Market and investment risks
- Currency risk
- Risks associated with Stock Connect programme
- Interest rate risks
- Risks associated with investment in underlying funds
- Counterparty and settlement risk
- Valuation and accounting risk
- Derivatives
- Emerging market risk
- RMB currency risk
- Mainland Chinese assets risk
- Risks associated with the SME board, ChiNext market and/or the STAR Board
- Additional risk factors relating to investment in debt securities in onshore and offshore China market
- Equity investment risks and volatility risk
- Growth Enterprise Market
- Credit risk and credit rating risk
- Political, economic and social risks
- Liquidity risk
- Custodial risk
- Early termination risk
- Risks related to futures and options

Please refer to section 4 (*Risk factors*) for a detailed description of each of the risks listed.

3.4.22 Manulife MPF Core Accumulation Fund (the “Core Accumulation Fund” or “CAF”)

(a) Objective

The investment objective of the Core Accumulation Fund is to provide capital growth to Members by investing in a globally diversified manner. The Core Accumulation Fund is a unitised fund and is intended for Members who hold a medium- to long-term investment view and want to seek returns through capital appreciation and modest income generation. Members should be prepared to accept fluctuations in the value of investments.

(b) *Balance of investments*

The CAF invests solely into an APIF (the Manulife Core Accumulation Unit Trust Fund), which, in turn, invests as a feeder fund into an underlying APIF, currently the Vanguard Moderate Growth Fund (the “**second level APIF**”).

Through the underlying investment, it is intended that the NAV of the CAF will be invested approximately 60% in higher risk assets, with the remainder invested in lower risk assets. The asset allocation to higher risk assets may vary between 55% and 65% due to differing price movements of various equity and bond markets.

The investments of the second level APIF will be made globally in securities listed on approved stock exchanges, government bonds, money market instruments, ITCIS and other investments as permitted under the applicable laws and regulations including the General Regulation and guidelines issued by the MPFA.

There is no prescribed allocation for investments in any specific countries or currencies.

The CAF will adopt a passive investment strategy (through indirectly investing in the second level APIF) in order to reduce the deviation of performance from the CAF Reference Portfolio. The investment manager will use sampling techniques in its passive investment strategy to select securities for investment for efficient portfolio management. Sampling is an approach whereby the investment manager tracks the CAF Reference Portfolio by investing in a representative portion, or “sample”, of the full list of securities contained in the CAF Reference Portfolio, such that the overall characteristics of the portion of securities would be similar to those of the full list of securities contained in the CAF Reference Portfolio. Applying sampling techniques to the second level APIF, the investment manager will seek to hold a range of securities that, in the aggregate, approximate the CAF Reference Portfolio in terms of the key characteristics:

- (i) in respect of the equity investments, the securities will consist of a broadly-diversified collection of stocks that approximate those included in the CAF Reference Portfolio in terms of factors such as country weightings, industry weightings, market capitalization and other financial characteristics of stocks; and
- (ii) in respect of the bond investments, the securities will be made in consideration of factors such as country weightings, duration and cash flow.

Under the sampling techniques, the vast majority of the holdings of the second level APIF will be constituent securities that are within the universe of the CAF Reference Portfolio, except in limited circumstances for efficient portfolio management. Such limited circumstances may include but not limited to where:

- (A) it is not possible or it is difficult to buy or hold constituent securities (e.g. due to liquidity or restrictions of ownership of such constituent securities);
- (B) the holding of non-constituent securities which were originally constituent securities is, in the opinion of the investment manager, more cost efficient to reflect the overall characteristics of the CAF Reference Portfolio;
- (C) investment in the constituent securities is not the most efficient way to reflect the performance of the CAF Reference Portfolio (e.g. when it is more cost efficient to invest in the non-constituent securities which reflect the overall characteristics of the CAF Reference Portfolio);
- (D) the non-constituent securities which are, in the reasonable opinion of the investment manager, likely to form part of the CAF Reference Portfolio within six months of acquisition;

- (E) the non-constituent securities which the investment manager considers to be an appropriate substitute for the constituent securities of the CAF Reference Portfolio having regard to the investment objectives of the second level APIF; and
- (F) to gain exposure to permissible securities under the General Regulation in countries where such access is otherwise limited.

The CAF will, through the underlying APIFs, maintain an effective currency exposure to HKD of not less than 30% of its NAV in accordance with section 16 of Schedule 1 to the General Regulation through investments in HKD or currency hedging.

(c) *Security lending and repurchase agreements*

The CAF will not engage in security lending and will not enter into repurchase agreements.

(d) *Futures and options*

The CAF may, through the underlying APIFs, acquire currency forward contracts, financial futures contracts and financial option contracts for hedging purposes.

(e) *Risks*

The performance of the Core Accumulation Fund is subject to a number of risks, including the following:

- Market and investment risks
- Currency risk
- Derivatives
- Interest rate risks
- Risks related to ITCIS
- Liquidity risk
- Custodial risk
- Risks related to futures and options
- Additional key risks relating to the DIS
- Equity investment risks and volatility risk
- Emerging market risk
- Credit risk and credit rating risk
- Political, economic and social risks
- Risks associated with investment in underlying funds
- Counterparty and settlement risk
- Valuation and accounting risk
- Early termination risk
- Additional risks related to the DIS CFs

Please refer to section 4 (*Risk factors*) for a detailed description of each of the risks listed.

3.4.23 Manulife MPF Age 65 Plus Fund (the “Age 65 Plus Fund” or “A65F”)

(a) *Objective*

The investment objective of the Age 65 Plus Fund is to provide stable growth to Members by investing in a globally diversified manner. The Age 65 Plus Fund is a unitised fund of the Scheme and is intended for Members who hold a medium- to long-term investment view and want to seek returns through some capital appreciation and current income generation. Members should be prepared to accept fluctuation in the value of investments.

(b) *Balance of investments*

The A65F invests solely into an APIF (the Manulife Age 65 Plus Unit Trust Fund), which, in turn, invests as a feeder fund into an underlying APIF, currently the Vanguard Income Fund (the “**second level APIF**”).

Through the underlying investment, it is intended that the net assets of the A65F will be invested approximately 20% in higher risk assets, with the remainder invested in lower risk assets. The asset allocation to higher risk assets may vary between 15% and 25% due to differing price movements of various equity and bond markets.

The investments of the second level APIF will be made globally in securities listed on approved stock exchanges, government bonds, money market instruments, ITCIS and other investments as permitted under the applicable laws and regulations including the General Regulation and the guidelines issued by the MPFA.

There is no prescribed allocation for investments in any specific countries or currencies.

The A65F will adopt a passive investment strategy (through indirectly investing in the second level APIF) in order to reduce the deviation of performance from the A65F Reference Portfolio. The investment manager will use sampling techniques in its passive investment strategy to select securities for investment for efficient portfolio management. Sampling is an approach whereby the investment manager tracks the A65F Reference Portfolio by investing in a representative portion, or “sample”, of the full list of securities contained in the A65F Reference Portfolio, such that the overall characteristics of the portion of securities would be similar to those of the full list of securities contained in the A65F Reference Portfolio. Applying sampling techniques to the second level APIF, the investment manager will seek to hold a range of securities that, in the aggregate, approximate the A65F Reference Portfolio in terms of the key characteristics:

- (i) in respect of the equity investments, the securities will consist of a broadly diversified collection of stocks that approximate those included in the A65F Reference Portfolio in terms of factors such as country weightings, industry weightings, market capitalization and other financial characteristics of stocks; and
- (ii) in respect of the bond investments, the securities will be made in consideration of factors such as country weightings, duration and cash flow.

Under the sampling techniques, the vast majority of the holdings of the second level APIF will be constituent securities that are within the universe of the A65F Reference Portfolio, except in limited circumstances for efficient portfolio management. Such limited circumstances may include but not limited to where:

- (A) it is not possible or it is difficult to buy or hold constituent securities (e.g. due to liquidity or restrictions of ownership of such constituent securities);
- (B) the holding of non-constituent securities which were originally constituent securities is, in the opinion of the investment manager, more cost efficient to reflect the overall characteristics of the A65F Reference Portfolio;
- (C) investment in constituent securities is not the most efficient way to reflect the performance of the A65F Reference Portfolio (e.g. when it is more cost efficient to invest in the non-constituent securities which reflect the overall characteristics of the A65F Reference Portfolio);
- (D) the non-constituent securities which are, in the reasonable opinion of the investment manager, likely to form part of the A65F Reference Portfolio within six months of acquisition;
- (E) the non-constituent securities which the investment manager considers to be an appropriate substitute for the constituent securities of the A65F Reference Portfolio having regard to investment objectives of the second level APIF; and
- (F) to gain exposure to permissible securities under the General Regulation in countries where such access is otherwise limited.

The A65F will, through the underlying APIFs, maintain an effective currency exposure to HKD of not less than 30% of its NAV in accordance with section 16 of Schedule 1 to the General Regulation through investments in HKD or currency hedging.

(c) Security lending and repurchase agreements

The A65F will not engage in security lending and will not enter into repurchase agreements.

(d) Futures and options

The A65F may, through the underlying APIFs, acquire currency forward contracts, financial futures contracts and financial option contracts for hedging purposes.

(e) *Risks*

The performance of the Age 65 Plus Fund is subject to a number of risks, including the following:

- Market and investment risks
- Currency risk
- Derivatives
- Interest rate risks
- Risks related to ITCIS
- Liquidity risk
- Custodial risk
- Risks related to futures and options
- Additional key risks relating to the DIS
- Equity investment risks and volatility risk
- Emerging market risk
- Credit risk and credit rating risk
- Political, economic and social risks
- Risks associated with investment in underlying funds
- Counterparty and settlement risk
- Valuation and accounting risk
- Early termination risk
- Additional risks related to the DIS CFs

Please refer to section 4 (*Risk factors*) for a detailed description of each of the risks listed.

Retirement Funds

3.4.24 Manulife MPF Smart Retirement Fund (the “Smart Retirement Fund”)

(a) *Objective*

The Smart Retirement Fund is a unitised fund and is a matured Retirement Fund designed to enable accrued benefits investing in any other Retirement Funds upon their maturity to be switched to the Smart Retirement Fund. The Smart Retirement Fund aims to provide medium- to long-term capital growth for Members who hold a longer term investment view and who are prepared to accept significant fluctuations in the value of their investments in order to achieve potential medium- to long-term returns.

(b) *Balance of investments*

It is intended that the underlying investments of the Smart Retirement Fund will be made on a diversified basis. Around 40% to 60% of the NAV of the underlying portfolio of the Smart Retirement Fund will be indirectly invested in equities and equity-related investments, with the remainder of the assets being indirectly invested in bonds, deposits and other investments as permitted under the General Regulation. The investment manager may at its discretion invest in regions such as America, Pacific Asia, Japan and Europe, etc. The asset allocation strategy of the underlying portfolio will contain equities and fixed income securities as described in the illustrative Glide Path in section 3.5 (*Glide Path for Retirement Funds*).

At least 30% of the NAV of the Smart Retirement Fund will be exposed to HKD currency investments as measured by the effective currency exposure in accordance with section 16 of Schedule 1 to the General Regulation. The intended asset allocation above and the Glide Path are for reference only and may be changed as and when market, political, structural, economic and other conditions change that the investment manager deems appropriate.

(c) *Security lending and repurchase agreements*

The portfolio of any underlying APIF under the Smart Retirement Fund will not engage in security lending and will not enter into repurchase agreements. The underlying ITCIS (if any) may engage in security lending and may enter into repurchase agreements.

(d) *Futures and options*

The portfolio of any underlying APIF under the Smart Retirement Fund may acquire financial future contracts and financial option contracts for hedging purposes. The underlying ITCIS (if any) may acquire financial futures contracts and financial option contracts.

(e) *Risks*

The performance of the Smart Retirement Fund is subject to a number of risks, including the following:

- Market and investment risks
- Emerging market risk
- Risks associated with Stock Connect programme
- Interest rate risks
- Risks related to ITCIS
- Liquidity risk
- Custodial risk
- Risks related to futures and options
- Additional risk factors for investment in the Retirement Funds
- RMB currency risk
- Mainland Chinese assets risk
- Additional risk factors relating to investment in debt securities in onshore and offshore China market
- Equity investment risks and volatility risk
- Derivatives
- Credit risk and credit rating risk
- Political, economic and social risks
- Risks associated with investment in underlying funds
- Counterparty and settlement risk
- Valuation and accounting risk
- Early termination risk
- Currency risk
- Risks associated with the SME board, ChiNext market and/or the STAR Board

Please refer to section 4 (*Risk factors*) for a detailed description of each of the risks listed.

3.4.25 Manulife MPF 2025 Retirement Fund (the “2025 Retirement Fund”)

(a) *Objective*

The 2025 Retirement Fund is a unitised fund designed for Members expecting to attain their normal retirement age around 2025. The 2025 Retirement Fund aims to provide long-term capital growth while lowering the risk of loss as the Members approach their normal retirement age.

The 2025 Retirement Fund is designed for Members who hold a long-term investment view up to and even beyond their normal retirement age and who are prepared to accept significant fluctuations in the value of their investments even up to their normal retirement age in order to achieve a potential of long-term returns.

The 2025 Retirement Fund has a maturity date which is either (i) the last Business Day of 2025, or where, in the reasonable opinion of the Trustee, the last Business Day of 2025 is not feasible to be the maturity date for whatever reason, then the next Business Day; or (ii) such other date as approved by the MPFA. Subject to the approval of the MPFA and the SFC, upon reaching its maturity date, the 2025 Retirement Fund will be closed with Member's accumulation being invested into the Smart Retirement Fund (or an equivalent fund available at that time). Please refer to section 3.6 (*Termination of the Retirement Funds (other than the Smart Retirement Fund)*) for details.

(b) *Balance of investment*

It is intended that the underlying investments of the 2025 Retirement Fund will be made on a diversified basis. At launch in 2011, the target mix of the underlying portfolio of the 2025 Retirement Fund was around 75% to 95% of the NAV of the underlying portfolio indirectly invested in equities and equity-related investments, with the remainder of the assets being indirectly invested in bonds, deposits and other investments as permitted under the General Regulation. The investment manager may at its discretion invest in regions such as America, Pacific Asia, Japan and Europe, etc. When the 2025 Retirement Fund gets closer to its maturity date, the asset allocation strategy of the underlying portfolio will become less aggressive and will contain increasing allocation of fixed-income securities as described in the illustrative Glide Path in section 3.5 (*Glide Path for Retirement Funds*). This rebalancing to the Glide Path is carried out by the investment manager automatically on a regular basis.

At least 30% of the NAV of the 2025 Retirement Fund will be exposed to HKD currency investments as measured by the effective currency exposure in accordance with section 16 of Schedule 1 to the General Regulation. The intended asset allocation above and the Glide Path are for reference only and may be changed as and when market, political, structural, economic and other conditions change that the investment manager deems appropriate.

(c) *Security lending and repurchase agreements*

The portfolio of any underlying APIF under the 2025 Retirement Fund will not engage in security lending and will not enter into repurchase agreements. The underlying ITCIS (if any) may engage in security lending and may enter into repurchase agreements.

(d) *Futures and options*

The portfolio of any underlying APIF under the 2025 Retirement Fund may acquire financial futures contracts and financial option contracts for hedging purposes. The underlying ITCIS (if any) may acquire financial futures contracts and financial option contracts.

(e) *Risks*

The performance of the 2025 Retirement Fund is subject to a number of risks, including the following:

- Market and investment risks
- Currency risk
- Derivatives
- Credit risk and credit rating risk
- Political, economic and social risks
- Risks associated with investment in underlying funds
- Counterparty and settlement risk
- Valuation and accounting risk
- Early termination risk
- RMB currency risk
- Mainland Chinese assets risk
- Risks associated with the SME board, ChiNext market and/or the STAR Board
- Additional risk factors relating to investment in debt securities in onshore and offshore China market
- Equity investment risks and volatility risk
- Emerging market risk
- Risks associated with Stock Connect programme
- Interest rate risks
- Risks related to ITCIS
- Liquidity risk
- Custodial risk
- Risks related to futures and options
- Additional risk factors for investment in the Retirement Funds

Please refer to section 4 (*Risk factors*) for a detailed description of each of the risks listed.

3.4.26 Manulife MPF 2030 Retirement Fund (the “2030 Retirement Fund”)

(a) *Objective*

The 2030 Retirement Fund is a unitised fund designed for Members expecting to attain their normal retirement age around 2030. The 2030 Retirement Fund aims to provide long-term capital growth while lowering the risk of loss as the Members approach their normal retirement age.

The 2030 Retirement Fund is designed for Members who hold a long-term investment view up to and even beyond their normal retirement age and who are prepared to accept significant fluctuations in the value of their investments even up to their normal retirement age in order to achieve a potential of long-term returns.

The 2030 Retirement Fund has a maturity date which is either (i) the last Business Day of 2030, or where, in the reasonable opinion of the Trustee, the last Business Day of 2030 is not feasible to be the maturity date for whatever reason, then the next Business Day; or (ii) such other date as approved by the MPFA. Subject to the approval of the MPFA and the SFC, upon reaching its maturity date, the 2030 Retirement Fund will be closed with Member's accumulation being invested into the Smart Retirement Fund (or an equivalent fund available at that time). Please refer to section 3.6 (*Termination of the Retirement Funds (other than the Smart Retirement Fund)*) for details.

(b) *Balance of investments*

It is intended that the underlying investments of the 2030 Retirement Fund will be made on a diversified basis. At launch in 2011, the target mix of the underlying portfolio of the 2030 Retirement Fund was around 75% to 95% of the NAV of the underlying portfolio indirectly invested in equities and equity-related investments, with the remainder of the assets being indirectly invested in bonds, deposits and other investments as permitted under the General

Regulation. The investment manager may at its discretion invest in regions such as America, Pacific Asia, Japan and Europe, etc. When the 2030 Retirement Fund gets closer to its maturity date, the asset allocation strategy of the underlying portfolio will become less aggressive and will contain increasing allocation of fixed-income securities as described in the illustrative Glide Path in section 3.5 (*Glide Path for Retirement Funds*). This rebalancing to the Glide Path is carried out by the investment manager automatically on a regular basis.

At least 30% of the NAV of the 2030 Retirement Fund will be exposed to HKD currency investments as measured by the effective currency exposure in accordance with section 16 of Schedule 1 to the General Regulation. The intended asset allocation above and the Glide Path are for reference only and may be changed as and when market, political, structural, economic and other conditions change that the investment manager deems appropriate.

(c) *Security lending and repurchase agreements*

The portfolio of any underlying APIF under the 2030 Retirement Fund will not engage in security lending and will not enter into repurchase agreements. The underlying ITCIS (if any) may engage in security lending and may enter into repurchase agreements.

(d) *Futures and options*

The portfolio of any underlying APIF under the 2030 Retirement Fund may acquire financial futures contracts and financial option contracts for hedging purposes. The underlying ITCIS (if any) may acquire financial futures contracts and financial option contracts.

(e) *Risks*

The performance of the 2030 Retirement Fund is subject to a number of risks, including the following:

- Market and investment risks
- Currency risk
- Derivatives
- Credit risk and credit rating risk
- Political, economic and social risks
- Risks associated with investment in underlying funds
- Counterparty and settlement risk
- Valuation and accounting risk
- Early termination risk
- RMB currency risk
- Mainland Chinese assets risk
- Risks associated with the SME board, ChiNext market and/or the STAR Board
- Additional risk factors relating to investment in debt securities in onshore and offshore China market
- Equity investment risks and volatility risk
- Emerging market risk
- Risks associated with Stock Connect programme
- Interest rate risks
- Risks related to ITCIS
- Liquidity risk
- Custodial risk
- Risks related to futures and options
- Additional risk factors for investment in the Retirement Funds

Please refer to section 4 (*Risk factors*) for a detailed description of each of the risks listed.

3.4.27 Manulife MPF 2035 Retirement Fund (the “2035 Retirement Fund”)

(a) *Objective*

The 2035 Retirement Fund is a unitised fund designed for Members expecting to attain their normal retirement age around 2035. The 2035 Retirement Fund aims to provide long-term capital growth while lowering the risk of loss as the Members approach their normal retirement age.

The 2035 Retirement Fund is designed for Members who hold a long-term investment view up to and even beyond their normal retirement age and who are prepared to accept significant fluctuations in the value of their investments even up to their normal retirement age in order to achieve a potential of long-term returns.

The 2035 Retirement Fund has a maturity date which is either (i) the last Business Day of 2035, or where, in the reasonable opinion of the Trustee, the last Business Day of 2035 is not feasible to be the maturity date for whatever reason, then the next Business Day; or (ii) such other date as approved by the MPFA. Subject to the approval of the MPFA and the SFC, upon reaching its maturity date, the 2035 Retirement Fund will be closed with Member's accumulation being invested into the Smart Retirement Fund (or an equivalent fund available at that time). Please refer to section 3.6 (*Termination of the Retirement Funds (other than the Smart Retirement Fund)*) for details.

(b) *Balance of investments*

It is intended that the underlying investments of the 2035 Retirement Fund will be made on a diversified basis. At launch in 2011, the target mix of the underlying portfolio of the 2035 Retirement Fund was around 80% to 100% of the NAV of the underlying portfolio indirectly invested in equities and equity-related investments, with the remainder of the assets being indirectly invested in bonds, deposits and other investments as permitted under the General Regulation. The investment manager may at its discretion invest in regions such as America, Pacific Asia, Japan and Europe, etc. When the 2035 Retirement Fund gets closer to its maturity date, the asset allocation strategy of the underlying portfolio will become less aggressive and will contain increasing allocation of fixed-income securities as described in the illustrative Glide Path in section 3.5 (*Glide Path for Retirement Funds*). This rebalancing to the Glide Path is carried out by the investment manager automatically on a regular basis.

At least 30% of the NAV of the 2035 Retirement Fund will be exposed to HKD currency investments as measured by the effective currency exposure in accordance with section 16 of Schedule 1 to the General Regulation. The intended asset allocation above and the Glide Path are for reference only and may be changed as and when market, political, structural, economic and other conditions change that the investment manager deems appropriate.

(c) *Security lending and repurchase agreements*

The portfolio of any underlying APIF under the 2035 Retirement Fund will not engage in security lending and will not enter into repurchase agreements. The underlying ITCIS (if any) may engage in security lending and may enter into repurchase agreements.

(d) *Futures and options*

The portfolio of any underlying APIF under the 2035 Retirement Fund may acquire financial futures contracts and financial option contracts for hedging purposes. The underlying ITCIS (if any) may acquire financial futures contracts and financial option contracts.

(e) *Risks*

The performance of the 2035 Retirement Fund is subject to a number of risks, including the following:

- Market and investment risks
- Currency risk
- Derivatives
- Credit risk and credit rating risk
- Political, economic and social risks
- Risks associated with investment in underlying funds
- Counterparty and settlement risk
- Valuation and accounting risk
- Early termination risk
- RMB currency risk
- Mainland Chinese assets risk
- Risks associated with the SME board, ChiNext market and/or the STAR Board
- Additional risk factors relating to investment in debt securities in onshore and offshore China market
- Equity investment risks and volatility risk
- Emerging market risk

- Risks related to futures and options
- Additional risk factors for investment in the Retirement Funds

Please refer to section 4 (*Risk factors*) for a detailed description of each of the risks listed.

3.4.28 Manulife MPF 2040 Retirement Fund (the “2040 Retirement Fund”)

(a) Objective

The 2040 Retirement Fund is a unitised fund designed for Members expecting to attain their normal retirement age around 2040. The 2040 Retirement Fund aims to provide long-term capital growth while lowering the risk of loss as the Members approach their normal retirement age.

The 2040 Retirement Fund is designed for Members who hold a long-term investment view up to and even beyond their normal retirement age and who are prepared to accept significant fluctuations in the value of their investments even up to their normal retirement age in order to achieve a potential of long-term returns.

The 2040 Retirement Fund has a maturity date which is either (i) the last Business Day of 2040, or where, in the reasonable opinion of the Trustee, the last Business Day of 2040 is not feasible to be the maturity date for whatever reason, then the next Business Day; or (ii) such other date as approved by the MPFA. Subject to the approval of the MPFA and the SFC, upon reaching its maturity date, the 2040 Retirement Fund will be closed with Member's accumulation being invested into the Smart Retirement Fund (or an equivalent fund available at that time). Please refer to section 3.6 (*Termination of the Retirement Funds (other than the Smart Retirement Fund)*) for details.

(b) Balance of investments

It is intended that the underlying investments of the 2040 Retirement Fund will be made on a diversified basis. At launch in 2011, the target mix of the underlying portfolio of the 2040 Retirement Fund was around 80% to 100% of the NAV of the underlying portfolio indirectly invested in equities and equity-related investments, with the remainder of the assets being indirectly invested in bonds, deposits and other investments as permitted under the General Regulation. The investment manager may at its discretion invest in regions such as America, Pacific Asia, Japan and Europe, etc. When the 2040 Retirement Fund gets closer to its maturity date, the asset allocation strategy of the underlying portfolio will become less aggressive and will contain increasing allocation of fixed-income securities as described in the illustrative Glide Path in section 3.5 (*Glide Path for Retirement Funds*). This rebalancing to the Glide Path is carried out by the investment manager automatically on a regular basis.

At least 30% of the NAV of the 2040 Retirement Fund will be exposed to HKD currency investments as measured by the effective currency exposure in accordance with section 16 of Schedule 1 to the General Regulation. The intended asset allocation above and the Glide Path are for reference only and may be changed as and when market, political, structural, economic and other conditions change that the investment manager deems appropriate.

(c) Security lending and repurchase agreements

The portfolio of any underlying APIF under the 2040 Retirement Fund will not engage in security lending and will not enter into repurchase agreements. The underlying ITCIS (if any) may engage in security lending and may enter into repurchase agreements.

(d) Futures and options

The portfolio of any underlying APIF under the 2040 Retirement Fund may acquire financial futures contracts and financial option contracts for hedging purposes. The underlying ITCIS (if any) may acquire financial futures contracts and financial option contracts.

(e) Risks

The performance of the 2040 Retirement Fund is subject to a number of risks, including the following:

- Market and investment risks
- Currency risk
- Derivatives
- Credit risk and credit rating risk
- Political, economic and social risks
- Risks associated with investment in underlying funds
- Counterparty and settlement risk
- Valuation and accounting risk
- Early termination risk
- RMB currency risk
- Mainland Chinese assets risk
- Risks associated with the SME board, ChiNext market and/or the STAR Board
- Additional risk factors relating to investment in debt securities in onshore and offshore China market
- Equity investment risks and volatility risk
- Emerging market risk
- Risks associated with Stock Connect programme
- Interest rate risks
- Risks related to ITCIS
- Liquidity risk
- Custodial risk
- Risks related to futures and options
- Additional risk factors for investment in the Retirement Funds

Please refer to section 4 (*Risk factors*) for a detailed description of each of the risks listed.

3.4.29 Manulife MPF 2045 Retirement Fund (the “2045 Retirement Fund”)

(a) Objective

The 2045 Retirement Fund is a unitised fund designed for Members expecting to attain their normal retirement age around 2045. The 2045 Retirement Fund aims to provide long-term capital growth while lowering the risk of loss as the Members approach their normal retirement age.

The 2045 Retirement Fund is designed for Members who hold a long-term investment view up to and even beyond their normal retirement age and who are prepared to accept significant fluctuations in the value of their investments even up to their normal retirement age in order to achieve a potential of long-term returns.

The 2045 Retirement Fund has a maturity date which is either (i) the last Business Day of 2045, or where, in the reasonable opinion of the Trustee, the last Business Day of 2045 is not feasible to be the maturity date for whatever reason, then the next Business Day; or (ii) such other date as approved by the MPFA. Subject to the approval of the MPFA and the SFC, upon reaching its maturity date, the 2045 Retirement Fund will be closed with Member's accumulation being invested into the Smart Retirement Fund (or an equivalent fund available at that time). Please refer to section 3.6 (*Termination of the Retirement Funds (other than the Smart Retirement Fund)*) for details.

(b) Balance of investments

It is intended that the underlying investments of the 2045 Retirement Fund will be made on a diversified basis. At launch in 2011, the target mix of the underlying portfolio of the 2045 Retirement Fund was around 80% to 100% of the NAV of the underlying portfolio indirectly invested in equities and equity-related investments, with the remainder of the assets being indirectly invested in bonds, deposits and other investments as permitted under the General Regulation. The investment manager may at its discretion invest in regions such as America, Pacific Asia, Japan and Europe, etc. When the 2045 Retirement Fund gets closer to its maturity date, the asset allocation strategy of the underlying portfolio will become less aggressive and will contain increasing allocation of fixed-income securities as described in the illustrative Glide Path in section 3.5 (Glide Path for Retirement Funds). This rebalancing to the Glide Path is carried out by the investment manager automatically on a regular basis.

At least 30% of the NAV of the 2045 Retirement Fund will be exposed to HKD currency investments as measured by the effective currency exposure in accordance with section 16 of Schedule 1 to the General Regulation. The intended asset allocation above and the Glide Path are for reference only and may be changed as and when market, political, structural, economic and other conditions change that the investment manager deems appropriate.

(c) Security lending and repurchase agreements

The portfolio of any underlying APIF under the 2045 Retirement Fund will not engage in security lending and will not enter into repurchase agreements. The underlying ITCIS (if any) may engage in security lending and may enter into repurchase agreements.

(d) Futures and options

The portfolio of any underlying APIF under the 2045 Retirement Fund may acquire financial futures contracts and financial option contracts for hedging purposes. The underlying ITCIS (if any) may acquire financial futures contracts and financial option contracts.

(e) Risks

The performance of the 2045 Retirement Fund is subject to a number of risks, including the following:

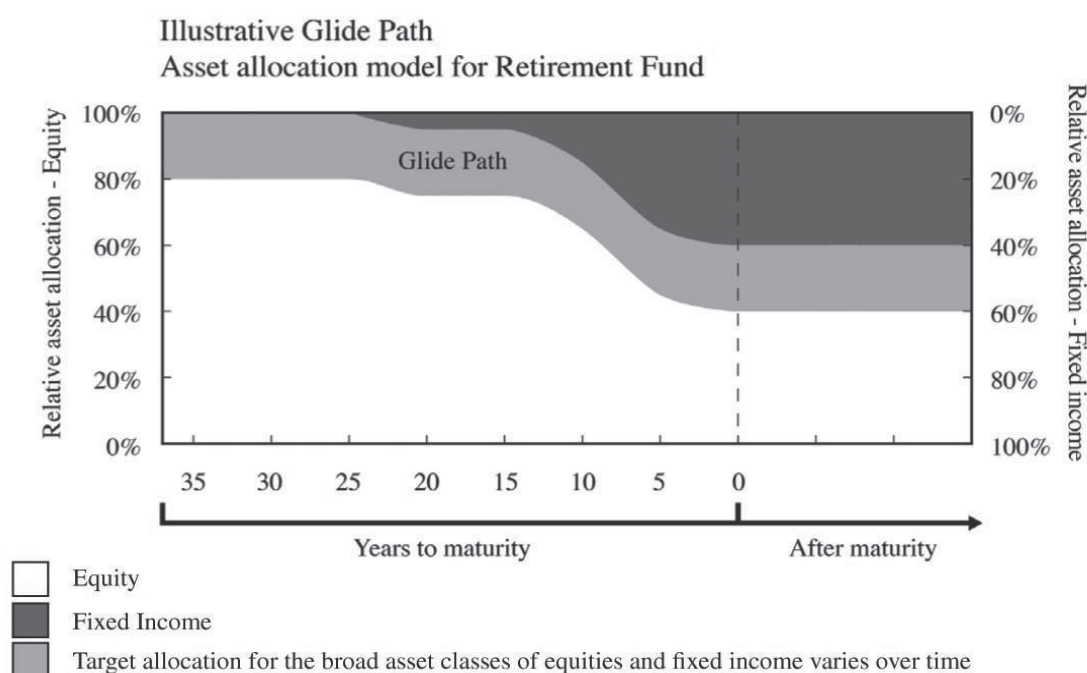

- Market and investment risks
- Currency risk
- Derivatives
- Credit risk and credit rating risk
- Political, economic and social risks
- Risks associated with investment in underlying funds
- Counterparty and settlement risk
- Valuation and accounting risk
- Early termination risk
- RMB currency risk
- Mainland Chinese assets risk
- Risks associated with the SME board, ChiNext market and/or the STAR Board
- Additional risk factors relating to investment in debt securities in onshore and offshore China market
- Equity investment risks and volatility risk
- Emerging market risk
- Risks associated with Stock Connect programme
- Interest rate risks
- Risks related to ITCIS
- Liquidity risk
- Custodial risk
- Risks related to futures and options
- Additional risk factors for investment in the Retirement Funds

Please refer to section 4 (*Risk factors*) for a detailed description of each of the risks listed.

3.5 Glide Path for Retirement Funds

The asset allocation strategy of all Retirement Funds will change according to a pre-determined “glide path” shown in the following illustrative Glide Path. The Glide Path represents the shifting of asset classes over time. As the Glide Path shows, each Retirement Fund’s asset mix becomes less aggressive as time elapses. This reflects the need to reduce investment volatility as retirement approaches.

The allocations reflected in the Glide Path are also referred to as “neutral” allocations because they do not reflect tactical decisions made by the investment manager. Each Retirement Fund has a target allocation for the broad asset classes of equities and fixed income. The target allocations are not expected to vary significantly from the prescribed glide path formula (the neutral allocations) except for circumstances where the investment manager of underlying APIFs determines to adjust significantly, in light of market or economic conditions, in order to achieve the investment objective of the relevant Retirement Fund.

The Glide Path will be reviewed regularly by the investment manager and can be changed at any time as the investment manager deems appropriate. Notwithstanding that, subject to the approval of the MPFA and the SFC, three months’ notice period or such other shorter notice (as agreed with the MPFA and following any SFC regulatory requirements) will be given to the Members for any change that will affect the investment policy of any Retirement Fund.

3.6 Termination of the Retirement Funds (other than the Smart Retirement Fund)

3.6.1 General

Subject to the approval of the MPFA and the SFC, each Retirement Fund (other than the Smart Retirement Fund) will be terminated on or after its maturity date. On the maturity date, the Retirement Fund will be closed for both subscription and redemption purposes and all units of the Retirement Fund held by the Members as at the maturity date will be automatically redeemed by the Trustee, and the redemption proceeds shall be applied by the Trustee to invest in and subscribe for units of the Smart Retirement Fund. The Trustee shall effect all such redemptions and subscriptions as at the maturity date of the relevant Retirement Fund.

Three months prior to the maturity date of a Retirement Fund (other than the Smart Retirement Fund), notice will be given to the existing Members investing in such Retirement Fund either by mail or via electronic means, so as to remind any existing Members concerned of the forthcoming maturity date and the transfer to the Smart Retirement Fund as described below. Such notice will also be posted at our website at www.manulife.com.hk. Any new Member enrolled within the three months’ period will also be reminded of the forthcoming maturity date.

3.6.2 Closure of subscription and treatment of redemption requests prior to the maturity date

Closure of subscription

In order to facilitate the termination of a Retirement Fund (other than the Smart Retirement Fund) at or after its maturity date, subscription for units (whether for the purpose of investing contribution monies or implementing a contribution investment instruction or fund switching instruction) in the Retirement Fund will be closed for a period of seven Business Days (“**Subscription Closure Period**”) prior to the maturity date (inclusive of the maturity date). During the Subscription Closure Period, no new contribution may be invested in, and no unit in other constituent fund may be switched into, such Retirement Fund.

If the Trustee receives a request prior to the Subscription Closure Period for subscription for units in such Retirement Fund (whether for the purpose of investing contribution monies or implementing a contribution investment instruction or fund switching instruction), the Trustee will use its reasonable endeavours to implement such subscription prior to the Subscription Closure Period. If the subscription cannot be implemented prior to the Subscription Closure Period, the subscription monies will be used to invest in the Smart Retirement Fund.

Likewise, if the Trustee receives a request for subscription for units in a Retirement Fund (other than the Smart Retirement Fund) during its Subscription Closure Period (whether for the purpose of investing contribution monies or implementing a contribution investment instruction or fund switching instruction), the subscription monies will be used to invest in the Smart Retirement Fund.

Redemption requests

If the Trustee receives a redemption request which includes units of a Retirement Fund (other than the Smart Retirement Fund) that will soon reach its maturity date, then:

- where an individual relevant employee member wishes to make a withdrawal of units of the Retirement Fund from his Flexi Retirement Contribution account balance under section 6.10.4 (*Withdrawal of accrued benefits attributable to Flexi Retirement Contribution*), or an employee member wishes to make a withdrawal of units of the Retirement Fund under section 6.10.3 (*Withdrawal of accrued benefits attributable to non-regular voluntary contribution*), the Trustee may use its reasonable endeavours to process the redemption of the relevant units on or before the maturity date, provided that if the actual redemption of such units cannot be effected on or before the maturity date, the redemption request of such units will not be further processed and the units of the Retirement Fund will be automatically switched to units of the Smart Retirement Fund as at the maturity date. The Trustee shall notify the Member concerned of the result of the withdrawal request;
- where the redemption request submitted is a result of the Member withdrawing his accrued benefits under section 6.11 (*Payment of accrued benefits*) or transferring his accrued benefits under section 6.8.3 (*Transfer out of the Scheme*), or a self-employed person wishes to make a withdrawal of units in the Retirement Fund under section 6.10.3 (*Withdrawal of accrued benefits attributable to non-regular voluntary contribution*), the Trustee shall use its reasonable endeavours to process the redemption of such units on or before the maturity date of the Retirement Fund, and if the actual redemption of such units cannot be effected on or before the maturity date, such units shall be automatically switched to units of the Smart Retirement Fund as at the maturity date, and the Trustee shall continue to process the redemption request after the maturity date on such units of the Smart Retirement Fund within reasonable timeframe.

Switching Instruction

If a new fund switching instruction for switching out from the Retirement Fund to other constituent fund(s) submitted to the Trustee above cannot be implemented by the Trustee on or prior to the maturity date of such Retirement Fund, then,

- any units of such Retirement Fund held by each Member as at the maturity date shall be automatically switched to units of the Smart Retirement Fund;
- the Trustee shall not have any further obligation to implement such new fund switching instruction.

3.6.3 On the maturity date

On the maturity date of a Retirement Fund (other than the Smart Retirement Fund), the Trustee shall make a best estimate of all fees, charges and expenses that shall accrue to the Retirement Fund up to and including its maturity date and deduct them from the redemption proceeds of the Retirement Fund before such proceeds are applied to invest in and subscribe for units of the other constituent funds. The best estimate should include all trustee fees, custodian fees, management fees, all other fees and charges, and out of pocket expenses which are to be charged to the Retirement Fund. If the estimated amount deducted by the Trustee is not sufficient to cover the final actual amount of fees, charges and expenses payable by the Retirement Fund, the amount of shortfall shall be borne by the Trustee. Alternatively, if the estimated amount deducted exceeds the final actual amount of fees, charges and expenses payable by the Retirement Fund, the Trustee shall credit the residual amount to the Scheme to defray general Scheme expenses.

For the purpose of redemption of units of a Retirement Fund (other than the Smart Retirement Fund) and investing the redemption proceeds in the Smart Retirement Fund, the Trustee may transfer any investments held by the relevant Retirement Fund in specie to the Smart Retirement Fund.

In the event a Retirement Fund is closed upon reaching its maturity date and units held by a Member in this closed Retirement Fund has been automatically invested to the Smart Retirement Fund, a statement will be provided to the Member to show such transfer so as to alert the Member of this transaction.

3.6.4 After the maturity date

If the Trustee receives a request for subscription for units of a Retirement Fund (other than the Smart Retirement Fund) after its maturity date for the purpose of investing contribution monies (other than in the course of implementing a new contribution investment instruction or a fund switching instruction), the subscription monies will be used to invest in the Smart Retirement Fund.

If the Trustee receives a contribution investment instruction after the maturity date which contains an investment in a terminated Retirement Fund:

- (a) where the instruction was given by a newly enrolled Member, the investment instruction which relates to the terminated Retirement Fund will be regarded as invalid and the allocation percentage to the terminated Retirement Fund will be made to the DIS; or
- (b) where the instruction was given by an existing Member, the instruction will be rendered invalid and will not be implemented and the prevailing contribution investment instruction of the Member will continue to be applicable and the Member will be notified about the arrangement.

Any new fund switching instruction in respect of a Retirement Fund received by the Trustee after its maturity date shall not be accepted or implemented by the Trustee. Members will be notified if the new fund switching instruction has not been implemented by the Trustee.

No redemption request shall be accepted by the Trustee in respect of a Retirement Fund (other than the Smart Retirement Fund) after its maturity date.

3.7 Investment restrictions and guidelines

The assets in the constituent funds may be invested in any investments, securities, pooled investment funds or any other properties in accordance with Part V and Schedule 1 to the General Regulation and any codes and guidelines issued by the MPFA or the SFC from time to time.

The trustee of the first level and the second level trust-based APIFs and Manulife (International) Limited, as the Insurer of the first level insurance policy based APIFs, may in their sole discretion retain certain amount of cash for any other purposes which the trustee and/or Manulife (International) Limited (as the case may be) consider appropriate.

3.8 Borrowing policy

Each constituent fund, and its underlying funds, are required to comply with the borrowing restrictions stipulated in section 65 and Schedule 1 to the General Regulation, where applicable.

3.9 Changes to constituent funds

Subject to the approval of the MPFA and the SFC, the Trustee may, by giving to the Members a three months' notice, or such other shorter notice as agreed with the MPFA and following any SFC regulatory requirements:

- (a) change the investment policy of any constituent fund;
- (b) terminate any constituent fund (other than the Conservative Fund);
- (c) close any constituent fund (other than the Conservative Fund) to any future contributions; or
- (d) merge or sub-divide the Scheme or any constituent fund.

In addition, the Trustee may at any time, in its sole discretion change the distribution of the investments of any constituent fund, provided that the relevant investment policy is maintained.

3.10 Selected constituent fund is terminated

If any constituent fund is terminated, any Member who has accrued benefits in the terminating constituent fund or future contributions to be invested in the terminating constituent fund may, subject to the rules of the Scheme, submit a fund switching instruction and/or new contribution investment instruction (as applicable) to the Trustee before the termination of the terminating constituent fund or within such timeframe as stipulated by the Trustee in the relevant notice of termination, whichever is earlier. Such instruction(s) will be implemented by the Trustee within 30 days of the receipt of such instruction(s). If the Member fails to submit to the Trustee such instruction(s) within the above specified time, the Member will be considered to have elected to invest all such accrued benefits or future contributions/transferred monies (as applicable) into:

- (a) the DIS, in the case where the terminating constituent fund is not a Retirement Fund; or
- (b) the Smart Retirement Fund, in the case where the terminating constituent fund is a Retirement Fund; or
- (c) such other constituent fund as stipulated by the Trustee in the relevant notice of termination and approved by the MPFA.

Notwithstanding the above, if the terminating constituent fund is the Manulife MPF Interest Fund, future dividends distributed by the Manulife MPF Retirement Income Fund in respect of the relevant Members at or above the age of 65 will be invested to acquire units of the Manulife MPF Retirement Income Fund or, subject to the approval by the MPFA and the SFC, be invested into another constituent fund designated by the Trustee.

3.11 Change of guarantee features

Subject to the approval of the MPFA and the SFC, the Trustee may change or cancel any guarantee features in respect of the Stable Fund or the Interest Fund by giving a three months' prior notice to the Members. Such changes, however, will not affect any guaranteed entitlement accrued prior to the effective date of change and the guaranteed entitlement will be calculated based on the "pre-change" provisions up to the day before the effective date.

4. RISK FACTORS

The performance of the constituent funds may be subject to a number of risk factors, including but not limited to those set out in this section.

In this section, the term “fund” is used to describe, as the case may be, any constituent fund and/or its respective underlying APIF(s), insurance policy(ies), ITCIS(s) and/or pooled investment fund(s).

Information about the latest risk class of each constituent fund under the Scheme is available in the latest fund fact sheet of the Scheme and at our website at www.manulife.com.hk.

4.1 Market and investment risks

Investments involve risks. Each constituent fund is subject to market fluctuations and to the risk inherent in all investments and markets of the underlying investment portfolios. As a result, the price of units may go up as well as down.

There can be no assurance that a fund or the underlying fund(s) in which it invests in will achieve its investment objectives. There is no guarantee that in any time period, particularly in the short term, a fund will achieve appreciation in terms of capital growth. The value of units may rise or fall, as the capital value of the securities in which the underlying portfolio invests may fluctuate. Past performance is not necessarily a guide to future performance and investments should be regarded as medium to long term. The investment income of a fund is based on the income earned from its underlying investment portfolios, less expenses incurred. Therefore, the investment income may be expected to fluctuate in response to changes in such expenses or income.

4.2 Equity investment risk and volatility risk

A fund may invest directly or indirectly in equities and is therefore, subject to the risks generally associated with equity investment, namely, the market value of the stocks may go down as well as up. Factors affecting the stock values are numerous, including but not limited to changes in investment sentiment, political environment, economic environment, and the business and social conditions in local and global marketplace. Securities exchanges typically have the right to suspend or limit trading in any security traded on the relevant exchange; a suspension will render it impossible to liquidate positions and can thereby expose the fund to losses.

Further, all markets are subject to volatility based on prevailing economic conditions. Securities in emerging or developing markets may involve a higher degree of risk due to the small current size of the markets for securities of emerging or developing market issuers and the currently low or non-existent volume of trading, which could result in price volatility. Certain economic and political events in emerging or developing economies, including changes in foreign exchange policies and current account positions, could also cause greater volatility in exchange rates.

Investments in non-approved stock exchanges will be subject to the restrictions stipulated in the General Regulation.

4.3 Currency risk

A fund that invests in securities denominated in currencies other than the base currency of the fund may be exposed to currency exchange risk. Any income or redemption proceeds received by the fund from such investments will be made in such other currencies. Changes in exchange rates between currencies or the conversion from one currency to another may cause the value of a fund's investments to diminish or increase. If the currency in which a fund's portfolio security is denominated appreciates against the base currency of the fund, the value of security in the base currency will increase. Conversely, depreciation of the denomination of the currency of the portfolio security would adversely affect the value of the security expressed in the base currency of the fund. In addition, foreign exchange control in any country may cause difficulties in the repatriation of funds from such countries.

4.4 RMB currency risk

The RMB currency risk is applicable to funds with exposure to RMB. RMB is currently not a freely convertible currency and is subject to foreign exchange controls and repatriation restrictions imposed by the Chinese government. There is no assurance that RMB will not be subject to devaluation. Any devaluation of RMB could adversely affect the NAV of the fund(s).

While the fund(s) are denominated in HKD but not in RMB, the underlying assets may be primarily denominated in RMB. Therefore, the performance of the fund(s) may be adversely affected by changes in HKD to RMB exchange rate if RMB depreciates against HKD.

4.5 Emerging market risk

A fund may invest in securities of companies domiciled in or conducting their principal business activities in emerging markets (including markets in the Asia Pacific region or Greater China). Investing in emerging markets poses certain risks.

As emerging markets tend to be more volatile than developed markets, any holdings in emerging markets are exposed to higher levels of market risk. In particular those markets with characteristics such as authoritarian governments, political instability, or high taxation. Securities in these markets may be more volatile, less liquid, and more costly to participate in, and information about investments may be incomplete or unreliable. Accounting, auditing and financial reporting standards in some of the emerging markets may be less vigorous than international standards. As a result, certain material disclosures may not be made by some companies. In many cases, governments of emerging markets retain a high degree of direct control over the economy and may take actions having sudden and widespread effects such as suspension of trade and moratorium which may affect valuation of assets. Investments in emerging market products may also become illiquid which may constrain a fund's ability to realise some or all of the portfolio and thus affect the repatriation of capital. Because of these market conditions, the fund's strategic analysis, or the execution of it, could be flawed. Certain securities could become hard to value, or sell at a desired time and price. Such investment environment may bring negative impact on the fund's NAV.

Stock markets in emerging markets may be subject to special risks, including higher stock price volatility, lower liquidity of stocks, political considerations, loss of registration of shareholdings and currency risks, which are substantially higher than the risks normally associated with the world's established major stock markets. The trading volume on some of the markets may be substantially less than that in the world's leading stock markets. Accordingly, the accumulation and disposal of holdings in some investments may be time-consuming and may need to be conducted at unfavourable prices.

A fund investing in emerging markets may invest in, but is not restricted to, the securities of small- and medium-sized companies. This can involve greater risk than is customarily associated with investment in larger and more established companies. In particular, smaller companies often have limited product lines, markets or financial resources and their management may be dependent on a few key individuals.

4.6 Derivatives

Subject to the investment restrictions under the relevant legislation and codes of the MPFA, derivatives may be used for hedging purposes. However, there is no guarantee that such technique will achieve the desired result. There are certain investment risks in using derivatives. The value or return of these types of instruments is based on the performance of an underlying asset. These instruments may be volatile and involve various risks, which may include market risk, the risk of lack of correlation, the inability to close out a derivative contract caused by the non-existence of a liquid secondary market, the high leverage pricing and/or time decay of the option/warrant premium. Moreover, if the techniques and instruments being employed are incorrect, or the counterparty for such instruments default, the relevant fund may suffer a substantial loss.

4.7 Growth Enterprise Market ("GEM")

Funds that invest into Hong Kong market may invest in companies which are listed on the GEM. The GEM has been established as a market designed to accommodate companies to which a high investment risk may be attached. Companies listed on the GEM may neither have a track record of profitability nor any obligation to forecast future profitability. There are potential risks of investing in such companies and Members should make the decision to invest in a constituent fund only after due and careful consideration. This risk disclosure statement does not purport to disclose all the risks and other significant aspects of the GEM.

Information on GEM stocks may be obtained from the internet website operated by the Hong Kong Stock Exchange. GEM companies are usually not required to issue paid announcements in gazetted newspapers.

4.8 Risks associated with Stock Connect programmes ("Stock Connect")

Investment in shares of companies listed in mainland China ("**China A-Shares**") may be made via the Stock Connect (as described below).

The Stock Connect is a securities trading and clearing linked programme with an aim to achieve mutual stock market access between mainland China and Hong Kong. The Stock Connect enables the relevant funds to trade eligible China A-Shares listed on the relevant stock exchange(s) in mainland China.

The relevant regulations of the Stock Connect are untested and subject to change. The programme is subject to quota limitations which may restrict the ability of the relevant funds to invest in China A-

Shares through the programme on a timely basis and as a result, the ability of the relevant funds to access the China A-Shares market (and hence to pursue its investment strategy) will be adversely affected. The mainland China regulations impose certain restrictions on selling and buying. Hence the relevant funds may not be able to dispose of holdings of China A-Shares in a timely manner. Also, a stock may be recalled from the scope of eligible stocks for trading via the Stock Connect. This may adversely affect the investment portfolio or strategies of the relevant funds in which a fund invests, for example, when the investment manager or the sub-investment manager(s) (as the case may be) wishes to purchase a stock which is recalled from the scope of eligible stocks. Due to the differences in trading days, the relevant funds may be subject to a risk of price fluctuations in China A-Shares on a day that the mainland China markets is open for trading but the Hong Kong market is closed. The fund which has access to the China A-Shares market via Stock Connect may therefore be adversely affected by the above factors.

4.9 Credit risk and credit rating risk

A fund may invest directly or indirectly in bonds or other fixed income instruments and therefore, subject to credit risk (i.e. the risk that an issuer of securities will be unable to pay principal and interest when due, or that the value of a security will suffer because investors believe the issuer is less able to pay). This is broadly gauged by the credit ratings of the securities in which the fund invests. Credit ratings may however not always be an accurate or reliable measure of the strength of the debt securities being invested in. Where such credit ratings prove inaccurate or unreliable losses may be incurred by the fund.

Further, the credit rating of the debt security issuer or the debt securities directly or indirectly held by a fund may fall. This usually leads to drops in the price of the debt securities which may surpass those caused by general market fluctuations. A lowering of the credit rating of a debt security may also affect the debt security's liquidity, making it more difficult to sell.

4.10 Interest rate risk

The prices of fixed income securities tend to vary inversely with market interest rates. The value of such securities is likely to decline in times of rising interest rates. Conversely, when rates fall, the value of these investments is likely to rise. The longer the time to maturity the greater such variations. To the extent a fund holds long-term debt securities, its NAV will be subject to a greater degree of fluctuation than if it held debt securities of a shorter duration.

4.11 Political, economic and social risks

The performance of a fund and its ability to pay redemption proceeds may be affected by changes in economic conditions and uncertainties such as change in political conditions including strikes and curfew and government policies, the imposition of restrictions on the transfer of capital and changes in laws or regulatory requirements.

4.12 Concentration risk

Certain funds may invest in a single country or industry only. Although the funds will be well diversified in terms of the number of holdings, Members should be aware that the funds are likely to be more volatile than a more broad-based fund, such as a global or regional equity fund due to their limitations to a relatively narrow segment of the economy. The funds can be significantly affected by events relating to those industries, such as international, political and economic developments, energy conservation, the success of exploration projects, tax and other government regulations, as well as other factors. The funds may tend to be more volatile than other funds and their portfolio values may fluctuate more rapidly. Due to higher volatility in nature, the funds may be subject to greater speculation and concentration risks. The performance of the funds may differ in direction and degree from that of the overall equity market. Members are reminded to maintain a well-diversified portfolio of selected funds.

4.13 Risks related to ITCIS

(a) General risks relating to ITCIS

The market price of the units in an ITCIS traded on the relevant stock exchange(s) is determined not only by the NAV of the ITCIS but also by other factors such as the supply and demand of the units in the relevant stock exchange(s). An ITCIS may not be actively managed. Its manager may not take an active role in defending the position of the ITCIS in declining markets. Therefore, any fall in the underlying index will result in corresponding fall in the value of the ITCIS and hence the relevant funds. There is also a tracking error risk and the positive return of the ITCIS may be lower or the negative return of the ITCIS may be worse than the performance of the index to which it is tracking due to factors such as fees and charges, the investment strategies that it adopts.

Further, since an underlying index may focus on a particular market, geographical region or industry, investments of an ITCIS may be concentrated in the securities of a single issuer or several issuers when the ITCIS endeavours to match as closely as practicable its holdings of constituent stocks of the index. Therefore, the ITCIS and the funds involving in it may be subject to the additional risks of concentration in these markets, regions or industries.

(b) Risk of market makers for listed ITCIS

Certain listed ITCIS might only have a very small number of market makers to provide pricing, and the pricing might not be close to the NAV of the ITCIS. This could result in performance deviation of the ITCIS from the true NAV. Furthermore, market makers could resign from providing pricing for ITCIS in a relatively short period of time, and as a result, the listed ITCIS may be traded without market makers.

(c) Index related risk

The process and basis of computing and compiling the relevant underlying index and any of its related formulae constituent companies and factors may be changed or altered by the index provider at any time without notice. There is also no warranty, representation or guarantee given to Members as to the accuracy or completeness of the relevant underlying index, its computation or any related information related thereto. There may be errors in index data which may not be identified or corrected for a period of time. This may have an adverse impact on the underlying funds/ITCIS. The index provider may change the securities which comprise the index from time to time and the securities may be delisted. The relevant regulator may withdraw its authorisation (or approval, as applicable) of the underlying funds/ITCIS if the index is no longer considered acceptable.

4.14 Risks relating to investing solely in a single ITCIS

Members should note that there is risk related to investing solely in a single ITCIS. Members should note that there is risk relating to the difference between the market price of units of an ITCIS and the NAV of the fund where the fund invests solely in a single ITCIS. The units of the ITCIS may trade at a discount or premium to the NAV of the units of the fund, depending on factors such as the supply and demand of its units. In the event that the underlying ITCIS is, for whatever reason, adversely affected or terminated, the relevant fund will likewise be affected and may, in certain circumstances, be terminated.

4.15 Risks associated with investment in underlying funds

Certain funds may invest through underlying fund(s) as feeder funds or portfolio management funds (i.e. fund of funds). Members should be aware of the specific features of a feeder fund or portfolio management fund and the consequences of investing in a feeder fund or portfolio management fund.

Funds which are feeder funds or portfolio management funds may be exposed to risks affecting the underlying fund(s) that they invest in.

Further, the performance of a fund may depend on the investment selection made by the investment managers of the underlying fund(s). Investment decisions of the underlying fund(s) are made at the level of such underlying fund(s). There is no or limited ability to control the manner in which the investment managers of such underlying fund(s) will make investments. There is also no assurance that the selection of each underlying fund(s) will result in an effective diversification of investment styles and that positions taken by the underlying fund(s) will always be consistent. No assurance can also be given that the strategies employed by the investment managers of the underlying fund(s) will be able to achieve the investment objective of the underlying fund(s) or the fund or achieve attractive returns.

Members may bear the recurring expenses of a fund in addition to the expenses of the underlying fund(s) and therefore the returns that they may obtain may not reflect the returns by investing directly in the underlying fund(s). Also, given investment decisions of the underlying fund(s) are made at the level of such underlying fund(s), it is possible that different investment managers of such underlying fund(s) will take positions or engage in transactions in the same securities or in issues of the same asset class, industry or country or currency at the same time. Consequently there is a possibility that one underlying fund may purchase an asset at about the same time as another underlying fund may sell it. Transaction costs will have been incurred in effecting the relevant transactions.

The underlying fund(s) may impose redemption limit and thus the underlying fund(s) may not be able to promptly meet the redemption requests of the relevant constituent fund(s) as and when made.

4.16 Liquidity risk

Some of the markets in which a fund invests may be less liquid and more volatile than the world's leading stock markets and this may result in the fluctuation in the price of the securities that the fund invests. Certain securities may be difficult or impossible to sell at the time that the fund would like or at a price that the fund believes the security is currently worth. Difficulties may be encountered in disposing of assets at their fair price due to adverse market conditions leading to limited liquidity. This may affect the NAV of the fund.

4.17 Counterparty and settlement risk

Counterparty risk involves the risk that a counterparty or third party will not fulfil its obligations to a fund and settle a transaction in accordance with market practice. A fund may be exposed to the risk of a counterparty through investments such as bonds, financial futures and options. To the extent that a counterparty defaults on its obligations and a fund is delayed or prevented from exercising its rights with respect to the investment in its portfolio, the fund may experience a decline in the value of the security, lose income and incur costs associated with its rights attached to the security.

A fund will be exposed to the risk of settlement default. Market practices in certain emerging markets in relation to the settlement of securities transactions and custody of assets may increase such risk. The clearing, settlement and registration systems available to effect trades on emerging markets may be significantly less developed than those in more mature world markets which can result in delays and other material difficulties in settling trades and in registering transfers of securities. Problems of settlement in these markets may affect the value and liquidity of a fund.

4.18 Custodial risk

Custodians or sub-custodians of the underlying funds may be appointed in local markets for the purpose of safekeeping assets in those markets. Where the funds invest in markets where custodial and/or settlement systems are immature or are not fully developed, the assets of the funds may be exposed to custodial risk. In case of liquidation, bankruptcy or insolvency of a custodian or sub-custodian, the funds may take a longer time to recover their assets. In the worst case scenario, such as the retroactive application of legislation and fraud or improper registration of title, the funds may even be unable to recover all of their assets. The cost borne by the funds in investing and holding investment in such markets will be generally higher than in organised securities markets.

4.19 Valuation and accounting risk

The funds intend to adopt HKFRS (i.e. Hong Kong Financial Reporting Standards) in drawing up their annual accounts. However, Members should note that the underlying funds intend to amortise the preliminary expenses and costs of a fund, if any, over the first three financial years of the fund, as applicable, commencing on the close of the initial offer period or over such other period as the investment manager shall consider fair. This policy of amortisation is not in accordance with HKFRS and may accordingly result in either a different NAV being reflected in the annual audited accounts or the auditors qualifying a fund's accounts. However, the investment manager believes that the policy of capitalising and amortising preliminary costs is fairer and more equitable to the Members.

Valuation of the funds' investment may involve uncertainties and judgmental determinations. For example, securities held by the funds may subsequently become illiquid due to events relating to the issuer of the securities, market and economic conditions and regulatory sanctions. The market value of such securities may become more difficult or impossible to ascertain. Under this circumstance, the investment manager may apply valuation methods to ascertain the fair value of such securities. If such valuation turns out to be incorrect, this may affect the NAV calculation of the funds.

4.20 Risks related to futures and options

The underlying funds may invest in futures and options which are volatile. The prices of futures and options may be affected by many other factors apart from the values of the underlying assets. Investment in financial derivative instruments is subject to key risk factors including counterparty and liquidity risks. To maintain the required amount of margin deposits, the underlying funds may have to liquidate their investments at unfavourable prices and incur significant loss as a result.

4.21 Early termination risk

A constituent fund may be terminated in accordance with section 3.9 (*Changes to constituent funds*). It is possible that at the time of such termination, certain investments may be worth less than their acquisition cost, resulting in Members having to switch to other constituent fund(s) at a loss. Any underlying fund may also be terminated early according to its constitutive document. In the event of termination of an underlying fund, the assets of such fund will be realised and the net proceeds thereof which are available for distribution will be distributed to its corresponding constituent fund(s) in proportion to the number of units held by them. It is possible that at the time of such sale or distribution, certain investments held by the underlying fund may be worth less than their acquisition cost, resulting in a loss to the relevant constituent fund(s).

4.22 Additional risk factors for investment in RMB denominated debt securities

Fund(s) that invest in the RMB denominated debt securities may be subject to additional risks.

(a) Mainland China tax considerations

Funds investing in RMB denominated corporate and government bonds issued by tax residents in mainland China may be subject to withholding and other taxes imposed in mainland China. Under current mainland China tax policy, there are certain tax incentives available to foreign investment, but it is anticipated that some such tax incentives will be phased out in the future.

Members should be aware that changes in the mainland China taxation legislation could affect the amount of income which may be derived, and the amount of capital returned, from the investments of the funds. Laws governing taxation will also continue to change and may contain conflicts and ambiguities.

(b) Liquidity risk

Not all securities or investments held by the underlying funds will be listed or rated or actively traded and consequently liquidity may be low. Moreover, the accumulation and disposal of holdings in some investments may be time consuming and may need to be conducted at unfavourable prices. The underlying funds may encounter difficulties in disposing of assets at their fair price due to adverse market conditions leading to limited liquidity. Moreover, there is no assurance that the liquidity of a fund and its underlying fund(s) will always be sufficient to meet redemption requests as and when made.

In addition, the funds will be subject to additional liquidity risks. The offshore RMB debt securities market has continued to develop although the trading volume may be less than that of a more developed market. The market liquidity for RMB debt securities has enhanced following measures by the Chinese government to gradually expand the use of RMB outside the mainland China and the increased number of issues in RMB debt securities in the offshore primary market. However, there is no guarantee that there will be an active secondary market for all RMB debt securities. In the absence of an active secondary market, the underlying funds may need to hold the relevant RMB debt securities until their maturity date. If sizeable redemption requests are received, the underlying funds may need to liquidate their investments at a substantial discount in order to satisfy such requests and may suffer losses in trading such instruments. Even if a secondary market exists for any RMB debt securities, the price at which such instruments are traded on the secondary market may be higher or lower than the initial issue price due to many factors including the prevailing interest rates.

Further, the bid and offer spread of the price of RMB debt securities may be high, and the underlying funds may therefore incur significant trading costs and may even suffer losses when selling such investments. In respect of the listed debt securities, the underlying funds may be subject to the risk of not being able to sell them over the exchange on a timely basis, or may have to sell at a substantial discount to their face values. This may adversely affect the liquidity and the NAV of the underlying funds and the fund.

(c) Limited supply of RMB denominated debt securities

The quantity of RMB debt securities that are available to the underlying funds is currently limited, and the remaining duration of any RMB debt securities that the underlying funds may invest in may be short. Although the issuance of offshore RMB debt securities has increased substantially in recent years, supply may lag the demand for offshore RMB debt securities under certain circumstances. In some cases, new issues of offshore RMB debt securities may be oversubscribed and may be priced higher than and/or trade with a lower yield than equivalent onshore RMB debt securities. If the onshore RMB debt securities market

subsequently opens up, this may lead to the convergence of the yields in the two markets. This may result in higher yields for the offshore RMB debt securities and, consequently, decrease the price of such offshore RMB debt securities. This may affect the NAV of the underlying funds and the fund.

In the absence of investible securities, or when the relevant debt securities held are at maturity, the underlying funds may have to allocate a significant portion of the portfolio's RMB assets in RMB negotiated term deposits until suitable securities are available in the market. This may adversely affect the return and performance of the underlying funds. In addition, where there is a limited supply of and excess demand for RMB denominated instruments, prices of such instruments could be driven up, and their quality could be compromised, and these may have an adverse impact on the value of the underlying funds and the fund.

In addition, the underlying funds are only permitted to invest in permissible investments under Schedule 1 to the General Regulation. Certain offshore RMB debt securities available in the market may not meet those requirements and therefore may not be invested by the underlying funds. Although it is expected that there will be sufficient issues of debt instruments that meet the requirements, the choice of investment may not be as diverse as for other types of funds, and this may result in concentration risk. However, this risk is minimised as the exposure to any single issuer is limited to the maximum level of 10% of the NAV of the constituent fund (except for bodies such as governments as permitted under Schedule 1 to the General Regulation).

4.23 Currency risk relating to RMB valuation

In calculating the value of RMB denominated or settled assets and the relevant unit prices, the exchange rate for offshore RMB market in Hong Kong (also known as the CNH rate) will be applied. The CNH rate may be at a premium or discount to the exchange rate for onshore RMB market in mainland China (also known as the CNY rate) and there may be significant bid and offer spreads. The value of the fund(s) thus calculated will be subject to fluctuation.

4.24 Additional risks related to the Manulife MPF Hang Seng Index Tracking Fund

There are particular risks involved in investing in an ITCIS which include, but are not limited to, the following:

- (i) the performance of the Manulife MPF Hang Seng Index Tracking Fund will be subject to a degree of tracking error which is attributable to various factors including, without limitation, the tracking error of the underlying ITCIS and the fees and charges payable in relation to the Manulife MPF Hang Seng Index Tracking Fund;
- (ii) to the extent that the Hang Seng Index is concentrated in the securities of a single issuer or several issuers, or in a particular industry or several industries, the ITCIS will likewise be subject to the risks relating to such concentration;
- (iii) due to the inherent nature of index funds, the ITCIS lacks the discretion to adapt to market changes and that falls in the index are expected to result in corresponding falls in the value of the fund; and
- (iv) the composition of the index may change and securities may be delisted.

There is no guarantee or assurance of exact replication at any time of the performance of the Hang Seng Index. For more and the latest information regarding the Hang Seng Index including its methodology and constituent stocks, please visit the website of the Hang Seng Indexes Company Limited on www.hsi.com.hk.

Since the Manulife MPF Hang Seng Index Tracking Fund and its underlying APIF/ITCIS are not actively managed, the respective investment manager will not attempt to select stock individually or does not have discretion to take defensive positions in declining markets. Declines on the Hang Seng Index are expected to result in corresponding falls in the value of the underlying APIF/ITCIS.

Due to the delay in actually subscribing for shares in the ITCIS arising from the time required to process instructions to invest in the Manulife MPF Hang Seng Index Tracking Fund in the initial period, the tracking error and the performance of the Manulife MPF Hang Seng Index Tracking Fund might respectively be higher and less favourable immediately after launch although such phenomenon would diminish over time as the fund size of the Manulife MPF Hang Seng Index Tracking Fund grows. Other than the above, because the calculation of performance of the Manulife MPF Hang Seng Index Tracking Fund is on an after-fee basis and its underlying APIF may hold idle cash to meet redemption and/or switching requests, tracking error resulted from such fee deduction and cash holding would be unavoidable.

4.25 Additional risk factors for investment in the Retirement Funds

In respect of Members' investments in the Retirement Funds (other than the Manulife MPF Smart Retirement Fund), the asset allocation on equity and fixed income investment of the Retirement Funds will change over time, the risk profile and returns involved will also vary accordingly. In addition, Members should be prepared to accept significant fluctuations in the value of their investments up to the maturity dates of the Retirement Funds and even after the maturity dates if the Members' investments are not being withdrawn and are being invested into the Manulife MPF Smart Retirement Fund. The investment objective of the Manulife MPF Smart Retirement Fund may not be the same as those of the Retirement Funds held by the Members prior to the maturity date and may not be suitable for every Member. Members are also reminded that at any particular given point in time, actual portfolios of the Retirement Funds may at times vary considerably from that anticipated by the illustrative Glide Path as market, political, structural, economic and other conditions change.

Members should note that investment in a Retirement Fund should not be made based solely on age or retirement date. Members should consider their own personal circumstances and risk tolerance level before making any investment choices. There is no guarantee in repayment of principal to the Members upon realisation including realisation in the target year of the relevant Retirement Fund. Members may suffer loss of their investments in the Retirement Funds, prior to, at, or after the target year of the relevant Retirement Fund.

Members should note that if they select a Retirement Fund that does not closely align with their expected date of disposal of their investments (which may coincide with their expected retirement age), this may result in having a higher risk of potential mismatch between their investment horizon and their investment type, compared to where they select a Retirement Fund that closely aligns with their expected date of disposal of their investments.

4.26 Additional key risks relating to the DIS

(a) *Key risks relating to the DIS*

Members should note that there are a number of attributes of the design of the DIS as set out below, which affect the types of risks associated with the DIS.

(b) *Limitations on the strategy*

(i) *Age as the sole factor in determining the asset allocation under the DIS*

As set out in more detail in section 3.3.1 (*Key features about the DIS*), Members should note that the DIS adopts pre-determined asset allocation and automatically adjusts asset allocation based only upon a Member's age. The DIS does not take into account factors other than age, such as market and economic conditions nor does it consider a Member's personal circumstances including investment objectives, financial needs, risk tolerance or likely retirement date. Members who want their MPF portfolio to reflect their own personal circumstances can make their own selection of constituent funds from the range available in the Scheme.

(ii) *Pre-set asset allocation*

Members should note that the DIS CFs have to follow the prescribed allocation between higher risk assets and lower risk assets at all times subject to a tolerance level of + or – 5%. The prescribed exposure between higher risk and lower risk assets of the DIS CFs will limit the ability of the investment manager to adjust asset allocations in response to sudden market fluctuations; for example, through the adoption of either a more defensive asset allocation approach (being an approach which seeks to reduce higher risk assets exposure), or alternatively a more aggressive asset allocation approach (being an approach which seeks to increase higher risk assets exposure) even if, for some reason, the investment manager thought it appropriate to do so.

(iii) *Annual de-risking between the DIS CFs*

Members should note that de-risking for each relevant Member will generally be carried out on a Member's birthday, regardless of the prevailing market conditions. While the de-risking process aims at managing risks of the investments through reducing exposure to higher risk assets, it may preclude the DIS from fully capturing the upside in rising equity markets during the de-risking process and therefore would underperform as compared with funds not adopting the de-risking process under the same market conditions. It is possible that the de-risking process is done at a time which may result in Members reducing exposure to an asset class which outperforms and increasing exposure to an asset class which underperforms. The asset allocation will change gradually over a 15-year time period. Members should be aware that the de-risking will operate automatically regardless of the wish of a Member to adopt a strategy which might catch market upside or avoid market downside.

Also, the de-risking process cannot insulate Members from “systemic risk”, such as broad-based recessions and other economic crises, which will affect the prices of most asset classes at the same time.

(iv) Potential rebalancing within each DIS CF

In order to maintain the prescribed allocation between the higher risk assets and lower risk assets within each of the DIS CFs, the investments of each of the DIS CFs may have to be continuously rebalanced. For example, when the higher risk assets perform poorly, the asset allocation of the DIS CFs may fall outside the respective prescribed limit. In this case, each of the DIS CFs will have to liquidate some of the better performing lower risk assets in order to invest more in the higher risk assets, even if the investment manager is of the view that the higher risk assets might continue to perform poorly.

(v) Additional transaction costs

Due to (a) the potential rebalancing of higher risk assets and lower risks assets in the process of maintaining the prescribed allocation within each of the DIS CFs and (b) the annual reallocation of accrued benefits for Members under the de-risking process, the DIS may incur greater transaction costs than a fund/strategy with more static allocation.

(c) General investment risk related to the DIS

Although the DIS is a statutory arrangement, it does not guarantee capital repayment nor positive investment returns (in particular for those Members with only a short investment horizon before retirement). The two DIS CFs are mixed asset funds investing in a mix of equities and bonds. Members should note that the DIS which invests in the DIS CFs is subject to the general investment risks that apply to mixed asset funds. For general key risks relating to investment funds, please refer to this section 4 (*Risk factors*).

(d) Risk on early withdrawal and switching

Since the DIS has been developed having regard to the long-term balance between risks and likely returns, and assumes retirement at the age of 65, any cessation of the strategy (for example, through early withdrawal of accrued benefits or switching into other funds) will affect that balance.

(e) Impact on Members keeping accrued benefits in the DIS beyond the age of 64

Members should note that the de-risking process will discontinue upon reaching the age of 64. Members should be aware that all accrued benefits (including accrued benefits transferred from another scheme)/on-going contribution, if any, will be invested in the A65F which holds around 20% of its assets in higher risk assets which may not be suitable for all Members beyond the age of 64.

4.27 Additional risks related to the DIS CFs

The risk exposure of the CAF is medium to high mainly due to its asset allocation of around 60% in higher risk assets. The risk exposure of the A65F is low to medium mainly due to its asset allocation of around 80% in lower risk assets (such as global bonds and money market instruments). It is expected that the performance of each DIS CF over the long term to be substantially consistent with the respective Reference Portfolio. However, the performance of each DIS CF may at any time deviate from the respective Reference Portfolio and there is no guarantee or assurance on the returns of the DIS CFs.

While the respective second level APIF of each of the CAF and the A65F will adopt a passive investment strategy with reference to the respective Reference Portfolio, the performance of such underlying APIF may not reflect exactly the performance of the respective Reference Portfolio. Factors such as liquidity of the market, timing differences for changes to the underlying investment portfolios and differences in asset allocations due to market movements may have influence in such underlying APIF's ability to achieve close correlation with the performance of the respective Reference Portfolio. Even if such underlying APIF can mimic the performance of the respective Reference Portfolio, the investment manager of such underlying APIF does not guarantee that such underlying APIF can generate any positive return for Members. Members investing in the DIS CFs should be prepared to accept fluctuations in the value of investments and are expected to hold a medium- to long-term investment view.

There are particular risks involved in adopting, through the second level APIF, a passive investment strategy which include, but are not limited to, the following:

- the performance of the DIS CFs will be subject to a degree of tracking error which is attributable to various factors including, without limitation, the tracking error of the relevant underlying APIF and the fees and charges payable in relation to the DIS CFs and their underlying APIFs;

- due to the inherent nature of the passive investment strategy, the investment manager of such underlying APIF has very restricted discretion to adapt to market changes and that falls in the respective Reference Portfolio are expected to result in corresponding falls in the value of the CAF or the A65F; and
- the composition of the respective Reference Portfolio may change and securities may be delisted. Thus, the investment in the second level APIF may not closely reflect the composition and weightings of the respective Reference Portfolio for a short period of time.

In addition, due to the delay in actually subscribing for units in the second level APIF arising from the time required to process instructions to invest in the CAF and/or the A65F in the initial period, the tracking error and the performance of the DIS CFs may respectively be higher and less favourable immediately after launch although such phenomenon would diminish over time as the fund size of the DIS CFs grows. Other than the above, because the calculation of performance of the DIS CFs is on an after-fee basis and the respective first level APIF may hold idle cash to meet redemption and/or switching requests, tracking error resulted from such fee deduction and cash holding would be unavoidable.

4.28 Additional risks related to the Manulife MPF Retirement Income Fund

Dividends may be paid out of the realised capital gains, capital and/or gross income while charging/paying all or part of the fees, charges and expenses to/out of the capital of the fund. Dividends may be distributed out of the capital or effectively out of capital of the fund if the net distributable income during the relevant period is insufficient to pay dividends as determined/declared. Members should note that distribution of dividends will result in an immediate decrease or adjustment in the NAV per unit of the Retirement Income Fund on the relevant ex-dividend date, although such dividends may be invested as provided under section 3.4.3(f) (*Distribution of dividend*). There is no guarantee that distribution of dividends will be made nor will there be a target level of dividends. A positive or high dividend yield does not imply a positive or high return.

The process of distributing dividends to Members' accounts will inevitably involve an investment time-lag (i.e. within 10 Business Days from the ex-dividend date) that dividends are not invested in any constituent fund and there may be market fluctuations during such period. Members should be aware of such out-of-market risk.

4.29 Risks related to securities lending and repurchase agreements

A fund may enter into security lending and such transactions are subject to risks relating to security lending transactions. Security lending transactions involve the risk that the borrower may fail to return the securities lent out in a timely manner and the value of the collateral may fall below the value of the securities lent out.

A fund may enter into repurchase agreements and such transactions are subject to risks relating to repurchase agreements. In the event of the failure of the counterparty with which collateral has been placed, the fund may suffer losses as there may be delays in recovering collateral placed out or the cash originally received may be less than the collateral placed with the counterparty due to inaccurate pricing of the collateral or market movements.

4.30 Mainland Chinese assets risk

Investments in RMB by a fund in China A-Shares or onshore mainland China fixed income securities and other permissible securities denominated in RMB may be made through any permissible means pursuant to any prevailing regulations. The uncertainty and change of the relevant laws and regulations in mainland China and the potential for the PRC government and/or the regulators to implement policies that may affect the financial markets may have an adverse impact on such fund.

High market volatility and potential settlement difficulties in the mainland China markets may also result in significant fluctuations in the prices of the securities traded on such markets. Besides, securities exchanges in mainland China typically have the right to suspend or limit trading in any security traded on the relevant exchange. All these may have a negative impact on the net asset value of the fund.

4.31 Risks associated with the SME board, ChiNext market and/or the STAR Board

A fund may have exposure to stocks listed on the Small and Medium Enterprise ("SME") board of the Shenzhen Stock Exchange ("SZSE"), the ChiNext market of the SZSE and the Science and Technology Innovation Board ("STAR Board") of the Shanghai Stock Exchange ("SSE").

(a) *Higher fluctuation on stock prices and liquidity risk*

Listed companies on the SME board, ChiNext market and/or STAR Board are usually of emerging nature with smaller operating scale. In particular, listed companies on the ChiNext market and STAR Board are subject to wider price fluctuation limits, and due to higher entry thresholds for investors may have limited liquidity, compared to other boards. Hence, companies listed on these boards are subject to higher fluctuation in stock prices and liquidity risks and have higher risks and turnover ratios than companies listed on the main boards of the SZSE and/or SSE.

(b) *Overvaluation risk*

Stocks listed on the SME board, ChiNext market and/or STAR Board may be overvalued and such exceptionally high valuation may not be sustainable. Stock price may be more susceptible to manipulation due to fewer circulating shares.

(c) *Differences in regulation*

The rules and regulations regarding companies listed on the ChiNext market and STAR Board are less stringent in terms of profitability and share capital than those in the main boards of the SZSE and/or SSE and the SME board.

(d) *Delisting risk*

It may be more common and faster for companies listed on the SME board, ChiNext market and/or STAR Board to delist. In particular, the ChiNext market and STAR Board have stricter criteria for delisting compared to other boards. This may have an adverse impact on the fund if the companies that it invests in are delisted.

(e) *Concentration risk*

The STAR Board is a newly established board and may have a limited number of listed companies during the initial stage. Investments in the STAR Board may be concentrated in a small number of stocks and subject the fund to higher concentration risk. Investments in the SME board, ChiNext market and/or STAR Board may result in significant losses for the fund and its Members.

4.32 Additional risk factors relating to investment in debt securities in onshore and offshore China market

Fund(s) that invest in RMB debt securities in onshore and offshore China market may be subject to additional risks.

(a) *China market risk or single country risk*

The fund may invest in mainland China RMB debt securities.

The value of the fund may be more volatile than that of a fund having a more diverse portfolio of investments.

By investing in the China market (both onshore and offshore), the value of the fund may be more susceptible to the risks of investing in emerging markets generally and the risks specific to the China market and special considerations not typically associated with investment in more developed countries or markets, such as adverse economic, political, policy, foreign exchange, volatility, liquidity, tax, legal or regulatory events affecting the China market.

Members should note that the debt instruments markets in mainland China are at a developing stage and the market capitalisation and trading volume may be lower than those in more developed financial markets. Market volatility and potential lack of liquidity due to low trading volumes in mainland China's debt markets may result in prices of securities traded on such markets fluctuating significantly, and may result in substantial volatility in the net asset value of the fund.

The national regulatory and legal framework for capital markets and debt instruments in mainland China are still developing when compared with those of developed countries. Currently, mainland China's entities are undergoing reform with the intention of increasing liquidity of debt instruments. However, the effects of such reform on mainland China's debt market as a whole remain to be seen.

(b) *China Interbank Bond Market*

(i) *Overview*

Foreign institutional investors (such as the funds) can invest in mainland China interbank bond markets ("**China Interbank Bond Market**") via the Foreign Access Regime and/or Bond Connect (see the definitions in the following paragraphs).

(ii) *Investment in China Interbank Bond Market via Foreign Access Regime*

Foreign institutional investors can invest in the China Interbank Bond Market via the Foreign Access Regime subject to other rules and regulations as promulgated by the mainland Chinese authorities, i.e. the People's Bank of China ("**PBOC**") and the State Administration of Foreign Exchange. Such rules and regulations may be amended from time to time and include any applicable regulations promulgated by the relevant authorities.

Under the prevailing regulations in mainland China, foreign institutional investors who wish to invest directly in the China Interbank Bond Market may do so via an onshore settlement agent, who will be responsible for making the relevant filings and account opening with the relevant authorities.

In terms of fund remittance, foreign institutional investors (such as the funds) may remit investment principal in RMB or foreign currency into mainland China for investing in the China Interbank Bond Market. For repatriation, where the funds repatriate funds out of mainland China, the ratio of RMB to foreign currency ("**Currency Ratio**") should generally match the original Currency Ratio when the investment principal was remitted into mainland China, with a maximum permissible deviation (currently 10%). The range of such deviation may be further amended by the mainland Chinese authorities.

(iii) *Investment in China Interbank Bond Market via Northbound Trading Link under Bond Connect*

Bond Connect provides mutual bond market access between Hong Kong and mainland China ("**Bond Connect**") and is established by the China Foreign Exchange Trade System & National Interbank Funding Center ("**CFETS**"), China Central Depository & Clearing Co., Ltd, Shanghai Clearing House, Hong Kong Exchanges and Clearing Limited and Central Moneymarkets Unit.

Bond Connect is governed by rules and regulations as promulgated by the mainland Chinese authorities. Such rules and regulations may be amended from time to time and include any applicable regulations promulgated by the relevant authorities.

Under the prevailing regulations in mainland China, eligible foreign investors will be allowed to invest in the bonds circulated in the China Interbank Bond Market through the northbound trading of Bond Connect ("**Northbound Trading Link**").

Under the Northbound Trading Link, eligible foreign investors are required to appoint the CFETS or other institutions recognised by the PBOC as registration agents to apply for registration with the PBOC.

Pursuant to the prevailing regulations in mainland China, an offshore custody agent recognised by the Hong Kong Monetary Authority (currently, the Central Moneymarkets Unit) shall open omnibus nominee accounts with the onshore custody agent recognised by the PBOC (currently, the China Central Depository & Clearing Co., Ltd and Shanghai Clearing House). All bonds traded by eligible foreign investors will be registered in the name of the Central Moneymarkets Unit, which will hold such bonds as a nominee owner.

(iv) *Risks associated with China Interbank Bond Market*

Market volatility and potential lack of liquidity due to low trading volume of certain debt

securities in the China Interbank Bond Market may result in prices of certain debt securities traded on such market fluctuating significantly. The funds investing in such market are therefore subject to liquidity and volatility risks. The bid and offer spreads of the prices of such securities may be large, and the funds may therefore incur significant trading and realisation costs and may even suffer losses when selling such investments.

The debt instruments in which the funds invest may not be listed on the Shanghai Stock Exchange or the Shenzhen Stock Exchange or a securities market where trading is conducted on a regular basis. Further, there may not be a liquid or active market for the trading of RMB denominated bonds in the SSE, the SZSE or the China Interbank Bond Market. Therefore, the funds may be subject to the risk of not being able to sell the bonds in a timely manner, or will have to sell at a deep discount to the face values. The funds' value and liquidity will be adversely affected.

To the extent that the funds transact in the China Interbank Bond Market, the funds may also be exposed to risks associated with settlement procedures and default of counterparties. The counterparty which has entered into a transaction with the funds may default in its obligation to settle the transaction by delivery of the relevant security or by payment for value.

For investments via the Foreign Access Regime and/or Bond Connect, the relevant filings, registration with the PBOC and account opening have to be carried out via an onshore settlement agent, offshore custody agent, registration agent or other third parties (as the case may be). As such, the funds are subject to the risks of default or errors on the part of such third parties.

Investing in the China Interbank Bond Market via Foreign Access Regime and/or Bond Connect is also subject to regulatory risks. The relevant rules and regulations on these regimes are subject to change which may have potential retrospective effect. In the event that the relevant mainland Chinese authorities suspend account opening or trading on the China Interbank Bond Market, the funds' ability to invest in the China Interbank Bond Market will be adversely affected. In such event, the funds' ability to achieve their investment objective will be negatively affected.

(c) *Urban investment bonds risk*

Urban investment bonds are issued by local government financing vehicles ("**LGFVs**"), such bonds are typically not guaranteed by local governments or the central government of the PRC. In the event that the LGFVs default on payment of principal or interest of the urban investment bonds, the funds could suffer substantial loss and the net asset value of the funds could be adversely affected.

(d) *System failure risks for Bond Connect*

Trading through Bond Connect is performed through newly developed trading platforms and operational systems. There is no assurance that such systems will function properly or will continue to be adapted to changes and developments in the market. In the event that the relevant systems fail to function properly, trading through Bond Connect may be disrupted. The funds' ability to trade through Bond Connect (and hence to pursue its investment strategy) may therefore be adversely affected. In addition, where the funds invest in the China Interbank Bond Market through Bond Connect, they may be subject to risks of delays inherent in the order placing and/or settlement systems.

(e) *Custodial, clearance and settlement risk*

The trustee of the underlying funds may appoint directly or indirectly custodians in local markets for the purposes of the safekeeping of assets in those markets. The trustee shall be responsible for the acts and omissions, including the negligence, wilful misconduct or fraud of such custodians. Notwithstanding the exercise by the trustee of care and diligence in choosing and appointing custodians and undertaking an appropriate level of supervision and enquiry on an ongoing basis into the discharge of the obligations of the custodian, there can be no assurance that losses will not arise to an underlying fund from the actions or inactions of such custodians, particularly in the case where regulation and standards of administration in certain emerging or developing economies or markets in which an underlying fund may invest are underdeveloped and not of the standard experienced in most developed economies or markets.

The lack of adequate custodial, clearance and settlement systems in some emerging economies or markets may prevent either partial or total investment in such economies or markets or may require an underlying fund to accept greater custodial, clearance and/or settlement risks in order to make any such investment. There are risks arising from the inadequacy of systems to ensure the transfer, evaluation, compensation and/or recording of securities, the procedure for registering securities, the custody of securities and liquidation of transactions. These risks do not occur as frequently in more developed economies or markets.

The clearance and settlement systems available to effect trades on certain emerging or developing economies or markets as well as the local banking and telecommunications systems may be significantly less developed than those in more developed economies or markets, which may result in delays and other material difficulties in settling trades and in registering transfers of securities. Since the local postal and banking systems in these emerging or developing economies or markets may not meet the same standards as those of more developed economies or markets, no guarantee can be given that all entitlements attaching to securities acquired by an underlying fund can be realised. There is the risk that payments of interest or other distributions by bank wire or by cheque sent through the mail could be delayed or lost. In addition, there is the risk of loss in connection with the insolvency of an issuer's bank, particularly because these institutions may not be guaranteed by the local government. In certain emerging or developing economies or markets, there have been times when clearance and settlements have been unable to keep pace with the volume of securities transactions, making it difficult to conduct such transactions. Problems with clearance and settlement in these economies or markets may affect the value and liquidity of an underlying fund. The inability of an underlying fund to make intended securities purchases due to clearance and settlement problems could cause the underlying funds to miss attractive investment opportunities. Inability to dispose of a portfolio security caused by such problems could result either in losses to an underlying fund portfolio due to subsequent declines in value of the portfolio security or, if an underlying fund has entered into a contract to sell the security, could result in potential liability to the purchaser.

In addition, such emerging or developing economies or markets may have less developed clearance and settlement procedures. The underlying funds will be exposed to credit risks of parties with or through whom it trades and will also bear the risk of settlement default. Market practice in certain emerging or developing economies or markets, in which the underlying funds may invest, in relation to the clearance and settlement of securities transactions, may increase such risks. In certain securities markets, in particular those in emerging or developing economies, transactions may not be executed on a delivery versus payment/receive versus payment (DVP/RVP) basis and there may be a difference in settlement dates for cash and securities, which creates counterparty risk.

Investment in debt securities will expose the underlying funds to counterparty default and settlement risks. There are various transaction settlement methods in the China Interbank Bond Market, such as the delivery of security by the counterparty after receipt of payment by the underlying funds; payment by the underlying funds after delivery of security by the counterparty; or simultaneous delivery of security and payment by each party. Although the investment manager may endeavour to negotiate terms which are favourable to the underlying funds (e.g. requiring simultaneous delivery of security and payment), there is no assurance that settlement risks can be eliminated. Where their counterparty does not perform their obligations under a transaction, the underlying funds and thus the funds investing in such underlying funds will sustain losses.

(f) *PRC broker default risk*

There is a risk that the funds may suffer losses, whether direct or consequential, from the default or bankruptcy of the PRC broker or disqualification of the same from acting as a broker.

This may adversely affect the funds in the execution or settlement of any transaction or in the transfer of any funds or securities.

(g) *Bond Connect tax consideration*

With the introduction of Bond Connect programme, eligible foreign investors can trade in bonds available on the China Interbank Bond Market.

Aside from the above-mentioned general rules, the mainland China tax authorities have not clarified

whether income tax and other tax categories are payable on gains arising from the trading in securities that do not constitute shares or other equity investments, such as bonds and other fixed income securities, of Qualified Foreign Institutional Investors ("**QFIIs**") and/or RMB Qualified Foreign Institutional Investors ("**RQFIIs**") and other investors through Bond Connect. It is therefore possible that the relevant tax authorities may, in the future, clarify the tax position and impose an income tax or withholding income tax on realised gains by QFIIs and/or RQFIIs from dealing in mainland China fixed income securities.

Onshore PRC debt securities are subject to PRC taxes, including withholding income tax on dividends and distributions. Based on professional and independent tax advice, the investment manager currently makes a 10% withholding tax provision for the account of the underlying funds in respect of any gross realised and unrealised capital gains arising on disposal of bonds and other fixed income securities. Any shortfall between the provision and the actual tax liabilities, which will be debited from the underlying funds' assets, will adversely affect the underlying funds' net asset value. The actual tax liabilities may be lower than the tax provision made. Depending on the timing of their subscriptions and/or redemptions, investors may be disadvantaged as a result of any shortfall of tax provision and will not have the right to claim any part of the overprovision (as the case may be).

5. FEES AND CHARGES

5.1 Fees and charges

5.1.1 Fee table

The following table describes the fees, charges and expenses that participating employers and Members may pay upon and after joining the Scheme. Important explanatory notes and definitions are set out at the bottom of the table. The following table has not taken into account any bonus unit rebates that may be offered to certain Members of the Scheme.

(A) JOINING FEE & ANNUAL FEE					
Type of fees		Current/Maximum amount (HKD)			Payable by
		Employee member/ personal account member	Self-employed person	Individual relevant employee member/ TVC account member	
Joining fee ¹		Nil (Permanently Waived)			Member
Annual fee ² (Service fee for self-employed person and individual relevant employee member)		N/A	Nil		Member
(B) FEES, EXPENSES AND CHARGES PAYABLE ARISING FROM TRANSACTIONS IN INDIVIDUAL MEMBER'S ACCOUNT					
Type of fees, expenses & charges	Name of constituent fund	Employee member/ personal account member	Self-employed person	Individual relevant employee member/ TVC account member	Payable by
		Current/ Maximum	Current/ Maximum	Current/ Maximum	
Contribution charge ³	All constituent funds	N/A	N/A	N/A	N/A
Offer spread ⁴	All constituent funds	N/A	N/A	N/A	N/A
Bid spread ⁵	All constituent funds	N/A	N/A	N/A	N/A
Withdrawal charge ⁶	Manulife MPF Conservative Fund	N/A	N/A	N/A	N/A
	Manulife MPF Core Accumulation Fund				
	Manulife MPF Age 65 Plus Fund				
	All other constituent funds	Nil	Nil	Nil	Member

(C) & (D) FEES, EXPENSES AND CHARGES OF CONSTITUENT FUNDS & FEES, EXPENSES AND CHARGES OF UNDERLYING FUNDS

Type of fees, expenses & charges (please refer to Explanatory Notes (iii))	Name of constituent fund	Current level###	Deducted from#
Management fees ⁷ (please refer to Explanatory Notes (i))	Manulife MPF Conservative Fund	0.75% p.a. of the NAV	Relevant assets of the first level APIF
	Manulife MPF Hang Seng Index Tracking Fund	0.90% p.a. of the NAV	Relevant assets of the first level APIF and the second level ITCIS
	Manulife MPF Aggressive Fund	1.75% p.a. of the NAV	Relevant assets of the first level APIF, the second level ITCIS(s) and APIFs
	Manulife MPF Growth Fund		
	Manulife MPF Stable Fund		
	Manulife MPF International Equity Fund	1.30% p.a. of the NAV	
	All Retirement Funds	0.99% p.a. of the NAV	
	Manulife MPF Interest Fund	1.75% p.a. of the NAV	Relevant assets of the first level APIF, and the second level APIFs

Management fees ⁷ (please refer to Explanatory Notes (i))	Manulife MPF RMB Bond Fund	1.15% p.a. of the NAV	Relevant assets of the first level APIF, and the second level APIFs
	Manulife MPF Hong Kong Bond Fund		
	Manulife MPF Pacific Asia Bond Fund		
	Manulife MPF International Bond Fund		
	Manulife MPF Healthcare Fund	1.90% p.a. of the NAV	
	Manulife MPF China Value Fund	1.90% p.a. of the NAV	
	Manulife MPF Fidelity Growth Fund	1.75% p.a. of the NAV	
	Manulife MPF Fidelity Stable Growth Fund		
	Manulife MPF Core Accumulation Fund	0.75% p.a. of the NAV	
	Manulife MPF Age 65 Plus Fund		
All other constituent funds	1.75% p.a. of the NAV		
Guarantee charge ⁸	N/A		

Other expenses	<p>The following fees and expenses may also be deducted from the assets of the Scheme (or the underlying APIFs, as the case may be): auditor fees, bank charges, transaction costs, licence fees, charges and expenses (including tax, stamp duty, registration fee, custody and nominee charges, compensation fund levy (if any), indemnity insurance, MPF registration fee (if any), government, regulatory and/or professional fees and charges) and fees for providing valuation, accounting, custodian and sub-custodian services for the underlying APIFs and their corresponding constituent funds, costs of preparing, publishing and distributing this MPF Scheme Brochure, any other materials and the reports of the Scheme, and any other expenses properly incurred in respect of the establishment, operation, management and administration of the Scheme, the constituent funds and the underlying APIFs.</p> <p>In respect of the DIS CFs, certain recurrent out-of-pocket expenses mentioned above are subject to a statutory annual limit of 0.2% of the NAV of the respective DIS CFs and will not be imposed on the respective DIS CFs in excess of that amount. Please refer to section 5.3 (<i>Fees and out-of-pocket expenses of the DIS CFs</i>) for further details.</p> <p>Participating employers will be responsible for the legal costs which may be incurred in the preparation of the participation agreement referred to in section 6.1 (<i>Application for membership</i>).</p> <p>No advertising expenses will be charged against the constituent funds, the first level pooled investment funds or the second level umbrella unit trusts.</p>
(E) OTHER FEES, EXPENSES AND CHARGES FOR PROVIDING ADDITIONAL SERVICES	
<p>Special handling fees payable by the requesting party can be charged by the Trustee in respect of any participating employer or participating Member in respect of any extra service provided which shall include but not limited to the following:</p> <p>- Request for copy of the Trust Deed: HKD1,000 per copy</p>	

Fees and charges to be borne by the first level pooled investment funds and the second level umbrella unit trusts will accrue on a daily basis, except that of the Manulife MPF Interest Fund and its underlying insurance policy will accrue monthly.

The above current level of fees does not include the amount of performance fee or incentive fee (if any) that will be charged.

DEFINITIONS

The following are the definitions of the different types of fees and charges.

1. **“joining fee”** means the one-off fee charged by the Trustee/Sponsor and payable by the employers and/or Members upon joining the Scheme.
2. **“annual fee”** means the fee (including service fee) charged by the Trustee/Sponsor by no more than once a year and payable by the employers and/or Members of the Scheme.
3. **“contribution charge”** means the fee charged by the Trustee/Sponsor against any contributions paid to the Scheme. This fee is usually charged as a percentage of contributions and will be deducted from the contributions. This charge does not apply to the Manulife MPF Conservative Fund.
4. **“offer spread”** is charged by the Trustee/Sponsor upon subscription of units of a constituent fund by a Member. Offer spread does not apply to the Manulife MPF Conservative Fund. Offer spread for a transfer of accrued benefits (applicable to constituent funds only) can only include necessary transaction costs incurred or reasonably likely to be incurred in selling or buying investments in order to give effect to the transfer and are payable to a party other than the Trustee.

5. **“bid spread”** is charged by the Trustee/Sponsor upon redemption of units of a constituent fund by a scheme Member. Bid spread does not apply to the Manulife MPF Conservative Fund. Bid spread for a transfer of accrued benefits, withdrawal of accrued benefits in a lump sum, or the first 12 withdrawals of accrued benefits by instalments in a year (applicable to constituent funds only) can only include necessary transaction costs incurred or reasonably likely to be incurred in selling or buying investments in order to give effect to the transfer or withdrawal and are payable to a party other than the Trustee.
6. **“withdrawal charge”** means the fee charged by the Trustee/Sponsor upon withdrawal of accrued benefits from the Scheme. This charge does not apply to the Manulife MPF Conservative Fund, the Manulife MPF Core Accumulation Fund and the Manulife MPF Age 65 Plus Fund. A withdrawal charge for a transfer of accrued benefits, withdrawal of accrued benefits in a lump sum, or withdrawals of accrued benefits by instalments in a year can only include necessary transaction costs incurred or reasonably likely to be incurred in selling or buying investments in order to give effect to the transfer or withdrawal and are payable to a party other than the Trustee.
7. **“management fees”** include fees paid to the Trustee, Custodian, Administrator, investment managers (including fees based on fund performance, if any), Sponsor and Promoter of a scheme for providing their services to the relevant fund and in respect of investment managers, include fees (if any) based on fund performance. They are usually charged as a percentage of the NAV of a constituent fund. In the case of the Manulife MPF Core Accumulation Fund and the Manulife MPF Age 65 Plus Fund, management fees payable to the parties named above, or their delegates, can only (subject to certain exceptions in the MPF Ordinance) be charged as a percentage of the NAV of the respective constituent funds. These management fees are also subject to a statutory daily limit equivalent to 0.75% per annum of the net asset value of the fund which applies across both the constituent fund and the underlying funds. Please see section 5.3 (*Fees and out-of-pocket expenses of the DIS CFs*) for details.
8. **“guarantee charge”** refers to an amount that is deducted out of the assets of a guaranteed fund for the purpose of providing the guarantee. This fee is usually charged as a percentage of the NAV of a guaranteed fund.

EXPLANATORY NOTES

- (i) Breakdown of management fees

Name of constituent fund	Breakdown of current level of management fees						Management fees	
	Constituent fund level (% p.a. of the NAV)			Underlying fund level (% p.a. of the NAV)				
	Trustee and administration Fee ^{^^}			Investment management fee	Trustee fee	Investment management fee	Current level	Maximum level ⁺⁺⁺

^{^^} The Trustee will, out of the trustee and administration fee, discharge the sponsor fee and the administration fee payable to the relevant parties.

^{^^^} The sponsor fee for each constituent fund varies. For the purpose of maintaining the current level of management fees, the Sponsor may, from time to time, waive any part of the sponsor fee for any constituent fund.

^{^^^} The administration fee may include fee payable to a party or parties to carry on fund administration of the constituent fund(s) and the underlying fund(s) in which the constituent fund(s) invest.

^{††} Although the detailed fee items in the table may not add up to the current level of management fees, the management fees for each constituent fund will only be charged according to the current level. Please refer to note ^{^^^} for details.

^{††††} The trustee and custodian fee and/or part of the administration fee (whichever is applicable) are currently waived for these constituent funds.

^{****} FIL Investment Management (Hong Kong) Limited does not currently intend to charge an incentive fee. Any intention to impose an incentive fee shall be subject to prior written notice to Members.

^{§§§} This fee level has already taken into account any refund of fees by FIL Investment Management (Hong Kong) Limited to the Manulife Growth Unit Trust Fund (Series I) and the Manulife Stable Growth Unit Trust Fund. This can be part of any similar fees arrangement made with any investment manager or sub-investment manager.

^{####} For the purpose of meeting the legislative requirements on the fee level, the sponsor fee, the trustee and custodian fee and part of the administration fee are currently waived for these two constituent funds. The fee level has already taken into account any refund of fees by Vanguard Investments Hong Kong Limited on a daily accrual basis, to the Manulife Core Accumulation Unit Trust Fund and the Manulife Age 65 Plus Unit Trust Fund. This can be part of any similar fees arrangement made with any investment manager or sub-investment manager.

[&] The constituent fund involves investment in multiple underlying AIFs in which each may have different investment management fees.

- (ii) Guarantee Provision
 - Smoothing provision applicable to the Manulife MPF Interest Fund: to be determined from time to time by Manulife (International) Limited.
 - Provision for guarantee applicable to the Manulife MPF Stable Fund: maximum level is 0.75% p.a. of the NAV and the current level is 0.25% p.a. of the NAV.
- (iii) Fees, expenses and charges of the constituent funds shall be collected under the first level AIFs.

- (iv) Notwithstanding the above, the Trustee may in its sole discretion reduce or waive any of the above fees and charges and/or adjust the current level of fees and charges at any time up to the specified maximum level as in this MPF Scheme Brochure provided that any increase in the current level of fees and charges can only be made with at least three months' prior notice to the Members and participating employers.
- (v) Subject to the approval of the MPFA, the Trustee may:
 - change the maximum level of fees, expenses and charges provided in this MPF Scheme Brochure; or
 - levy any additional fees, expenses and charges as may be permitted under the Trust Deed, by giving a three months' notice to the Members and participating employers.

††† The above maximum level of fees does not include the amount of performance fee or incentive fee (if any) that will be charged.

5.2 Deductions from the Manulife MPF Conservative Fund

Fees and charges of a conservative fund can be deducted from either (i) the assets of the fund or (ii) Members' account by way of unit deduction. The Manulife MPF Conservative Fund uses method (i) and, therefore, any unit prices/NAV/fund performance quoted for the fund have incorporated the impact of fees and charges.

Administrative expenses (i.e. trustee fee and fees of other services providers) may only be deducted from the Manulife MPF Conservative Fund and its underlying first level APIF in the following circumstances:

- (a) if the amount of income from the funds of the Manulife MPF Conservative Fund (or its underlying first level APIF) in a particular month exceeds the amount of interest that would have been earned if those funds had been placed on deposit in a HKD savings account at the prescribed savings rate, an amount not exceeding the excess may be deducted from the Manulife MPF Conservative Fund (or its underlying first level APIF) as administrative expenses for that month; or
- (b) if in a particular month no amount is deducted under (a) above or the amount that is deducted is less than the actual administrative expenses for the month, the deficiency may be deducted from the amount of any excess that may remain in any of the following 12 months after deducting the administrative expenses applicable to that following month.

5.3 Fees and out-of-pocket expenses of the DIS CFs

In accordance with the MPF legislation, the aggregate of the payment for services of the DIS CFs must not, in a single day, exceed a daily rate of 0.75% p.a. of the NAV of the respective DIS CFs divided by the number of days in a year.

The above aggregate payments for services include, but is not limited to, the fees paid or payable for the services provided by the trustee, administrator, investment manager(s), custodian and sponsor and/or promoter of the Scheme and the underlying investment fund(s) of the respective DIS CFs, and any of the delegates from these parties and such fees are calculated as a percentage of the NAV of the respective DIS CFs and its underlying fund(s), but does not include any out-of-pocket expenses incurred by the respective DIS CFs and its underlying fund(s).

Services provided by the principal service providers of the DIS CFs: (i) the Trustee manages the operations of Scheme and execution of the Trust Deed; (ii) the Administrator carries out the daily administration work of the Scheme and provides other customer services to the enrolled participating employers and Members; (iii) the investment manager is responsible for managing the investment of underlying APIFs of the DIS CFs; (iv) the custodian is responsible to safe-keep the underlying APIFs' assets and provides related administration services, the fee of which is included in the investment management fee.

In accordance with the MPF legislation, the total amount of all payments that are charged to or imposed on the DIS CFs or Members who invest in the DIS CFs, for out-of-pocket expenses incurred by the Trustee on a recurrent basis in the discharge of the Trustee's duties to provide services in relation to the respective DIS CFs, shall not in a single year exceed 0.2% of the NAV of the respective DIS CFs. For this purpose, out-of-pocket expenses include, for example, annual audit expenses, printing or postage expenses relating to recurrent activities (such as issuing annual benefit statements), recurrent legal and professional expenses, safe custody charges which are customarily not calculated as a percentage of the NAV and transaction costs incurred by a DIS CF in connection with recurrent acquisition of investments for the DIS CF (including, for example, costs incurred in acquiring underlying funds) and annual statutory expenses (such as compensation fund levy where relevant) of the DIS CF.

Out-of-pocket expenses that are not incurred on a recurrent basis may still be charged to or imposed on the DIS CFs and are not subject to the above statutory fee limits. The establishment costs of setting up the DIS CFs will not be charged to the respective DIS CFs.

5.4 Soft benefits

The investment managers and/or sub-investment managers of the second level umbrella unit trusts may receive from a broker or dealer such goods or services or other benefits (such as research and advisory services, computer hardware associated with specialized software, etc.) which are of demonstrable benefits to the Members provided execution of transactions is consistent with good execution standards and the brokerage rates paid do not exceed customary institutional full service brokerage rates. No cash rebate will be retained by the investment managers and/or sub-investment managers and/or their associates.

6. ADMINISTRATIVE PROCEDURES

6.1 Application for membership

6.1.1 Employers

Any employer may participate in the Scheme by establishing a sub-scheme. In order to establish a sub-scheme, an applicant must (i) complete the application form prescribed by the Trustee, (ii) execute the relevant participation agreement and (iii) agree in writing to comply with the Trust Deed.

6.1.2 Self-employed persons

Any self-employed person may participate in the Scheme by establishing a sub-scheme. In order to establish a sub-scheme, an applicant must (i) complete the application form prescribed by the Trustee, and (ii) agree in writing to comply with the Trust Deed. The self-employed person must indicate in the application form whether he will contribute to the Scheme on a monthly or yearly basis.

6.1.3 Employees

An employee of a participating employer who is eligible to join the Scheme must complete the enrolment form prescribed by the Trustee and agree in writing to comply with the Trust Deed.

A relevant employee whose employer may/may not have a sub-scheme under the Scheme may participate in the Scheme as an individual relevant employee. An applicant who is an individual relevant employee must indicate in the application form the manner in which he will make his Flexi Retirement Contribution.

In addition, the Trustee may enrol a relevant employee to the Scheme for the purpose of section 7AC of the MPF Ordinance.

6.1.4 Personal account members

Any employee under his participating employer's sub-scheme may, upon his cessation of employment with such participating employer, transfer his accrued benefits under his participating employer's sub-scheme to a personal account of the Scheme and become a personal account member.

An employee may also join the Scheme by transferring his accrued benefits in respect of his current employment, former employment or former self-employment to a personal account of the Scheme and become a personal account member in accordance with section 6.8.4(a) (*Transferring accrued benefits to the Scheme*).

Any other person who wishes to join the Scheme may become a personal account member and transfer his accrued benefits in respect of any former employment or former self-employment to his personal account of the Scheme.

In order to become a personal account member, an applicant must (i) complete the application form prescribed by the Trustee, and (ii) agree in writing to comply with the Trust Deed.

6.1.5 TVC account members

Any person who falls under any one of the following categories may open a TVC account:

- an employee member of a registered scheme;
- a self-employed person member of an MPF scheme;
- a personal account holder of an MPF scheme;
- a member of an MPF exempted ORSO scheme.

Each eligible person can only have one TVC account under an MPF scheme. In order to become a TVC account member, an applicant must (i) complete the application form prescribed by the Trustee, and (ii) agree in writing to comply with the Trust Deed.

The Trustee may reject any application to open a TVC account in the event of (i) having reason to know that information and documents provided to the Trustee are incorrect or incomplete; (ii) failure of applicants to provide information and documents as required by the Trustee to ensure compliance with applicable laws and regulations relating to anti-money laundering/tax reporting; and/or (iii) other circumstances which the Trustee may consider appropriate.

6.1.6 General

Any applicant whose application is accepted will be notified within 30 days from the time when all the information required for the application is submitted and the requirements under section 6.1 (*Application for membership*) are met. All applicants who are admitted to the Scheme (including the employee members of the participating employers) will be bound by the governing rules of the Scheme contained in the Trust Deed. In applying to participate in the Scheme, the applicants will also be permitting their appointed insurance/MPF intermediaries involved to receive commission or other remuneration (if any) that may be payable by Manulife (International) Limited on account of their services.

6.2 Mandatory contributions

6.2.1 Participating employers and employee members

Subject to the MPF Ordinance, every participating employer under the relevant sub-scheme must, in respect of each of its employee members who is a relevant employee, pay to the Trustee out of the participating employer's own funds a mandatory contribution at the prescribed percentage under section 7A of the MPF Ordinance of such employee member's relevant income (subject to the maximum level of relevant income as specified in the MPF Ordinance) for each period during which income is paid to such employee member (the "**contribution period**").

At the same time, unless the relevant income of the employee member who is a relevant employee falls below the statutory minimum level of relevant income under schedule 2 to the MPF Ordinance from time to time (the "**Minimum Level of Relevant Income**") per month (or, if the relevant employee is remunerated more frequently than on a monthly basis, the Minimum Level of Relevant Income per day, or in any other cases, the Minimum Level of Relevant Income per month as pro-rated or the Minimum Level of Relevant Income per day as pro-rated, whichever is applicable) such participating employer must, for each contribution period, deduct from such employee member's relevant income (subject to the maximum level of the relevant income) and pay to the Trustee a mandatory contribution at the prescribed percentage.

Both the participating employer's and employee's mandatory contributions must be made on the contribution day which is generally the 10th day after the last day of the calendar month within which the relevant contribution period ends in the case of relevant employees other than casual employees, or the 10th day after the last day of the relevant contribution period in the case of casual employees.

In some circumstances, an employer may be required under section 7AA of the MPF Ordinance to pay contributions for a relevant employee who is not a member of a registered scheme under section 7 of the MPF Ordinance to the MPFA. The MPFA may pay the contributions collected in respect of the relevant employee concerned to the Scheme in accordance with section 7AC of the MPF Ordinance.

6.2.2 Self-employed persons

Every self-employed person must, to the extent required by the MPF Ordinance, from the commencement date of his sub-scheme, pay to the Trustee a mandatory contribution at the prescribed percentage under section 7C of the MPF Ordinance of his relevant income (subject to the maximum level of the relevant income) on a monthly or yearly basis as specified in his application form unless his relevant income falls below the Minimum Level of Relevant Income per month or per year (as applicable).

6.2.3 Special contributions

Special contributions may be paid by the MPFA into the account of an employee member, self-employed person or personal account member under the Scheme in accordance with section 19B of the MPF Ordinance.

6.3 Voluntary contributions

6.3.1 Regular voluntary contributions

Participating employers, employee members or self-employed persons may choose to pay to the Trustee a regular voluntary contribution as a top-up contribution for each contribution period. Regular voluntary contribution may only be made by participating employers, employee members and self-employed person.

If a participating employer chooses to make such regular voluntary contributions in respect of his employee members and/or its employee members choose to make a regular voluntary contribution, it should be specified in the remittance statement and/or contribution data file from the participating employer to the Trustee, or in such other form/manner as prescribed or agreed by the Trustee from time to time. The participating employer may change its regular voluntary contribution arrangement by giving the Trustee one month's prior written notice. If an employee member wishes to change his regular voluntary contribution arrangement, such notice must be sent to the Trustee via his participating employer. However, participating employers and employee members are entitled to change their respective regular voluntary contribution once only in each financial year of the Scheme.

If a self-employed person chooses to make a regular voluntary contribution, he must notify the Trustee in writing by 30 days' prior notice the amount of such voluntary contribution. If a self-employed person wishes to change his voluntary contribution arrangement, prior notice in writing has to be given to the Trustee.

Any regular voluntary contribution made by an employee member and self-employed person shall be deducted from their respective relevant income.

6.3.2 Non-regular voluntary contributions

Non-regular voluntary contributions may only be made by employee members and self-employed persons.

(a) Employee members

With the consent of the Trustee, employee members may make a non-regular voluntary contribution as a top-up contribution on any dealing day by giving to the Trustee a seven working days' written notice (in such form as the Trustee may from time to time prescribe). If any employee member chooses to make a non-regular voluntary contribution, such contribution may, subject to the agreement of the Trustee, be either paid by the employee member from his own funds or deducted from his relevant income. If the non-regular voluntary contribution is deducted from the relevant income, the consent of his employer will be required.

The amount of each such non-regular voluntary contribution shall not be less than HKD5,000 (or such smaller amount as the Trustee may in its discretion agree). Also, the Trustee may require additional proof of identification if the amount of non-regular voluntary contribution exceeds the limit as determined by the Trustee from time to time.

(b) Self-employed persons

With the consent of the Trustee, self-employed persons may make a non-regular voluntary contribution as a top-up contribution on any dealing day by giving to the Trustee a seven working days' written notice (in such form as the Trustee may from time to time prescribe). Such contribution may either be paid from the self-employed person's own funds or relevant income or such other manner as the Trustee may agree and prescribe from time to time at its discretion.

The amount of each such non-regular voluntary contribution shall not be less than HKD5,000 (or such smaller amount as the Trustee may in its discretion agree). Also, that the Trustee may require additional proof of identification if the amount of non-regular voluntary contribution exceeds the limit as determined by the Trustee from time to time.

6.3.3 Flexi Retirement Contributions

With the consent of the Trustee, an individual relevant employee may make a Flexi Retirement Contribution on monthly basis (or on such regular basis as the Trustee may agree) or in single lump sum on any dealing day. In particular, relevant employees whose employers do not maintain a sub-scheme under the Scheme can make contribution as Flexi Retirement Contribution. Such contribution may be paid from the individual relevant employee's own funds in such manner as the Trustee may agree and prescribe from time to time. The Trustee reserves the right not to accept any Flexi Retirement Contribution.

In any case, each of such monthly Flexi Retirement Contribution shall not be less than HKD500 and except for the first single lump sum which shall not be less than HKD10,000, each of the subsequent single lump sum shall not be less than HKD5,000 (or such smaller amount as the Trustee may in its discretion agree). Also, the Trustee may require additional proof of identification and/or source of funds if the amount of the Flexi Retirement Contribution exceeds such limit as the Trustee may determine. The Trustee may change the prescribed minimum Flexi Retirement Contribution amounts from time to time by giving one month's written notice to the individual relevant employee members.

An individual relevant employee member may change the specified amount of Flexi Retirement Contribution provided that prior 30 days' written notice has been received by the Trustee. The new contribution amount specified in the notice shall not be less than the prescribed minimum Flexi Retirement Contribution amount as specified above.

6.3.4 Tax deductible voluntary contributions ("TVC")

Any person, who fulfils the eligibility requirements as mentioned in section 6.1.5 (*TVC account members*) can become a TVC account member and set up a TVC account and pay TVC into such account. TVC paid into the account will be eligible for tax deduction in accordance with the Inland Revenue Ordinance. With effect from April 1, 2019, the Scheme offers TVC account to eligible persons.

The characteristics of TVC are as follows:

- (i) TVC can only be made directly by eligible persons into TVC account of an MPF scheme in order to enjoy tax concession, subject to relevant conditions. Please refer to section 6.1.5 (TVC account members) and section 7.9(e) (Hong Kong taxation) for details;
- (ii) Involvement of employers is not required;
- (iii) Though it is voluntary in nature, TVC is subject to the same vesting, preservation and withdrawal requirements applicable to mandatory contributions. Accordingly, any accrued benefits derived from TVC (including any TVC made in excess of the maximum tax deduction limit during a tax assessment year) will be preserved and can only be withdrawn upon retirement at age 65 or on other statutory grounds under the MPF legislation.

TVC can only be made into a TVC account, which is separate from a contribution account or a personal account. Any other forms of voluntary contributions that are not made into the TVC account are not TVC (for example, voluntary contributions that are made by employee members through their participating employers will not be eligible for claiming TVC tax deduction).

For the purposes of anti-money laundering, compliance of the MPF Ordinance and/or any other situations that the Trustee may deem appropriate, the Trustee reserves the right not to accept any TVC.

Minimum limit imposed on the amount or frequency of contribution made to the TVC account will be specified in the relevant application form. TVC will be fully vested in the Member as accrued benefits once it is paid into the Scheme.

For the avoidance of doubt, the protection of accrued benefits under the MPF Ordinance is not applicable to the TVC account, meaning that accrued benefits derived from TVC will generally be vested in the trustee-in-bankruptcy or official receiver as part of the property of the bankrupt Member.

6.4 Contribution payment

All mandatory contributions, voluntary contributions, Flexi Retirement Contribution and TVC to the Scheme must be made to the Trustee and in HKD.

6.5 Contribution investment instruction

6.5.1 At application/enrolment

At the time when a Member joins the Scheme or opens a new account, the Member has the opportunity to give his contribution investment instruction to the Trustee in his application or enrolment form (as the case may be). Subject to any restrictions and limitations which may from time to time be imposed by the Trustee, such Member may select his own investment choices. Members should note that a contribution investment instruction given at the time of application/enrolment will apply to both mandatory and voluntary contributions.

Allocation percentage of investment choice for contributions is required at a minimum of 5% and in a whole number for each selected constituent fund. The total allocation percentages should add up to 100%.

A Member will be treated as not having given any contribution investment instruction in the following circumstances and such Member's contributions (including transferred monies) will be fully invested into the DIS:

- (i) No signature is provided on the application or enrolment form;
- (ii) The total allocation percentages of the investment choice(s) selected is over 100%;
- (iii) No investment choice is given in the application or enrolment form;
- (iv) The investment choice for all the selected constituent funds is unclear or illegible; and/or
- (v) Both the DIS and individual constituent funds are selected, which are mutually exclusive as an investment choice for a contribution investment instruction at the application/enrolment.

Where contribution investment instruction from a Member is treated as partially (but not wholly) invalid, such contribution investment instruction will be processed in the following manner:

- (a) The part of the contribution investment instruction which is clear and treated as valid: such part of the contribution investment instruction to invest into the selected constituent fund(s) will be processed accordingly.
- (b) The remaining part of the contribution investment instruction which is unclear or invalid: the contribution (including transferred monies) to which such contribution investment instruction relates will be invested into the DIS. Examples of such partially invalid contribution investment instruction include:
 - (i) the allocation percentage to any selected constituent fund(s) is below 5%;
 - (ii) the allocation to any selected constituent fund(s) is not in whole number;
 - (iii) the contribution investment instruction in any selected constituent fund(s) is unclear or illegible;
 - (iv) where the total allocation percentage of the investment choice is below 100%, the portion with no contribution investment instruction; and/or
 - (v) the investment choice is not a constituent fund available for selection.

After Member enrolment, a notice confirming the investment of all or part of the funds by default arrangement into the DIS together with the reasons for such investment arrangement will be issued to the Member concerned.

6.5.2 Change of contribution investment instruction

Members can change their contribution investment instruction at any time, subject to the relevant rules of the Scheme under section 6.5.1 (*At application/enrolment*). Members can choose to allocate their contributions in the DIS and/or any constituent funds.

As soon as the Trustee receives confirmation from the receiving banks of the Trustee that the contribution monies are cleared, the Trustee will invest the monies in the respective constituent funds in accordance with the latest contribution investment instruction.

6.6 Switching

6.6.1 Switching between constituent funds

Subject to any limitation which may be imposed by the Trustee from time to time, Members may submit a fund switching instruction to the Trustee to withdraw any investment or redeem any units in a constituent fund (the “**current constituent fund**”) and to apply the redemption proceeds to invest in other constituent fund(s) (the “**new constituent fund(s)**”) on the same day in accordance with the fund switching instruction.

Members may give separate fund switching instructions for mandatory and voluntary contributions respectively. The allocation percentage for each selected constituent fund or the DIS in the fund switching instruction is required to be at a minimum of 5% and in a whole number.

Notwithstanding any limitation which may be imposed by the Trustee from time to time in respect of the switching of constituent funds and/or the DIS, a Member may transfer his entire contributions or accrued benefits under the Scheme into any one constituent fund or the DIS.

The number of units of the new constituent fund (other than the Manulife MPF Interest Fund) to be issued will be calculated as follows:

$$N = \frac{P}{M}$$

where:

N	is the number of units of the new constituent fund to be issued (rounded to the nearest three decimal places, or such other number of decimal places as the Trustee may determine from time to time)
P	is the redemption proceeds or repayment amount from the current constituent fund calculated in accordance with section 7.2.4 (<i>Redemptions of units and redemption price</i>) below
M	is the issue price per unit of the new constituent fund as at the relevant dealing day

A fund switching instruction received by the Trustee through our website at www.manulife.com.hk or interactive voice response system or by facsimile or by mail at or before the dealing cut-off time (currently at 4:00 p.m. Hong Kong time) on a dealing day will generally be processed on the same dealing day. If such a fund switching instruction is received by the Trustee after the dealing cut-off time on a dealing day, the instruction will generally be processed on the next dealing day.

Members who choose to submit a fund switching instruction to the Trustee's designated address by mail should allow sufficient time for mailing.

If dealing of the relevant constituent fund(s) is suspended, the Trustee shall not be obliged to implement any or all of the instructions as specified in the fund switching instruction until the suspension has been lifted, whereupon all the above requests received by the Trustee, but not dealt with prior to such suspension, shall remain valid and will be dealt with after the period of suspension.

Any fund switching instruction received by the Trustee will be regarded as the rebalancing of all the accrued benefits in the Member's account as at the implementation of such fund switching instruction. Where a fund switching instruction requests to switch part of the accrued benefits to other constituent fund(s), it shall be regarded as given an instruction that the remaining part of the accrued benefits should remain unchanged on its investment.

Members should note that a fund switching instruction only applies to the existing accrued benefits and is not equivalent to a change of contribution investment instruction which applies to future contributions and transferred monies or vice versa. The fund switching instruction will not affect the way in which any future contributions and transferred monies should be invested, which will continue to be made in accordance with the latest contribution investment instruction submitted by the relevant Member.

6.6.2 Switching in and out of the DIS

Members can switch into or out of the DIS in respect of all or part of his accrued benefits in an account at any time, subject to the rules of the Scheme. If a Member wishes to switch out of the DIS, he may elect to switch all or part of his accrued benefits to other constituent fund(s) (including the CAF and the A65F as standalone fund choice). Likewise, if a Member wishes to switch into the DIS, he may elect to switch out all or part of his accrued benefits invested in individual constituent fund(s) (including the CAF and the A65F as standalone fund choice). In the case of switching into the DIS, the redemption proceeds from the specific constituent fund(s) will be invested in the CAF and the A65F in the allocation percentages according to the DIS de-risking table in Diagram 2 under section 3.3.2 (*Dealing day of Annual De-risking*). In the case of switching out of the DIS, the units to be redeemed from the CAF and the A65F will be equivalent to the percentage(s) of the accrued benefits to be switched out as specified in the fund switching instruction multiplied by the unit holding in the respective DIS CFs under the DIS as of the relevant dealing day. Members should, however, bear in mind that the DIS has been designed as a long-term investment arrangement.

6.6.3 Timing of the switching

In effecting the fund switching instruction, the Trustee shall redeem the relevant investments or units in the relevant constituent fund (the “switched-out constituent fund”) and apply the redemption proceeds to invest in other constituent fund(s) specified in the fund switching instruction on the same date when the investments or units in the switched-out constituent fund are redeemed or, if such date is not a dealing day of that other constituent fund, on the dealing day immediately following the date on which the investments or units in the switched-out constituent fund are redeemed.

6.7 Circumstances for accrued benefits to be invested in the DIS

6.7.1 New accounts set up on or after April 1, 2017

(a) When Members join the Scheme or set up a new account in the Scheme, they have the opportunity to give a contribution investment instruction for their future contributions and transferred monies. They may choose to invest their future contributions and transferred monies into:

- the DIS; or
- one or more constituent funds of their own choice (including the CAF and the A65F) and according to their assigned allocation percentage(s) to relevant fund(s) of their choice.

Members should note that, if investments/accrued benefits in the CAF or the A65F are made under the Member’s contribution investment instructions (as a standalone fund choice rather than as part of the DIS offered as a choice) (“**standalone investments**”), those investment/accrued benefits will not be subject to the de-risking process. Accordingly, if a Member’s accrued benefits are invested in any combination of (i) the CAF and/or the A65F as standalone investments and (ii) the DIS (no matter by default arrangement or by contribution investment instruction), accrued benefits invested under (i) will not be subject to the de-risking mechanism whereas for accrued benefits under (ii) will be subject to the de-risking process. In this connection, Members should pay attention to the different on-going administration rules applicable to accrued benefits invested in (i) and (ii). In particular, Members will, when giving a fund switching instruction, be required to specify to which part of the accrued benefits (namely, under (i) or (ii)) the instructions apply.

(b) If Members do not give any contribution investment instructions, their future contributions and transferred monies will be automatically invested in the DIS.

6.7.2 Existing accounts set up before April 1, 2017

There are special rules to be applied for accounts which exist or are set up before April 1, 2017 (“**Pre-existing Accounts**”) and these rules **only apply to Members who were under or becoming 60 years of age on April 1, 2017**. Members who have reached 60 years of age before April 1, 2017 will not be affected and there is no change on investment of their accrued benefits, future contributions and transferred monies of their accounts.

For a Member’s Pre-existing Account with all accrued benefits being invested according to the original default investment arrangement (i.e. the Manulife MPF Interest Fund) immediately before April 1, 2017:

The original default arrangement of the Scheme was to invest in the Manulife MPF Interest Fund before April 1, 2017 (the “**Original Default Arrangement**”). As the amount withdrawn from the Manulife MPF Interest Fund at any time will not be less than the value guaranteed, Member’s Pre-existing Account is subject to arrangement below as required by the MPF legislation. If the accrued benefits in a Member’s Pre-existing Account are only invested in the Manulife MPF Interest Fund according to the Original Default Arrangement of the Scheme, special rules and arrangement will be applied, in due course, to determine whether the accrued benefits in the Pre-existing account will be transferred to the DIS and whether the future contributions and transferred monies in such Pre-existing account will be invested in the DIS. If the Member’s Pre-existing Account is the one described above, a notice called the DIS Re-investment Notice would have been sent to the Member within six months after April 1, 2017 explaining the impact on

such account and giving the Member an opportunity to give a Specific Investment Instruction to the Trustee before the accrued benefits, future contributions and/or transferred monies are invested into the DIS. **Member should note that the risk inherent in the arrangement, in particular, the Original Default Arrangement. The investment policy and the risk factors of the Manulife MPF Interest Fund can be referred to sections 3.4.1 (Manulife MPF Interest Fund (the "Interest Fund")) and 4 (RISK FACTORS) respectively. Please note that the risk factors of the Manulife MPF Interest Fund are different to those of the DIS as stated in section 4.27 (Additional risks related to the DIS CFs) of this MPF Scheme Brochure. Members should note that the Manulife MPF Interest Fund provides a capital guarantee and the risk level is lower than the DIS. Members will also be subject to market risks during the redemption and reinvestment process.**

For details of the arrangement, Members should refer to the DIS Re-investment Notice.

For a Member's Pre-existing Account with part of the accrued benefits in the Original Default Arrangement before April 1, 2017:

For a Member's Pre-existing Account in which part of the accrued benefits was invested in the Manulife MPF Interest Fund according to the Original Default Arrangement immediately before April 1, 2017, unless the Trustee has received any Specific Investment Instruction, accrued benefits (including future contributions and transferred monies) for the Member will be invested in the same manner as the accrued benefits invested immediately before April 1, 2017.

For a Member's Pre-existing Account set up as a result of an automatic transfer of accrued benefits from a contribution account due to cessation of former employment, with none or all of the accrued benefits in the Original Default Arrangement and without contribution investment instruction being given before April 1, 2017:

For a Member's Pre-existing Account set up as a result of an automatic transfer of accrued benefits from a contribution account due to cessation of former employment, with none or all of the accrued benefits in the Manulife MPF Interest Fund, unless the Trustee had received any contribution investment instructions immediately before April 1, 2017, such accrued benefits will continue to be invested in the same manner but future contributions and transferred monies on or after April 1, 2017 will be invested in the DIS. Member should note that, in general, contribution investment instruction that was carried over from a contribution account to a personal account under the auto-preservation process will be changed to the DIS unless there were subsequent transferred monies made to the personal account and invested according to such instruction before April 1, 2017.

For a Member's Pre-existing Account with the accrued benefits being transferred to the Scheme as a result of scheme restructuring:

For a Member's Pre-existing Account with accrued benefits being transferred to the Scheme as a result of scheme restructuring and not wholly invested in the Manulife MPF Interest Fund immediately before April 1, 2017, unless the Trustee has received any Specific Investment Instruction, accrued benefits (including future contribution and transferred monies) for a Member will continue to be invested in the same manner as that were invested immediately before April 1, 2017.

6.8 Transfer

This section 6.8 (*Transfer*) does not apply to an individual relevant employee who makes Flexi Retirement Contribution. Accrued benefits held in the Flexi Retirement Contribution sub-account shall be retained in the Scheme unless otherwise withdrawn upon request.

6.8.1 Transfer to the Scheme

(a) Participating employers

If a participating employer already maintains an existing ORSO scheme, the employer may transfer the funds and any minimum MPF benefit in such existing ORSO scheme to the Scheme as voluntary contribution and mandatory contribution respectively in accordance with the MPF Ordinance.

Similarly, if a participating employer maintains an employer sponsored scheme or participates in another registered scheme under the MPF Ordinance, the participating employer may, subject to the MPF Ordinance, transfer the funds in such existing scheme to the Scheme.

Where there is a change in the ownership of whole or part of a business in which an employee is employed, or where the relevant employment of an employee is transferred to an associated company of the same company group, the new owner or associated company (as the case may be) ("**new employer**") who has assumed certain duties or liabilities of the previous owner or company ("**previous employer**"), may elect in accordance with the General Regulation (including, in particular, section 150A) to have the funds and any minimum MPF benefit of such employee held in the scheme or arrangement maintained by his previous employer to be transferred to the Scheme of which the new employer is a participating employer.

(b) *Employee members, self-employed persons or personal account members*

At the request of an employee member, self-employed person or personal account member, the Trustee shall accept a transfer payment from any other scheme or arrangement of which the employee member, self-employed person or personal account member is a member. Such transfer payment will be held by the Trustee as mandatory and/or voluntary contributions in accordance with the governing rules of the Scheme.

(c) *TVC account members*

At the request of a person eligible to be a TVC account member under section 6.1.5 (*TVC account members*), the Trustee shall accept a transfer payment from any other scheme of which such person is a TVC account member, provided that the transfer has to be made in lump sum (full account balance). Such transfer payment will be held by the Trustee as TVC in a TVC account under the Scheme in accordance with the governing rules of the Scheme.

6.8.2 Transfer to another account within the Scheme

This section 6.8.2 (*Transfer to another account within the Scheme*) does not apply to:

- A TVC account member - please refer to section 6.8.5 (*TVC*) for the portability rules of TVC; and
- an individual relevant employee who makes Flexi Retirement Contribution - accrued benefits held in the Flexi Retirement Contribution sub-account shall be retained in the Scheme unless otherwise withdrawn upon request.

(a) *Employee members*

If an employee member ceases to be employed by his employer, the employee member may elect to have his accrued benefits under the Scheme transferred to a personal account of the Scheme or to another registered scheme.

If the employee member fails to notify the Trustee of an election in accordance with section 146 of the General Regulation within three months after the Trustee has been notified by the former employer or by the employee member that the employee member has ceased to be employed by the former employer, at the end of that period, the employee member will be taken to have elected to transfer his accrued benefits concerned to a personal account of the Scheme, and the Trustee is taken to have been notified of the election, in which case, all accrued benefits of the employee member will be so transferred within 30 days after the end of the three months' period.

(b) *Self-employed persons*

If a self-employed person fails to notify the Trustee of an election in accordance with section 148 of the General Regulation within three months after the Trustee has been notified that the self-employed person has ceased to be self-employed, at the end of that period, the self-employed person will be taken to have elected not to transfer his accrued benefits but to retain them in the Scheme.

(c) *Employee members, self-employed persons and personal account members*

A Member who wishes to make a transfer of accrued benefits from one account to another account of the Scheme should notify the Trustee of his election and provide the Trustee with the necessary information in accordance with the Trust Deed. When a transfer from a Member's account to the Member's another account within the Scheme is being processed, such transfer will be effected by way of unit transfer of the relevant units in the constituent funds (other than the Manulife MPF Interest Fund which is non-unitised).

If the Member's account holds any units in the Manulife MPF Stable Fund at the time of transfer, the relevant guarantee account balance and all relevant transactions that are applicable to determine the guarantee will be transferred to the transferee account of the Member. The Member's entitlement to the guarantee under the Manulife MPF Stable Fund will not be affected.

If the Member's account holds any balance of the Manulife MPF Interest Fund at the time of transfer, the relevant balance will be transferred to the Member's transferee account. The Member's entitlement to the guarantee under the Manulife MPF Interest Fund will not be affected.

Member should note that the contribution investment instruction applicable to the Member's account prior to the transfer will not be carried over to the Member's transferee account. Unless the Member has given a contribution investment instruction in respect of the Member's transferee account, any future contribution and transferred monies in the transferee account will be invested in accordance with the DIS.

6.8.3 *Transfer out of the Scheme*

Self-employed persons, personal account members and TVC account members may at any time elect to transfer their accrued benefits in their contribution or personal account to another registered scheme.

If an employee member ceases to be employed by his employer, the employee member may elect to have his accrued benefits under the Scheme transferred to a personal account of the Scheme or to another registered scheme.

If any such Member wishes to transfer his accrued benefits from the Scheme to another registered scheme, he should notify the trustee of the transferee scheme by completing the relevant election forms, in which case, the trustee of the transferee scheme should notify the Trustee of the election as soon as practicable. Subject to the General Regulation, the Trustee will take all practicable steps to ensure that the accrued benefits concerned will be transferred in accordance with the election within 30 days after being notified or, if the election is made by an employee member who ceased to be employed by his participating employer, within 30 days after the last contribution day in respect of the employment that has ceased, whichever is later.

6.8.4 *Employee choice arrangement – transfer accrued benefits to and from the Scheme*

(a) *Transferring accrued benefits to the Scheme*

Accrued benefits relating to current employment

An employee member of another registered scheme may transfer his accrued benefits deriving from the employee's mandatory contributions and/or, subject to the terms of that registered scheme, voluntary contributions made in respect of his current employment to the Scheme, by completing and returning to the Trustee the prescribed election form together with the required documents. If he is already a personal account member of the Scheme, the accrued benefits so transferred will be held in his personal account. However, if he is not, he will have to become a personal account member by completing and sending to the Trustee the application form and other necessary documents, and the accrued benefits so transferred will be held in his personal account.

Accrued benefits relating to former employment and former self-employment

An employee member of another registered scheme may transfer his accrued benefits deriving from mandatory and/or, subject to the terms of that registered scheme,

voluntary contributions made by him or his employer in respect of his former employment or former self-employment to the Scheme by completing and returning to the Trustee the prescribed election form together with the required documents. If he is already a Member of the Scheme, the accrued benefits so transferred will be held in his contribution account or personal account as designated by him. However, if he is not, he will have to become a personal account member by completing and sending to the Trustee the application form and other necessary documents, and the accrued benefits so transferred will be held in his personal account.

(b) *Transferring accrued benefits from or within the Scheme*

Accrued benefits relating to current employment

An employee member may elect (by completing and sending to the Trustee the prescribed election form and other necessary documents) to transfer accrued benefits deriving from the employee's mandatory contributions of his current employment in his contribution account of the Scheme at any time to (i) a personal account of the Scheme or (ii) a personal account within another master trust scheme or industry scheme nominated by the employee member. He may only make such a transfer once in every calendar year. No withdrawal of such accrued benefits shall be allowed except as provided in section 6.10 (*Withdrawal*).

Accrued benefits relating to former employment and former self-employment

An employee member may elect (by completing and sending to the Trustee the prescribed election form and other necessary documents) to transfer accrued benefits deriving from mandatory contributions of his former employment or former self-employment in his contribution account of the Scheme to (i) a personal account or another contribution account of the Scheme, or (ii) a contribution account of another registered scheme or (iii) a personal account of another master trust scheme or industry scheme nominated by the employee member. No withdrawal of such accrued benefits shall be allowed except as provided in section 6.10 (*Withdrawal*).

Timing

If a Member elects to have his accrued benefits transferred to another account of the Scheme, subject to the General Regulation, the Trustee will take all practicable steps to ensure that all such accrued benefits concerned will be transferred in accordance with the election within 30 days after being notified by a completed election notice or if the election is made by an employee member who ceased to be employed by his participating employer, within 30 days after the last contribution day in respect of the employment that has ceased, whichever is later. If a Member elects to have his accrued benefits transferred from the Scheme to another registered scheme, the Member should notify the trustee of the transferee scheme, in which case, the trustee of the transferee scheme should notify the Trustee of the election as soon as practicable.

6.8.5 TVC

TVC is portable and TVC account members should note that:

- (a) TVC account member may at any time choose to transfer the accrued benefits derived from TVC to another registered scheme that offers TVC;
- (b) The transfer must be in a lump sum (full account balance);
- (c) The TVC account in the original scheme from which the accrued benefits are transferred (resulting in zero balance) may be terminated upon such transfer;
- (d) For the avoidance of doubt, transfer of accrued benefits derived from a TVC account to another TVC account of the member in another registered scheme cannot be claimed as deductions for taxation purpose; and
- (e) Transfer of TVC accrued benefits to another TVC account of the TVC account member in another registered scheme will also be subject to the same vesting, preservation and withdrawal requirements applicable to mandatory contributions under the MPF legislation.

6.9 Vesting of accrued benefits

6.9.1 Employee members

Except for any employer's voluntary contributions and subject to any provisions otherwise stipulated in sections 12 and 12A of the MPF Ordinance, all contributions made on behalf of any employee member will become fully vested as accrued benefits as soon as they are received by the Trustee.

Subject to the provision of the Trust Deed, the relevant participation agreement/application form or such other instructions in writing, all voluntary contributions made by the participating employer in respect of an employee member may become fully vested as accrued benefits when:

- (i) the employee member attains the normal retirement age of 65;
- (ii) the employee member early retires after the age of 60;
- (iii) the employee member retires on the ground of total incapacity;
- (iv) the employee member dies during his employment; or
- (v) the voluntary contributions become fully vested in accordance with its vesting scale as specified in the application form or any other instructions in writing.

6.9.2 Self-employed persons, individual relevant employee members, personal account members and TVC account members

All contributions made by or on behalf of self-employed persons, individual relevant employees, personal account members and TVC account members will be fully vested as accrued benefits at all times.

6.10 Withdrawal

6.10.1 Withdrawal of accrued benefits attributable to mandatory contributions and TVC

Subject to the provisions in the MPF Ordinance and the General Regulation and save as otherwise provided in the Trust Deed, participation agreement or any ancillary instructions, a Member (or his personal representative or committee of the estate, as the case may be) will be entitled to all accrued benefits derived from mandatory contributions and/or TVC in respect of the Member (unless otherwise stated) under the Scheme in a lump sum in any of the circumstances:

- (i) he attains the normal retirement age of 65;
- (ii) he attains the early retirement age of 60 and certifies to the Trustee by statutory declaration that he has permanently ceased his employment or self-employment;
- (iii) he dies before his accrued benefit has been paid;
- (iv) he has departed or is about to depart from Hong Kong permanently;
- (v) he retires on the ground of total incapacity;
- (vi) he has a terminal illness which is likely to reduce his life expectancy to 12 months or less.

In addition, where either circumstance (i) or (ii) occurs, the Member may receive the accrued benefits by instalments. Any withdrawal claims of accrued benefits by instalments for a Member can be effected free of withdrawal charge.

Section 162 of the General Regulation also allows a Member to elect to receive accrued benefits in the Scheme if such accrued benefits do not exceed HKD5,000 at the date of the claim and at least 12 months have elapsed since the contribution day in respect of the latest contribution period for which mandatory contribution is required to be paid in respect of the Member and the Member does not have any accrued benefits in other registered schemes ("**small balance ground**").

6.10.2 *Withdrawal of accrued benefits attributable to voluntary contributions*

Accrued benefits attributable to voluntary contributions will be payable should any of the circumstances under (i) to (vi) in section 6.10.1 (*Withdrawal of accrued benefits attributable to mandatory contributions and TVC*) occur or on small balance ground, except for (vi) under section 6.10.1, such accrued benefits will not be payable if the Member is an employee member and remains in employment.

Accrued benefits attributable to voluntary contributions made in respect of an employee member under the relevant sub-scheme of the participating employer can also be withdrawn when he ceases to be employed by the participating employer or in accordance with the relevant participation agreement. The amount of accrued benefits payable will be equal to the aggregate of the vested balance of his employer's voluntary contribution account and the total balance of his own voluntary contribution account under such relevant sub-scheme of the participating employer.

A self-employed person or a personal account member is entitled to withdraw the accrued benefits in his voluntary contribution account four times in each financial year by giving 30 days' prior written notice (or such shorter notice as agreed by the Trustee from time to time) to the Trustee. Any such requests will normally be effected by the Trustee within seven Business Days from the Trustee's receipt of the request, or in the case of withdrawal of accrued benefits under voluntary contribution account, within seven Business Days from the date of receipt of the relevant requests or the expiry date of such requests.

6.10.3 *Withdrawal of accrued benefits attributable to non-regular voluntary contribution*

(a) Employee members

An employee member who has accrued benefits attributable to non-regular voluntary contributions may request the Trustee to redeem and withdraw any portion of such accrued benefits on any dealing day during his employment by giving to the Trustee a written notice (in such form as the Trustee may from time to time prescribe). Any such withdrawal requests will normally be effected by the Trustee within seven Business Days of the receipt of the proper notice given by the employee member.

An employee member may request for withdrawal once every financial year save as otherwise agreed by the Trustee on such terms at its own discretion. Also, the amount of accrued benefits withdrawn under each request shall not be less than HKD5,000 (or such smaller amount as the Trustee may in its discretion agree, provided that if the account value attributable to such non-regular voluntary contribution is less than HKD5,000, the total amount within such account can be withdrawn).

(b) Self-employed persons

Subject to the consent of the Trustee, a self-employed person who has accrued benefits attributable to non-regular voluntary contributions may request the Trustee to redeem and withdraw any portion of such accrued benefits on any dealing day during his self-employment by giving to the Trustee a written request (in such form as the Trustee may from time to time prescribe). Any such requests will normally be effected by the Trustee within seven Business Days from the receipt of the request, or in the case of withdrawal of accrued benefits under voluntary contribution account, within seven Business Days from the date of receipt of the relevant requests or the expiry date of such requests.

A self-employed person may request for such withdrawal once every financial year save as otherwise agreed by the Trustee on such terms at its own discretion. Also, the amount of accrued benefits withdrawn under each request shall not be less than HKD5,000 (or such smaller amount as the Trustee may in its discretion agree, provided that if the account value attributable to such non-regular voluntary contribution is less than HKD5,000, the total amount within such account can be withdrawn).

6.10.4 *Withdrawal of accrued benefits attributable to Flexi Retirement Contribution*

An individual relevant employee member shall maintain his Flexi Retirement Contribution account balance of not less than HKD5,000 at all times, or in the case of monthly Flexi Retirement Contribution, after the Flexi Retirement Contribution account balance reaches HKD5,000. Subject to the consent of the Trustee, an individual relevant employee who has accrued benefits attributable to the Flexi Retirement Contribution may request the Trustee to redeem and withdraw any portion of such accrued benefits on any dealing day by giving to the Trustee a written request (in such form as the Trustee may from time to time prescribe). A

withdrawal charge, if any, may be deducted from the withdrawal amount. The Trustee has currently waived the withdrawal charge until further notice. Any such withdrawal requests will normally be effected by the Trustee within 30 days from the receipt of the request and the proceeds shall be paid to the individual relevant employee member accordingly.

An individual relevant employee may request for withdrawal up to four times in a financial year save as otherwise agreed by the Trustee on such terms at its own discretion. Also, the amount of accrued benefits withdrawn under each request shall not be less than HKD5,000 (or such smaller amount as the Trustee may in its discretion agree).

6.11 Payment of accrued benefits

6.11.1 *Employee member, self-employed person, personal account member or TVC account member*

Subject to provisions in the General Regulation, a Member (or his personal representative, committee of the estate, as the case may be) may lodge with the Trustee a claim for the relevant accrued benefits by submitting a form as prescribed by the Trustee.

The accrued benefits will be valued, (a) in the case due to the cessation of the employee's employment, as at the dealing day within 30 days of the later of (i) the date of cessation of employment and (ii) the date on which the Trustee receives the notice of cessation of employment; and (b) in any other cases, as at the dealing day within 30 days of the date on which the Trustee receives the withdrawal claim.

Once the Trustee has received all relevant information as required by the Trustee or the General Regulation, the Trustee shall:

- (a) in the case where the accrued benefits are paid in a lump sum, ensure that the accrued benefits are paid to the Member within (i) 30 days after the date on which the claim is lodged; or (ii) 30 days after the contribution day in respect of the last contribution period that ends before the claim is lodged with the Trustee, whichever is later; or
- (b) in the case where the accrued benefits are paid by instalments, ensure that each instalment is paid to the Member within 30 days after the date on which the Member instructs the Trustee to pay that instalment, unless otherwise agreed between the Trustee and the Member.

This section 6.11.1 does not apply to an individual relevant employee member who makes Flexi Retirement Contribution.

6.11.2 *Other matters*

The Trustee may also deduct from the accrued benefits payable (including accrued benefits paid to an individual relevant employee member) all income taxes, duties, charges and any other fees which are required by law to be deducted.

When the Trustee pays the accrued benefits to a Member, the Trustee will provide the Member with a benefit payment statement containing information such as the total amount paid and the details of any expenses relating to the payment made.

Payment of accrued benefits under the Scheme will be made in Hong Kong and in HKD unless otherwise agreed between the Trustee and the Member. If the payment is made in a currency other than HKD or in a place outside Hong Kong, the Trustee may deduct the cost of conversion and transmission (as the case may be) from the sum payable. The Trustee may make the payment by cheque or telegraphic transfer.

Bank charges may be incurred by a Member at his own bank account for any direct credit payment.

6.12 Payment related to long service payment and severance payment

The accrued benefits attributable to a participating employer's contributions could be used to offset the amount of long service payment or severance payment which the participating employer is required to pay to its employee members, up to and no more than the amount of such accrued benefits. The relevant amount of the long service payment or severance payment will be withdrawn from the vested balance attributable to the participating employer's contributions according to the following sequence (unless otherwise agreed by the Trustee at its sole discretion):

- (a) the vested accrued benefits of the participating employer's contributions in an ORSO scheme (if any) with Manulife;
- (b) the vested accrued benefits attributable to the employer's voluntary contribution sub-account;
- (c) the balance of the participating employer's mandatory contribution sub-account under the Scheme.

6.13 Termination of sub-scheme

Any participating employer or Member (other than employee members of the participating employers) may at any time cease to participate in the Scheme by giving written notice to the Trustee.

Furthermore, the Trustee may terminate the participation of a participating employer or membership of a Member in accordance with the rules of the Scheme; and

- (a) in the case of an employee member, with the written agreement of that employee member or the employer of that employee member given not earlier than 60 days before the termination; or
- (b) in the case of a self-employed person, a former self-employed person or a personal account member, with the written agreement of that self-employed person or former self-employed person or personal account member given not earlier than 60 days before the termination; or
- (c) in the case of an individual relevant employee member, (i) with the notification by the individual relevant employee member to the Trustee that he ceases to be a "relevant employee" as defined in the MPF Ordinance, or (ii) with 30 days prior notification given by the Trustee to the individual relevant employee member if the Flexi Retirement Contribution account balance maintained in the relevant sub-scheme of the individual relevant employee member is less than HKD5,000; or
- (d) in the case of a TVC account member, (i) with the written agreement of the TVC account member given not earlier than 60 days before the termination, or (ii) if the balance of the TVC account maintained in the relevant sub-scheme of the TVC account member is zero and there is no transaction activity in respect of the TVC account for 365 days; or
- (e) in the case of an employee member (other than a casual employee) who is not required to be enrolled in the Scheme by the MPF Ordinance and whose employment is being terminated before he is so required to enrol in the Scheme, no agreement is required from such employee member.

Upon termination of the sub-scheme, the participating employer or Member (other than an individual relevant employee member) may transfer the accrued benefits under the Scheme to another registered scheme in accordance with the prevailing laws and regulations.

Upon termination of the sub-scheme of an individual relevant employee member, he will be paid his accrued benefits under the Scheme in accordance with the Trust Deed.

7. OTHER INFORMATION

7.1 Valuation and pricing

7.1.1 Valuation

The Trustee will value each investment and asset in a constituent fund on each valuation day. Assets in each constituent fund (other than the Manulife MPF Interest Fund) will be valued for each dealing day whereas assets in the Manulife MPF Interest Fund will be valued for the last day of each month.

The NAV of a constituent fund will be determined by calculating the total value of the investments and assets of the constituent fund and deducting the liabilities attributable to the constituent fund in accordance with the Trust Deed. In general,

- (a) quoted investments are valued at their latest available quoted traded price of the relevant investment as at the close of business in the relevant stock exchange or market at or immediately preceding the valuation time which is the close of business in the last market to close of all relevant stock exchanges or markets on each day of valuation or such other time on a day of valuation as the Trustee may from time to time select;
- (b) unquoted investments are assessed on the latest revaluation made;
- (c) collective investment schemes are valued at their NAVs per share or unit or if more than one price is quoted, the sell price;
- (d) current and fixed deposits are valued at face value;
- (e) futures contracts are valued at their contract values, taking into account any amount as would be required to close the contracts and any expenses that may be incurred; and
- (f) if investments have been agreed to be purchased, such investments will be included and the purchase price will be excluded; if investments have been agreed to be sold, such investments will be excluded and the sales proceeds will be included.

Liabilities attributable to a constituent fund will include any taxation related to the income of the constituent fund and accrued or unpaid expenses of the Scheme (e.g. trustee's fee, legal and auditor's fee, valuation and other professional fees and the cost of setting up the Scheme) which are attributable to the constituent fund and any outstanding borrowing.

The NAV per unit of a constituent fund (which is not the Manulife MPF Interest Fund) will be determined by dividing its NAV (reduced by any reserve held in the fund for guarantees) by the number of units in issue.

For the purpose of valuation, money received for acquiring investments or units in the constituent fund on the dealing day will not be included in the valuation and no deduction will be made in respect of redemption of units or withdrawal of accrued benefits from the constituent fund on that dealing day.

Subject to the approval of the MPFA, the Trustee may change the valuation methodology of any constituent fund by giving to the Members one month's prior notice.

7.1.2 Suspension of valuation and pricing

The Trustee may, having regard to the interests of the Members, suspend the dealing of the units of any constituent fund and the determination of the NAV of any constituent fund in the following circumstances:

- (a) there is a closure of or restriction or suspension of trading on any securities markets on which a substantial part of the investments of the relevant constituent fund is normally traded or a breakdown in any of the means normally employed by the Trustee in determining the NAV of a constituent fund or ascertaining the value of any investments comprised in a constituent fund;
- (b) for any other reason, the prices of investments in the constituent fund cannot, in the opinion of the Trustee, be reasonably ascertained;

- (c) in the opinion of the Trustee, it is not reasonably practicable or is prejudicial to the interest of the Members to realise any investments held in the constituent fund; or
- (d) the remittance or repatriation of funds which may be involved in the redemption of or in the payment for the investments in any constituent fund or the subscription for or redemption of any units is delayed or cannot, in the opinion of the Trustee, be effected at reasonable prices or reasonable rates of exchange,

provided that the suspension shall not cause the Trustee to be unable to comply with its obligations under the MPF Ordinance and any rules, guidelines, codes or regulations made thereunder.

The Trustee may also, as a result of any restructuring of the Scheme and where reasonably practicable, declare a suspension of the dealing of the units or accrued benefits of any constituent funds and the determination of the NAV of any constituent fund and/or suspend the processing of contributions or transfer in or out requests, fund switching, enrolment or participation applications, or payment of accrued benefits, from or in respect of participating employers and Members who are subject to such restructuring and for such period or periods as the Trustee, in its opinion, considers appropriate and to the best interest of Members.

Whenever a suspension is declared, the Trustee will notify the MPFA as soon as may be practicable after any such declaration. The Trustee will also publish immediately after such declaration and at least once a month during the period of suspension, a notice in the leading English and Chinese newspapers stating that such declaration has been made.

7.2 Dealing

7.2.1 Dealing Day

In respect of a unitised constituent fund, units will be valued for or issued/redeemed on each dealing day.

Similarly, investment can be made in or monies can be withdrawn from the Manulife MPF Interest Fund on each such dealing day.

7.2.2 Dealing process

To subscribe for units in any constituent fund, the Trustee must receive the following:

- (a) valid instruction meeting the requirements for a Specific Investment Instruction in respect of the units to be subscribed;
- (b) the contribution monies in cleared funds; and
- (c) the remittance statement setting out the details of the contributions made.

The Trustee will normally issue the relevant number of units to the relevant Member within seven Business Days of the receipt of all of the above.

Similarly, redemption requests will normally be effected by the Trustee within 7 business days from the receipt of the proper instructions given by the members.

The Trustee may however in its sole discretion issue to a Member the relevant number of units notwithstanding that the contribution monies have not been received by the Trustee in cleared funds. In such event, if the contribution monies are not received by the Trustee in full and in cleared funds within seven Business Days of the issue of the relevant units, the Trustee may cancel such issue of units and any appreciation and depreciation in the value of the units cancelled shall be absorbed by the relevant constituent fund.

Prior to the issue of the units, the Trustee shall have the discretion to retain such contribution monies (including dividends distributed by the Manulife MPF Retirement Income Fund) in an interest bearing account and any interest generated from the contribution monies (including dividends distributed by the Manulife MPF Retirement Income Fund) shall belong to the Scheme.

Notwithstanding the above, the Trustee may change the dealing methodology described above by giving one month's notice to the Members.

7.2.3 Subscription of units and subscription price

(a) Constituent funds other than the Manulife MPF Interest Fund

Except for the Manulife MPF Interest Fund, the other constituent funds in the Scheme are unitised.

Units in the constituent funds will normally be issued on every dealing day in accordance with the dealing process as described in section 7.2.2 (*Dealing process*).

The price per unit at which units will be issued on a dealing day will be the NAV per unit on that dealing day.

The number of units issued in a constituent fund will be determined by dividing the contribution monies by the issue price of the unit in the relevant constituent fund, and the resulting number will be rounded to the nearest three decimal places or such other number of decimal places as the Trustee may determine and any smaller fractions of a unit to be retained for the benefit of the relevant constituent fund.

No unit in any constituent fund will be issued at a price higher than the issue price of the unit in the constituent fund on the relevant dealing day.

Units may not be issued by the Trustee during any period when the valuation and dealing of the units in the relevant constituent fund is suspended.

No investment can be made in any constituent fund until the conclusion of the first issue of units at the issue price. Units of any constituent fund shall first be issued at HKD10 unless otherwise determined by the Trustee subject to the prior approval of the MPFA before the first issue of such units.

Subject to the approval of the MPFA and the SFC, the Trustee may change the methodology of determining the issue price of the constituent funds by giving one month's prior notice to the Members.

(b) Manulife MPF Interest Fund

Prior to the investment of the contribution monies (including dividends distributed by the Manulife MPF Retirement Income Fund) into the Manulife MPF Interest Fund, the Trustee shall have the discretion to retain such contribution monies (including dividends distributed by the Manulife MPF Retirement Income Fund) in an interest bearing account and any interest generated from the contribution monies shall belong to the Scheme.

7.2.4 Redemptions of units and redemption price

(a) Constituent funds other than the Manulife MPF Stable Fund and the Manulife MPF Interest Fund

Units will be redeemed on a dealing day at a redemption price equal to its NAV. The total redemption monies will be the redemption price multiplied by the number of units redeemed, rounded to the nearest two decimal places or such other number of decimal places as the Trustee may determine.

No unit of any constituent fund other than the Manulife MPF Stable Fund and the Manulife MPF Interest Fund will be redeemed at a price lower than the redemption price per unit of the relevant constituent fund on the relevant dealing day.

Subject to the approval of the MPFA, the Trustee may change the methodology of determining the redemption price of the constituent funds by giving one month's prior notice to the Members.

(b) Manulife MPF Stable Fund

Upon redemption of units of the Stable Fund, Members may either receive an amount as calculated in accordance with section 7.2.4(a) (*Constituent funds other than the Manulife MPF Stable Fund and the Manulife MPF Interest Fund*) or if higher, a "guaranteed" amount, provided that (i) the qualifying condition as set out in section 3.4.2 (*Manulife MPF Stable Fund (the "Stable Fund")*) is satisfied; and (ii) the redemption is effected as a result of a pre-determined events (as set out in section 3.4.2(b) (*Balance of investments*)) or in the event of terminal illness.

Upon the occurrence of a pre-determined event or in the event of terminal illness, the higher of the value in the “actual” and “guaranteed” accounts with respect to the relevant account/sub-account will be payable to the Member.

Partial redemption from the Manulife MPF Stable Fund is allowed, in which case, any non-qualifying units will be redeemed before qualifying units.

In the event of withdrawal on the ground of terminal illness, account balance in the “guaranteed” account of the Member with respect to the relevant account/sub-account withdrawn shall be reset to zero after the redemption. If a Member remains in the continuous employment of his participating employer (in the case of an employee member) or self-employment (in the case of a self-employed person), he and his participating employer (in the case of an employee member) shall continue to make contributions in accordance with the governing rules of the Scheme. If any of such contributions is invested in the Manulife MPF Stable Fund, new qualifying units shall be issued if the qualifying condition is met at the time of issue.

The guarantee only applies to Members who redeem upon the occurrence of any of the pre-determined events or on the ground of terminal illness and the contributions to which the redemption is related satisfy the qualifying conditions when they are invested into this Manulife MPF Stable Fund. The guarantee does not apply to “non-qualifying units”. Redemption effected other than the occurrence of a pre-determined event or on the ground of terminal illness is fully exposed to fluctuations in the value of the Manulife MPF Stable Fund’s assets. The guarantee will be provided once and only in a lump sum at the time of redemption which is effected as a result of a pre-determined event.

The redemption proceeds for any non-qualifying units will be equal to an amount calculated in accordance with section 7.2.4(a) (*Constituent funds other than the Manulife MPF Stable Fund and the Manulife MPF Interest Fund*).

(A) Redemption as a result of a pre-determined event or on the ground of terminal illness

If the redemption is effected as a result of a pre-determined event or on the ground of terminal illness, the redemption proceeds will be equal to:

- (i) the greater of the value of all qualifying units calculated in accordance with section 7.2.4(a) (*Constituent funds other than the Manulife MPF Stable Fund and the Manulife MPF Interest Fund*) and the balance in the “guaranteed” account, with respect to the member’s relevant account/sub-account; plus
- (ii) the total value of all other units (if any), being non-qualifying units, calculated in accordance with section 7.2.4(a) (*Constituent funds other than the Manulife MPF Stable Fund and the Manulife MPF Interest Fund*), with respect to the member’s relevant account/sub-account.

(B) Redemption in the context of withdrawal by instalments

Upon the first withdrawal of accrued benefits from the Stable Fund by instalments as a result of the pre-determined event that the Member attains his normal retirement age of 65, the following shall apply:

- (i) the guarantee will be determined and provided (if any) to all sub-accounts under the Member’s contribution account, personal account or TVC account (as the case may be) as if a lump sum withdrawal is taken place, and the guarantee will be calculated in accordance with (A) (i) above;
- (ii) in determining the guarantee under step (i), where the balance in the “guaranteed” account is greater than the value of all qualifying units calculated in accordance with section 7.2.4(a) above, the Member is entitled to the balance in the “guaranteed” account and thus the amount in excess will be allocated to the Member’s relevant account/sub-account to acquire non-qualifying units; however, where the balance in the “guaranteed” account is equal to or less than the value of all qualifying units, the Member is entitled to the value of all qualifying units and thus no excess amount to be allocated;
- (iii) all qualifying units in all sub-accounts of the Member’s contribution account, personal account or TVC account after step (ii) will be converted into non-qualifying units so that such account will only contain non-qualifying units;

- (iv) the appropriate portion of the non-qualifying units will be redeemed for the purpose of the first instalment payment;
- (v) the “guaranteed” account will be cancelled. Thereafter if there are any contributions or monies made to the Stable Fund, non-qualifying units will be acquired; no further guarantee will be available from the Stable Fund in respect of such contribution account, personal account or TVC account being claimed by the Member. The Member's entitlement in the Stable Fund will be calculated in accordance with section 7.2.4(a) above.

While deduction from the asset value of the insurance policy corresponding to the Stable Fund for the purpose of guarantee provision shall continue, there will be an arrangement to refund the guarantee provision on a monthly basis in arrears to the Member's relevant account/sub-account in which the guarantee has been provided as a result of the first withdrawal of accrued benefits by instalments and no further guarantee will be available. The amount of refund will be calculated at each month end, based on the monthly average value of the units of the Stable Fund (i.e. the average of the month start value and month end value of the units of the Stable Fund held in the Member's account) multiplied by the current level of guarantee provision divided by 12. The refund for each month will be made to the Member in the following month either through crediting the Member's relevant account/sub-account to acquire non-qualifying units of the Stable Fund or in such other manner as the Trustee considers appropriate.

Subject to the approval of the MPFA, the Trustee may change the methodology of determining the redemption price of the Manulife MPF Stable Fund by giving one month's prior notice to the Members.

The Manulife MPF Stable Fund in this Scheme invests in an insurance policy which includes a guarantee. The insurance policy is issued by the insurer, Manulife (International) Limited.

For any qualifying units, if the redemption by a Member in respect of a sub-scheme is not effected upon the occurrence of a pre-determined event or on the ground of terminal illness, the redemption proceeds will be equal to the amount calculated in accordance with section 7.2.4(a) (*Constituent funds other than the Manulife MPF Stable Fund and the Manulife MPF Interest Fund*). To the extent that qualifying units acquired with irregular contributions (i.e. any contributions (which can fulfil the qualifying condition) received from another registered scheme or transferred from another constituent fund and invested in the Manulife MPF Stable Fund) are purchased to replace previously redeemed qualifying units in respect of the relevant sub-scheme by the Member, the Trustee has the right to reduce any resulting increase in the guaranteed account of a Member in respect of the relevant sub-scheme to the level of the guarantee that would have applied had the redemption of units and subsequent repurchase not have occurred.

Partially redeeming or switching units out of the Manulife MPF Stable Fund would therefore have an impact on (i) the guarantee balance of the Member, and (ii) any increase in the guarantee balance due to any subsequent irregular contributions made. Members shall refer to the illustrative example of partial redemption rule in Appendix B and consider the impact before switching or redeeming.

(c) *Manulife MPF Interest Fund*

When a Member makes full withdrawal from the Manulife MPF Interest Fund before the end of a month, the interest that will be credited to such monies for the partial month will be calculated at the withdrawal day using a rate as determined by the Trustee at its sole discretion at the recommendation of Manulife (International) Limited based on the rate declared for the previous month and being adjusted for any economic and/or market movements.

The interest rate declared since December 1, 2000, the commencement date, can be found in **Appendix C**.

In order to provide the capital guarantee and return under the Manulife MPF Interest Fund, Manulife (International) Limited may, in its sole discretion, retain and set aside as a smoothing provision, income of the Manulife MPF Interest Fund in any month which is in excess of what is required to provide the capital guarantee and declared return during that month.

The amount of smoothing provision will be determined based on a number of factors including the economic outlook, portfolio mix and performance of the Manulife MPF Interest Fund, maturity period of its underlying portfolio and the duration of liabilities which may be incurred by the Manulife MPF Interest Fund.

Smoothing provision of the month will be equal to gross return of the underlying insurance policy based APIF, of the month minus the sum of interest credited to the Members at month end based on declared rate of return, interest paid out to withdrawal Members during the month, and all other fees and charges as defined in this MPF Scheme Brochure. Any negative amount as a result of the above calculation will be released from the reserve account of the underlying insurance policy based APIF as long as the reserve can fulfil the regulatory requirements. Provision will be made by Manulife (International) Limited to make good the shortfall over the term of the Scheme if assets of the Manulife MPF Interest Fund prove inadequate, so that the reserve shall not fall below zero and that the Member's accrued benefits shall not be affected. For the avoidance of doubt, any such provision will not impose any liability on the Manulife MPF Interest Fund for the purpose of calculating the NAV of the Manulife MPF Interest Fund save that Manulife (International) Limited shall have the right at anytime to withdraw the said provision, either in part or wholly, plus interest on the said provision at declared rates of return, from the assets of the Manulife MPF Interest Fund if (i) the assets value of the Manulife MPF Interest Fund exceeds the required reserve; and (ii) any such withdrawal will not render the assets value of the Manulife MPF Interest Fund being less than the required reserve.

Subject to the approval of the MPFA and the SFC, the Trustee may change or cancel any guarantee features in respect of the Manulife MPF Stable Fund or Manulife MPF Interest Fund by giving a three months' prior notice to the Members. Such changes, however, will not affect any guaranteed entitlement accrued prior to the effective date of change and the guaranteed entitlement will be calculated based on the "pre-change" provisions up to the day before the effective date.

7.2.5 Limit on redemption

The Trustee may limit redemption of a constituent fund to 10% of its NAV. This limitation will be applied pro rata to all redemption requests to be effected on such dealing day. Requests not redeemed will be applied to the next dealing day subject to the same 10% limitation.

7.3 Reports and notices to Member

The financial year end of the Scheme is March 31. The Trustee will provide to each Member an annual benefit statement within three months of the financial year end, which will provide the Member with the following information:

- (a) the total contributions paid to the Scheme during the financial year specifying any unpaid contributions;
- (b) the value of the accrued benefits as at the beginning and the end of the financial period;
- (c) if the Member is:
 - (i) a self-employed person, the total contributions made by the Member;
 - (ii) an employee member, the total contributions made by the participating employer;
 - (iii) an individual relevant employee, the total Flexi Retirement Contribution made by the Member; and
 - (iv) a TVC account member, the total TVC made by the Member;
- (d) particulars of any amount transferred to or from the Scheme during the financial period;
- (e) if voluntary contributions are made by the Member, the amount of mandatory and voluntary contributions made and the accrued benefits derived from each type of the contributions;
- (f) particulars of any amount withdrawn from the Scheme during the financial period.

Members may also request a copy of the consolidated reports of the Scheme for any specified financial year within the seven years preceding the date of request.

In addition, to facilitate the tax return filing by TVC account members, the Trustee will provide a TVC summary to each TVC account member if TVC is made by the Member to the Scheme during a year of assessment. Such summary will be made available on or around May 10 after the end of a relevant year of assessment (i.e. before the end of a period of 40 days from the beginning of the next tax assessment year commencing on April 1.

A document that illustrates the on-going costs on contributions to constituent funds in the Scheme (except for the Manulife MPF Conservative Fund) will be distributed with this MPF Scheme Brochure. An illustrative example of fees of the Manulife MPF Conservative Fund is currently available for distribution with this MPF Scheme Brochure. Before making any investment decisions concerning MPF investments, you should ensure that you have the latest version of these documents which can be obtained from our website www.manulife.com.hk or call our customer service representative.

The Trustee shall provide the employers and Members participating in the Scheme with statements of accounts that include periodic statements and other information in relation to the respective sub-scheme and Member account, such as member benefit statement, employer monthly package, confirmation of Specific Investment Instructions and confirmation of transfer of fund accumulations, etc. Such statements of accounts may also be provided upon the request of a participating employer or a Member. A participating employer and/or Member is advised to examine and verify the correctness of each statement of account received and to notify the Trustee immediately in writing, if any entry/information is inaccurate or different from his own record or intention.

Any notice or document required to be given to the Member of the Scheme for the purposes of the MPF Ordinance, the Trust Deed, or the participation agreement, may be delivered by hand or sent by prepaid post (airmail if overseas). It could also be sent by facsimile (at the recipient's facsimile number last known to the sender), electronic mail (at the recipient's electronic mail address last known to the sender) or other means of communication specified by the Member, at the sole discretion of the Trustee, provided that the recipient has given prior consent to being given the notice or document by such means in the manner prescribed under the General Regulation. Any notice or document required to be so given may also be given by means of:

- (a) a website or by other electronic means if the Member has given prior consent and had been notified of its availability in the manner prescribed under the General Regulation; or
- (b) an electronic system designated by the MPFA in accordance with the requirements under the MPF Ordinance.

Notwithstanding the above, such notices or documents shall in the case of an employee member be deemed to have been duly given when appropriate details of the notices and/or documents have been given to the participating employer of such employee member and such participating employer has been advised to pass such notices to the relevant employee member.

7.4 Publication of NAV and prices

The issue price and the redemption price (or the unit price) for each unitised constituent fund will be published on each dealing day in a leading English and Chinese newspaper.

7.5 Information on performance of constituent funds

The fund performance and actual fund expense ratio of the Manulife MPF Core Accumulation Fund and the Manulife MPF Age 65 Plus Fund and all other constituent funds of the Scheme will be published in the fund fact sheets and one of the fund fact sheets will be provided to Members with it attached to the annual benefit statement. Members can also visit our website at www.manulife.com.hk or call (+852) 2108 1388 (Member Hotline) for information. Members may also obtain the fund performance information and the definition of the fund expense ratio at the website of the MPFA (www.mpfa.org.hk).

The fund performance is calculated in HKD on NAV-to-NAV basis. Past performance is not indicative of future performance. There is no assurance that investment returns and Members' accrued benefits may not suffer significant loss. Members should regularly review the performance of the constituent funds and consider whether the investments still suit their personal needs and circumstances.

7.6 Documents for inspection

Members of the Scheme are advised to review the terms of the Trust Deed. If there is any conflict between this MPF Scheme Brochure and the Trust Deed, the provisions of the Trust Deed will prevail. Copies of the Trust Deed may be obtained from the Trustee at a cost of HKD1,000 per copy or may be inspected free of charge during normal working hours at the office of the Trustee.

7.7 Modification of the Trust Deed and this MPF Scheme Brochure

Subject to the prior approval of the relevant authorities and the provisions in the Trust Deed, the Trustee may modify the Trust Deed and this MPF Scheme Brochure, provided that no such modification may change the main purpose of the trust to be other than the provision of retirement and other benefits for employees of employers, self-employed persons, individual relevant employees, personal account members and other eligible persons.

To the extent required by the General Regulation or any other appropriate legislation, a modification to the Trust Deed or this MPF Scheme Brochure will not take effect until the MPFA and, if necessary, the SFC, have approved the modification and any requisite period of notice has been given to Members of the Scheme.

7.8 Duration

The Scheme may be wound up only by the court on application made by the MPFA in accordance with the MPF Ordinance.

The winding up of the Scheme will be conducted in accordance with the winding up rules provided in the MPF Ordinance.

7.9 Hong Kong taxation

The following notes are intended as general information only and are not intended to be and do not necessarily describe the tax consequences for all types of Members under this Scheme.

MEMBERS INTENDING TO PARTICIPATE UNDER THIS SCHEME SHOULD SEEK INDEPENDENT PROFESSIONAL TAX ADVICE.

- (a) Employers can generally claim their regular mandatory and voluntary contributions as a deduction from its assessable profits for profits tax purpose to the extent not exceeding 15% of the total emoluments of the relevant employee.
- (b) Employees can claim their mandatory contributions as a deduction from their assessable income for salaries tax purpose, subject to the maximum limit as specified in the Inland Revenue Ordinance.
- (c) Self-employed persons can claim their mandatory contributions as a deduction from their assessable profits for profits tax purpose, subject to the maximum limit as specified in the Inland Revenue Ordinance.
- (d) Benefits derived from mandatory contributions are tax exempt. Benefits derived from voluntary contributions made by employers may be subject to tax, depending on when and how they are paid.
- (e) TVC account members will be able to deduct the TVC paid into their TVC account, subject to a maximum deduction per year as specified in the Inland Revenue Ordinance and, in the year of assessment 2019/2020, is HKD60,000. It should be noted that such tax concession amount is an aggregate limit for both TVC and other qualifying annuity premiums rather than TVC only; and any claim for tax deductions will be applied to TVC before qualifying annuity premiums.

7.10 Use of standard forms

Employers and Members participating in the Scheme are advised to use standard forms as prescribed by the Trustee and/or in a format approved/prescribed by the MPFA from time to time for giving instructions to the Trustee in relation to various functions and/or activities, such as employee enrolment form, notice of employee termination, contribution investment instruction/fund switching instruction and remittance statement, etc. Member may call (+852) 2108 1388 (Member Hotline) to obtain the standard forms prescribed by the Trustee.

7.11 Automatic exchange of financial account information

Financial institutions in Hong Kong and many other jurisdictions are required to identify account holders who are reportable foreign tax residents under the laws, regulations and international agreements for the implementation of automatic exchange of financial account information (“**AEOI**”), and report the information of account holders and controlling persons of certain entity account holders (each, a “**controlling person**”) (including but not limited to their names, addresses, dates of birth, places of birth/incorporation, jurisdiction(s) of tax residence, tax identification number(s) in the relevant jurisdiction(s) and account information (including but not limited to their account balance, income, and payments to the account holders) (collectively, the “**Reportable Information**”) to the local tax authority where the financial institutions operate. The local tax authority, in respect of a reportable foreign tax resident, will provide the Reportable Information of the reportable foreign tax resident to the tax authority(ies) of another country(ies) and jurisdiction(s) of tax residence of the reportable foreign tax resident on a regular, annual basis. If you are not a tax resident in any jurisdiction outside Hong Kong, your MPF account information will not be reported to the Inland Revenue Department (the “**IRD**”) for transmission to any tax authority outside Hong Kong.

With effect from January 1, 2020, the Scheme is a Hong Kong financial institution for AEOI purposes. As required under AEOI of Hong Kong, the Trustee will use for the purposes of AEOI the Reportable Information of any individual or entity, whether in the capacity as a Member, participating employer or beneficiary, that is considered under AEOI to be an “account holder” or “controlling person” of an “account holder” (where applicable). The Reportable Information may be transmitted to the **IRD** or any other relevant domestic or foreign tax authority for transfer to the tax authority of another jurisdiction.

The Trustee may, to the extent not prohibited by applicable law including AEOL, engage, employ or authorise any individual or entity (including but not limited to third-party service providers, the Trustee's affiliates, subsidiaries, associated entities, and any of their branches and offices) (each, for purposes of this section, an **"authorised person"**) to assist the Scheme with the fulfilment of its obligations under AEOL, and to act on the Scheme's behalf in relation to its obligations under AEOL. The Trustee and its authorised persons may share with each other any information of any "account holder" or "controlling person" of an "account holder" (where applicable) of the Scheme.

The Trustee and/or any of its authorised person(s) may require any "account holder" under AEOL to provide a valid self-certification form and such other information (including the Reportable Information and any documentary evidence) which the Trustee and/or any of its authorised person(s) may require from time to time for the implementation of AEOL (collectively, the **"Required Information"**). In addition, where the "account holder" is an entity, the Trustee and/or its authorised person(s) may require the Required Information of its "controlling person(s)".

Where required by AEOL and to the extent not prohibited by applicable law, the Trustee will not accept any applicant to the Scheme or make any payment to any "account holder" (whether in the capacity of a Member, a participating employer or a beneficiary) before receiving the Required Information. "Account holders" and "controlling persons" must update the Trustee and/or any of its authorised person(s) about any changes in the information they have previously provided to the Trustee and/or any of its authorised person(s) as soon as practicable and ideally within 30 days of such change. If the Trustee and/or any of its authorised person(s) do not receive the Required Information in respect of an "account holder" or a "controlling person", the Trustee and/or any of its authorised person(s) may be required to report such person based on the information they have.

If in doubt, Members, participating employers, beneficiaries and any other "account holders" and "controlling persons" should consult their own tax and legal advisers regarding the possible implications of AEOL on their participation and holding interests in the Scheme and the information that may be required to be provided and disclosed to the Trustee and/or any of its authorised person(s), and where applicable, to the IRD and other tax authorities. The application of the AEOL rules and the information that may be required to be reported and disclosed are subject to change. Please see the IRD website (https://www.ird.gov.hk/eng/tax/dta_aeol.htm) for more information about AEOL in Hong Kong. Any discussion of tax considerations herein is not intended or written to be tax advice to any person and is not intended or written to be used, and cannot be used, by any person for the purpose of avoiding any domestic or foreign tax penalties that may be imposed on such person.

8. Glossary

“A65F Reference Portfolio”	means the reference portfolio with respect to the Manulife MPF Age 65 Plus Fund that is a composite benchmark with attribution to the underlying indices and the composition is as follows: 20% FTSE MPF All-World Index (HKD unhedged total return) + 77% FTSE MPF World Government Bond Index (HKD hedged total return) + 3% cash or money market instruments providing a return at MPF Prescribed Savings Rate (HKD unhedged total return).
“APIF(s)”	means (a) collective investment scheme(s) in the form of an insurance policy or a trust, approved by the MPFA pursuant to the MPF Ordinance for investment by registered schemes.
“Business Day”	means a day, other than a Saturday or Sunday, on which banks are open for business in Hong Kong.
“CAF Reference Portfolio”	means the reference portfolio with respect to the Manulife MPF Core Accumulation Fund that is a composite benchmark with attribution to the underlying indices and the composition is as follows: 60% FTSE MPF All-World Index (HKD unhedged total return) + 37% FTSE MPF World Government Bond Index (HKD hedged total return) + 3% cash or money market instruments providing a return at MPF Prescribed Savings Rate (HKD unhedged total return).
“China A-Shares”	means shares of companies listed in mainland China.
“constituent fund(s)”	means each and every constituent fund provided under section 3.2 (<i>Table for constituent funds</i>).
“contribution account”	has the same meaning given to it in the General Regulation.
“contribution day”	has the same meaning given to it in the General Regulation.
“contribution investment instruction”	means in respect of a Member, an instruction in a form specified by the Trustee setting out how contributions made by and on behalf of the Member are to be invested. For the purposes of this MPF Scheme Brochure, each reference to “contribution investment instruction” means a contribution investment instruction meeting the requirements for a Specific Investment Instruction, unless otherwise specified.
“contribution period”	means each period during which income is paid to each employee member.
“dealing day”	means any day on which the banks in Hong Kong are open for business (excluding Saturdays) or such other day as the Trustee may from time to time determine.
“Default Investment Strategy” or “DIS”	means the default investment strategy that complies with part 2 of Schedule 10 to the MPF Ordinance.
“DIS CF(s)”	means each of the Manulife MPF Core Accumulation Fund and the Manulife MPF Age 65 Plus Fund.
“employee member”	means any employee of a participating employer who has applied to become a Member in such manner as the Trustee may reasonably require.
“employer sponsored scheme”	has the same meaning given to it in the MPF Ordinance.
“financial year”	means the financial year of the Scheme from time to time from April 1 to March 31.
“Flexi Retirement Contribution”	is a contribution which can be made by an individual relevant employee.

“fund switching instruction”	means in respect of a Member, an instruction to switch investments of accrued benefits of the Member. For the purposes of this MPF Scheme Brochure, each reference to “fund switching instruction” means a fund switching instruction meeting the requirements for a Specific Investment Instruction, unless otherwise specified.
“General Regulation”	means the Mandatory Provident Fund Schemes (General) Regulations (Cap. 485A of the laws of Hong Kong).
“Glide Path”	means the pre-determined “glide path” shown in the illustrative glide path chart in section 3.5 (<i>Glide Path for Retirement Funds</i>).
“Guaranteed Funds”	means the Manulife MPF Interest Fund and the Manulife MPF Stable Fund.
“higher risk assets”	has its meaning given in the MPF Ordinance, including without limitation shares (such as global equities), warrants, financial futures contracts and financial option contracts (that are used other than for hedging purposes) and ITCISs.
“HKD”	means Hong Kong dollars.
“Hong Kong”	means the Hong Kong Special Administrative Region of the People’s Republic of China.
“individual relevant employee”	means a relevant employee whose employer may or may not have a sub-scheme under the Scheme.
“individual relevant employee member”	means any individual relevant employee who has joined the Scheme in such manner as the Trustee may reasonably require.
“industry scheme”	has the same meaning given to it in the MPF Ordinance.
“investment manager”	means an investment manager at the underlying APIF level, whether at the first or second level.
“ITCIS”	means an index-tracking collective investment scheme, as defined in section 1(1) of Schedule 1 to the General Regulation, approved by the MPFA for the purposes of section 6A of Schedule 1 to the General Regulation.
“lower risk assets”	means those assets not being higher risk assets, including without limitation global bonds and money market instruments.
“master trust scheme”	has the same meaning given to it in the MPF Ordinance.
“Member”	means a person admitted to and continuing in membership of the Scheme in accordance with the Trust Deed including employee member, individual relevant employee, self-employed person, personal account member and TVC account member and includes any person participating in the Scheme in one or more of the above capacities.
“minimum MPF benefit”	has the same meaning given to it in Schedule 2 to the Mandatory Provident Fund Schemes (Exemption) Regulation.
“MPF Scheme Brochure”	means this MPF Scheme Brochure, i.e. the offering document, of the Scheme as amended from time to time.
“MPFA”	means the Mandatory Provident Fund Schemes Authority.
“MPF Ordinance”	means the Mandatory Provident Fund Schemes Ordinance (Cap. 485 of the laws of Hong Kong).
“NAV”	means net asset value.
“normal retirement age”	means 65 years old.
“ORSO”	means Occupational Retirement Schemes Ordinance (Cap. 426 of the laws of Hong Kong).
“ORSO scheme”	means the occupational retirement schemes as defined under ORSO.

“participating employer”	means any employer admitted to participate in the Scheme in accordance with the Trust Deed.
“personal account”	has the same meaning given to it in the General Regulation.
“personal account member”	means a Member with a personal account held in the Scheme.
“prescribed savings rate”	means, for any month, the rate prescribed by the MPFA for the purposes of section 37(8) of the General Regulation.
“Reference Portfolio”	means each of the CAF Reference Portfolio and the A65F Reference Portfolio, which are the MPF industry developed reference portfolios and published by the Hong Kong Investment Funds Association for the purpose of providing a common reference point for performance and asset allocation of the DIS CFs.
“relevant employee”	has the same meaning given to it in the MPF Ordinance.
“Retirement Funds”	means: <ul style="list-style-type: none"> • the Manulife MPF Smart Retirement Fund; • the Manulife MPF 2025 Retirement Fund; • the Manulife MPF 2030 Retirement Fund; • the Manulife MPF 2035 Retirement Fund; • the Manulife MPF 2040 Retirement Fund; and • the Manulife MPF 2045 Retirement Fund.
“RMB”	means Renminbi.
“Scheme”	means the Manulife Global Select (MPF) Scheme.
“self-employed person”	means a Member who is self-employed and has joined the Scheme in such manner as the Trustee may reasonably require.
“SFC”	means the Securities and Futures Commission.
“Specific Investment Instruction”	is either a contribution investment instruction or a fund switching instruction meeting the requirements imposed by the Trustee from time to time.
“Sponsor”	means Manulife (International) Limited.
“Trustee”	means Manulife Provident Funds Trust Company Limited.
“Trust Deed”	means a master trust deed constituting the Scheme, as amended from time to time.
“TVC”	means tax deductible voluntary contributions.
“TVC account member”	means a Member with a TVC account held in the Scheme.
“US”	means the United States of America.

Information about Hang Seng Index

As of May 2019, the Hang Seng Index comprises 50 constituent stocks representing approximately 56.1% of the total market value of all main board primary listings. The top 10 constituent stocks of the Hang Seng Index are as follows:

Code	Company Name	Weighting (%)
5	HSBC Holdings plc	10.71%
1299	AIA Group Ltd.	9.93%
700	Tencent Holdings Ltd.	9.71%
939	China Construction Bank Corporation	7.48%
2318	Ping An Insurance (Group) Co. of China, Ltd.	5.40%
941	China Mobile Ltd.	4.69%
1398	Industrial and Commercial Bank of China Ltd.	4.61%
388	Hong Kong Exchanges and Clearing Ltd.	3.31%
3988	Bank of China Ltd.	2.88%
883	CNOOC Limited	2.55%

The Hang Seng Index is published and compiled by Hang Seng Indexes Company Limited pursuant to a licence from Hang Seng Data Services Limited. INACCURACIES, OMISSIONS, MISTAKES OR ERRORS OF HANG SENG INDEXES COMPANY LIMITED IN THE COMPUTATION OF THE HANG SENG INDEX; OR (iii) FOR ANY INACCURACIES, OMISSIONS, MISTAKES, ERRORS OR INCOMPLETENESS OF ANY INFORMATION USED IN CONNECTION WITH THE COMPUTATION OF THE HANG SENG INDEX WHICH IS SUPPLIED BY ANY OTHER PERSON; OR (iv) FOR ANY ECONOMIC OR OTHER LOSS WHICH MAY BE DIRECTLY OR INDIRECTLY SUSTAINED BY ANY BROKER OR HOLDER OF THE HANG SENG INDEX TRACKING FUND OR ANY OTHER PERSON DEALING WITH THE HANG SENG INDEX TRACKING FUND AS A RESULT OF ANY OF THE ABOVE, AND NO CLAIMS, ACTIONS OR LEGAL PROCEEDINGS MAY BE BROUGHT AGAINST HANG SENG INDEXES COMPANY LIMITED AND/OR HANG SENG DATA SERVICES LIMITED in connection with the Hang Seng Index Tracking Fund in any manner whatsoever by any broker, holder or other person dealing with the Hang Seng Index Tracking Fund. Any broker, holder or other person dealing with the Hang Seng Index Tracking Fund does so therefore in full knowledge of this disclaimer and can place no reliance whatsoever on Hang Seng Indexes Company Limited and Hang Seng Data Services Limited. For the avoidance of doubt, this disclaimer does not create any contractual or quasi-contractual relationship between any broker, holder or other person and Hang Seng Indexes Company Limited and/or Hang Seng Data Services Limited and must not be construed to have created such relationship.

Members investing in the Hang Seng Index Tracking Fund will be regarded as having acknowledged, understood and accepted the disclaimer above and will be bound by it. The level of the Hang Seng Index at any time for the purposes of the Hang Seng Index Tracking Fund will be the level as calculated by Hang Seng Indexes Company Limited in its sole discretion.

The accuracy and completeness of the calculation of the Hang Seng Index may be affected if there is any problem with the system for the computation and/or compilation of the Hang Seng Index.

There is no assurance that the licence granted to the Trustee for the use of, and reference to, the Hang Seng Index, will be granted for the operation of the Hang Seng Index Tracking Fund for as long as the Trustee deems necessary, and in the event that the licence is terminated and that no appropriate substitute can be obtained, the Hang Seng Index Tracking Fund may have to be terminated. The Hang Seng Indexes Company Limited and the Hang Seng Data Services Limited are independent of and not associated with both the investment manager of the underlying APIF and the Trustee of the Scheme.

Manulife MPF Stable Fund - Illustrative example of partial redemption rule and withdrawals

Transactions:

Day 1: Member contributes \$3,000 at a unit price of \$10. 300 units are purchased.

Day 10: Member redeems 100 units at a unit price of \$12.

SCENARIO 1

Transactions:

Day 25: **Member switches in \$900** from another fund to Manulife MPF Stable Fund at a unit price of \$10.

	Day 1	Day 10	Day 25
No. of qualifying units held	300	200	290
Member account balance ***	\$3,000	\$2,400	\$2,900
Guarantee account balance	\$3,000	\$2,000	\$2,750

Remarks:

- **Day 10**

Cumulative actual amount redeemed = $100 \times \$12 = \$1,200$ Cumulative guarantee amount redeemed = $\$3,000 \times 100/300 = \$1,000$ Guarantee account balance = $\$3,000 - \$1,000 = \$2,000$

- **Day 25**

Guarantee account balance = $\$2,000 + (\$900 \times \$1,000/\$1,200) = \$2,750$ **SCENARIO 2**

Transactions:

Day 25: **Member switches in \$1,200** from another fund to Manulife MPF Stable Fund at a unit price of \$10.

	Day 1	Day 10	Day 25
No. of qualifying units held	300	200	320
Member account balance ***	\$3,000	\$2,400	\$3,200
Guarantee account balance	\$3,000	\$2,000	\$3,000

Remarks:

- **Day 25**

Guarantee account balance = $\$2,000 + (\$1,200 \times \$1,000/\$1,200) = \$3,000$

SCENARIO 3

Transactions:

Day 25: **Member switches in \$1,500** from another fund to Manulife MPF Stable Fund at a unit price of \$10.

	Day 1	Day 10	Day 25
No. of qualifying units held	300	200	350
Member account balance ***	\$3,000	\$2,400	\$3,500
Guarantee account balance	\$3,000	\$2,000	\$3,300

Remarks:

- **Day 25**
 Guarantee account balance = \$2,000 + (\$1,200 x \$1,000/\$1,200) + (\$1,500 - \$1,200)
 = \$3,300

In Scenario 3 of our illustrative example, only part of the full switch-in amount is subject to a scale down. This is because if the switch-in amount is larger than \$1,200, the scale down will only apply to the \$1,200 that was switched out previously. The rest of the switch-in amount in excess of \$1,200 are new monies contributing to the fund and therefore will be included in the guarantee account balance. The total switch-in of \$1,500 in the Illustrative Example Scenario 3 is split into two portions for calculation purpose, i.e. \$1,200 is subject to the scale down and (\$1,500-\$1,200)=\$300 is added to guarantee account balance.

SCENARIO 4 (TERMINAL ILLNESS)

Transactions:

Day 1: Employee member contributes \$3,000 at a unit price of \$10. 300 units are purchased with 120 units held in the mandatory contribution (MC) sub-accounts and 180 units held in the voluntary contribution (VC) sub-accounts.

Day 20: Employee member who is under employment withdraws on the ground of terminal illness. All units in MC sub-accounts are redeemed at a unit price of \$8.

Day 30: Employee member dies. All the remaining units in Member's account are redeemed at a unit price of \$9.

	Day 1	Day 20	Day 30
No. of qualifying units held	300	180	0
Units held in MC sub-accounts	120	0	0
Units held in VC sub-accounts	180	180	0
Member account balance ***	\$3,000	\$1,440	\$0
Total account balance of MC sub-accounts	\$1,200	\$0	\$0
Total account balance of VC sub-accounts	\$1,800	\$1,440	\$0
Guarantee account balance	\$3,000	\$1,800	N/A
Total guarantee account balance of MC sub-accounts	\$1,200	\$0	N/A
Total guarantee account balance of VC sub-accounts	\$1,800	\$1,800	N/A

Remarks:

- **Day 20**

As the employee member is still under employment, the withdrawal in his contribution account will be only applicable to the MC sub-accounts. The withdrawal amount will be the greater of the value of qualifying units held in the MC sub-accounts or the total guarantee account balance of the MC sub-accounts, i.e. \$1,200.

(1) The value of qualifying units held in the MC sub-accounts = $120 \times \$8 = \960

(2) Total guarantee account balance of the MC sub-accounts = \$1,200

The withdrawal amount = Greater of (1) or (2) = \$1,200

- **Day 30**

As no contributions are made after Day 20, no units are issued in the MC sub-accounts. The withdrawal amount will be greater of the value of qualifying units held in the VC sub-accounts or the total guarantee account balance of the VC sub-accounts, i.e. \$1,800.

(1) The value of qualifying units held in the VC sub-accounts = $180 \times \$9 = \$1,620$

(2) The total guarantee account balance of the VC sub-accounts = \$1,800

The withdrawal amount = Greater of (1) or (2) = \$1,800

SCENARIO 5A (WITHDRAWAL BY INSTALMENTS) *Applicable before June 1, 2020*

Transactions:

Day 1 : Member contributes \$3,000 at a unit price of \$10. 300 units are purchased.

Day 30 : When reaching the normal retirement age of 65, Member makes the first withdrawal by instalments in which \$1,200 is required to be withdrawn from the Manulife MPF Stable Fund. Units are redeemed at a unit price of \$9.

	Day 1	Day 30
Stable Fund		
No. of qualifying units held	300	0
Member account balance ***	\$3,000	\$0
Guarantee account balance	\$3,000	N/A
Interest Fund		
Member account balance	\$0	\$1,800

Remarks:

- **Day 30**

In the Manulife MPF Stable Fund, the guarantee will be determined and provided in the same manner to the Member as if he is claiming for payment of accrued benefits in a lump sum. The redemption amount will be the greater of: (i) the value of qualifying units held in account, and (ii) the total guarantee account balance, i.e. \$3,000.

(1) The value of qualifying units held in the account = $300 \times \$9 = \$2,700$

(2) The total guarantee account balance of the account = \$3,000

The redeemed amount in the Manulife MPF Stable Fund = Greater of (1) and (2) = \$3,000

After deducting the portion for fulfilling the first instalment payment of \$1,200, the remaining redemption amount of \$1,800 ($=\$3,000-\$1,200$) will be invested in the Interest Fund which provides a capital guarantee. The “guaranteed” account will then be cancelled and no further guarantee will be available from the Manulife MPF Stable Fund.

*** Member account balance = No. of qualifying units held x unit price

SCENARIO 5B (WITHDRAWAL BY INSTALMENTS) *Applicable on or after June 1, 2020*

Transactions:

Day 1 : At the beginning of the month start date, Member has 300 qualifying units in the Stable Fund and unit price is \$10.

Day 30 : When reaching the normal retirement age of 65, Member makes the first withdrawal by instalments in which \$1,350 is required to be withdrawn from the Manulife MPF Stable Fund. Units are redeemed at a unit price of \$9.

Current level of guarantee provision is kept at 0.25% p.a. of NAV.

	Day 1 (Opening Balance of Month Start Date)	Day 30 (Month End Date)		
		Before guarantee adjustment	After guarantee adjustment	After redemption for the first instalment payment
Manulife MPF Stable Fund				
No. of qualifying units held	300	300	0	0
No. of non-qualifying units held	0	0	335	185
Member account balance	\$3,000	\$2,700	\$3,015	\$1,665
Guarantee account balance	\$3,000	\$3,015	N/A	N/A

Remarks:

- **Day 30**

In the Manulife MPF Stable Fund, the guarantee will be determined and provided in the same manner to the Member as if he is claiming for payment of accrued benefits in a lump sum. The guarantee entitlement will be the greater of the value of qualifying units held in account or the total guarantee account balance.

- (1) The value of qualifying units held in the account = $300 \times \$9 = \$2,700$
- (2) The total guarantee account balance of the account = $\$3,015$
- (3) The guarantee entitlement in the Manulife MPF Stable Fund = Greater of (1) or (2) = $\$3,015$
- (4) Excess amount (the amount of (2) is higher than (1)) = $\$3,015 - \$2,700 = \$315$, this amount will be allocated to the Member account to acquire non-qualifying units = $\$315 \div \$9 = 35$ units and at the same time, all qualifying units will be converted to non-qualifying units
- (5) Withdrawal for fulfilling the first instalment payment = $\$1,350 \div \$9 = 150$ units

After redemption of 150 units for the first instalment payment, the remaining member account balance of 185 units will continue to be invested in the Manulife MPF Stable Fund. The “guaranteed” account will then be cancelled and no further guarantee will be available from the Manulife MPF Stable Fund.

- (6) The first refund of guarantee provision is determined by average of month start value and month end value of units of the Stable Fund held in the Member’s account multiplied by the current level of guarantee provision divided by 12.
 Month start value = $\$3,000$ and Month end value = $\$1,665$
 The first refund of guarantee provision = $(\$3,000 + \$1,665) \div 2 \times 0.25\% \div 12 = \0.49

Please note that in case the total guarantee account balance of the account is less than or equal to the value of all qualifying units held in the account, the Member is entitled to the value of all qualifying units and thus no excess amount to be allocated.

- Notes:
1. The above rates declared have already taken into account of the guaranteed prescribed savings rates. Members should note that as at February 1, 2005, the guarantee on prescribed savings rates has been removed although the Manulife MPF Interest Fund still aims to declare a rate that equals to or exceeds the prescribed savings rate.
 2. Past performance is not indicative of future performance

First Addendum to the MPF Scheme Brochure for Manulife Global Select (MPF) Scheme

The MPF Scheme Brochure for the Manulife Global Select (MPF) Scheme dated November 1, 2021 shall not be distributed unless it is accompanied by this First Addendum. This First Addendum should therefore be read in conjunction with the MPF Scheme Brochure and together construed as one document. Unless otherwise specified, the amendments made under this First Addendum will take effect from December 8, 2021 without affecting the meaning of any abbreviation or remarks used in the MPF Scheme Brochure. Members can visit our website at www.manulife.com.hk to obtain a copy of the MPF Scheme Brochure.

1. Section 3.2 (page 7 of the MPF Scheme Brochure)

Starting from the row of “Feeder fund structure into an underlying APIF/ITCIS operated within an umbrella unit trust structure” and the rows below it in the table under section 3.2 shall be deleted entirely and replaced by the following:

“

Name of constituent fund	Investment of the first level pooled investment funds
	Feeder fund structure into an underlying APIF/ITCIS operated within an umbrella unit trust structure
Manulife MPF Fidelity Growth Fund	✓ (currently managed by FIL Investment Management (Hong Kong) Limited)
Manulife MPF Fidelity Stable Growth Fund	✓ (currently managed by FIL Investment Management (Hong Kong) Limited)
Manulife MPF Core Accumulation Fund	✓ (currently managed by Amundi Hong Kong Limited)
Manulife MPF Age 65 Plus Fund	✓ (currently managed by Amundi Hong Kong Limited)

”

2. Section 3.4.22 (page 35 of the MPF Scheme Brochure)

The first paragraph and the table below the first paragraph of sub-section (b) under section 3.4.22 shall be deleted entirely and replaced by the following:

“The CAF invests solely into an APIF (the Manulife Core Accumulation Unit Trust Fund), which, in turn, invests as a feeder fund into an underlying APIF, currently the Amundi Moderate Growth Fund (the “**second level APIF**”).

”

3. Section 3.4.23 (page 37 of the MPF Scheme Brochure)

The first paragraph and the table below the first paragraph of sub-section (b) under section 3.4.23 shall be deleted entirely and replaced by the following:

“The A65F invests solely into an APIF (the Manulife Age 65 Plus Unit Trust Fund), which, in turn, invests as a feeder fund into an underlying APIF, currently the Amundi Income Fund (the **“second level APIF”**”).

4. Section 5.1.1 (pages 65 of the MPF Scheme Brochure)

Footnote ##### under section “(i) Breakdown of management fees” of the Explanatory Notes shall be deleted entirely and replaced by the following:

“##### For the purpose of meeting the legislative requirements on the fee level, the sponsor fee, the trustee and custodian fee and part of the administration fee are currently waived for these two constituent funds. The fee level has already taken into account any refund of fees by Amundi Hong Kong Limited on a daily accrual basis, to the Manulife Core Accumulation Unit Trust Fund and the Manulife Age 65 Plus Unit Trust Fund. This can be part of any similar fees arrangement made with any investment manager or sub-investment manager.”

5. Save as specifically set out above, all other provisions of the MPF Scheme Brochure shall remain unchanged.

Manulife Provident Funds Trust Company Limited

May 13, 2022

Second Addendum to the MPF Scheme Brochure for Manulife Global Select (MPF) Scheme

The MPF Scheme Brochure for the Manulife Global Select (MPF) Scheme dated November 1, 2021 shall not be distributed unless it is accompanied by this Second Addendum. This Second Addendum should therefore be read in conjunction with the MPF Scheme Brochure, as amended by the First Addendum dated November 1, 2021, and together construed as one document. Unless otherwise specified, the amendments made under this Second Addendum will take effect on October 13, 2022 and October 20, 2022 as indicated in this Second Addendum without affecting the meaning of any abbreviation or remarks used in the MPF Scheme Brochure. Members can visit our website at www.manulife.com.hk to obtain a copy of the MPF Scheme Brochure.

The following amendments to the MPF Scheme Brochure will be effected on October 13, 2022:

1. Table of contents (pages 2-3 of the MPF Scheme Brochure)

The table of contents shall be amended by replacing the words “2.3 Investment managers of the first level APIFs” with the words “2.3 Investment manager”.

2. Section 2 (page 5 of the MPF Scheme Brochure)

The following new row shall be inserted into the initial table after the second row starting with “Trustee and Custodian”:

Investment Manager (in relation to the Manulife MPF Conservative Fund)	MIMHK	10/F, Lee Garden One, 33 Hysan Avenue, Causeway Bay, Hong Kong
--	-------	--

3. Section 2.3 (page 5 of the MPF Scheme Brochure)

i. The heading for section 2.3 “Investment managers of the first level APIFs” shall be replaced with “Investment manager”.

ii. The first and second sentence under the first paragraph of section 2.3 shall be replaced with:

“MIMHK manages the Manulife MPF Conservative Fund, the first level pooled investment funds, and the second level umbrella unit trust of the Scheme. MIMHK, a wholly-owned subsidiary of MFC, conducts its global asset management business under the brand name of Manulife Investment Management.”

iii. All references to “Manulife Investment Management (Hong Kong) Limited” in section 2.3 shall be deleted entirely and replaced with “MIMHK”.

4. Section 3.1 (page 6 of the MPF Scheme Brochure)

The header row and the sixth row associated with “Manulife MPF Conservative Fund” in the diagram under section 3.1 shall be replaced with:

Constituent funds	Underlying APIFs
Manulife MPF Conservative Fund	Manulife Conservative Fund

5. Section 3.2 (pages 7-12 of the MPF Scheme Brochure)

Section 3.2 shall be deleted entirely and replaced by the following:

“3.2 Table for constituent funds

The Scheme currently consists of the following constituent funds. The Trustee may at any time establish a new constituent fund, subject to the approval by the MPFA and the SFC.

11.	Manulife MPF North American Equity Fund	N/A**	Investing in a single APIF	Equity Fund – North America	Mainly equities, and up to 30% in bonds, deposits and other investments
12.	Manulife MPF Japan Equity Fund	N/A**	Investing in a single APIF	Equity Fund – Japan	Mainly equities, and up to 30% in bonds, deposits and other investments
13.	Manulife MPF Hong Kong Bond Fund	N/A**	Investing in a single APIF	Bond Fund – Hong Kong	At least 70% in HKD denominated permitted deposits and debt securities, and up to 30% in other investments
14.	Manulife MPF RMB Bond Fund	N/A**	Investing in a single APIF	Bond Fund – China	At least 70% in RMB denominated debt securities, and up to 30% in other RMB or non-RMB denominated investments
15.	Manulife MPF Pacific Asia Bond Fund	N/A**	Investing in a single APIF	Bond Fund – Pacific Asia	Mainly in debt securities issued by any government, central bank, supra-nationals, multilateral international agency or corporate issuers in the Asia Pacific region, and up to 30% in other investments

No.	Name of constituent fund	Investment Manager	Fund structure	Fund descriptor	Investment focus
16.	Manulife MPF International Bond Fund	N/A**	Investing in a single APIF	Bond Fund – Global	Mainly in permitted deposits, debt securities issued by any government, central bank or multilateral international agency, and up to 30% in other investments
17.	Manulife MPF China Value Fund	N/A**	Investing in a single APIF	Equity Fund – Greater China	Mainly in shares of companies covering different sectors of the economy in the Greater China region, and up to 30% in bonds, deposits and other investments
18.	Manulife MPF Healthcare Fund	N/A**	Investing in a single APIF	Equity Fund – Healthcare Sector	Mainly in equity-related investments and equities of companies in health care and related industries and which are listed on any stock exchange, and up to 30% in bonds, deposits and other investments
19.	Manulife MPF Hang Seng Index Tracking Fund	N/A**	Investing in a single APIF	Equity Fund – Hong Kong	Shares of constituent companies of the Hang Seng Index
20.	Manulife MPF Fidelity Growth Fund	N/A**	Investing in a single APIF	Mixed Assets Fund – Global – approximately 90% in equities	Approximately 90% of the second level APIF in global equities
21.	Manulife MPF Fidelity Stable Growth Fund	N/A**	Investing in a single APIF	Mixed Assets Fund – Global – approximately 50% in equities	Approximately 50% of the second level APIF in global equities and 45% in global bonds and remainder of 5% in cash deposits
22.	Manulife MPF Core Accumulation Fund	N/A**	Investing in a single APIF	Mixed Assets Fund – Global – around 60% in higher risk assets and 40% in lower risk assets	Approximately 60% in higher risk assets and remainder in lower risk assets

No.	Name of constituent fund	Investment Manager	Fund structure	Fund descriptor	Investment focus
23.	Manulife MPF Age 65 Plus Fund	N/A**	Investing in a single APIF	Mixed Assets Fund – Global – around 20% in higher risk assets and 80% in lower risk assets	Approximately 20% in higher risk assets and remainder in lower risk assets
24.	Manulife MPF Smart Retirement Fund	N/A**	Investing in a single APIF	Mixed Assets Fund – Global – maximum 65% in equities	Around 40% to 60% in equities and equity-related investments, and remainder in bonds, deposits and other investments
25.	Manulife MPF 2025 Retirement Fund	N/A**	Investing in a single APIF	Mixed Assets Fund – Global – maximum 95% in equities	Initially 75% to 95% in equities and equity-related investments and remainder in bonds, deposits and other investments, and gradually contain more fixed-income securities according to the Glide Path
26.	Manulife MPF 2030 Retirement Fund	N/A**	Investing in a single APIF	Mixed Assets Fund – Global – maximum 95% in equities	Initially 75% to 95% in equities and equity-related investments and remainder in bonds, deposits and other investments, and gradually contain more fixed-income securities according to the Glide Path
27.	Manulife MPF 2035 Retirement Fund	N/A**	Investing in a single APIF	Mixed Assets Fund – Global – maximum 100% in equities	Initially 80% to 100% in equities and equity-related investments and remainder in bonds, deposits and other investments, and gradually contain more fixed-income securities according to the Glide Path

No.	Name of constituent fund	Investment Manager	Fund structure	Fund descriptor	Investment focus
28.	Manulife MPF 2040 Retirement Fund	N/A **	Investing in a single APIF	Mixed Assets Fund – Global – maximum 100% in equities	Initially 80% to 100% in equities and equity-related investments and remainder in bonds, deposits and other investments, and gradually contain more fixed-income securities according to the Glide Path
29.	Manulife MPF 2045 Retirement Fund	N/A **	Investing in a single APIF	Mixed Assets Fund – Global – maximum 100% in equities	Initially 80% to 100% in equities and equity-related investments and remainder in bonds, deposits and other investments, and gradually contain more fixed-income securities according to the Glide Path

** Currently, no investment manager is appointed at the constituent fund level.”

6. Section 3.4.6 - Manulife MPF Conservative Fund (pages 23-24 of the MPF Scheme Brochure)

- i. The first sentence of sub-section (b) under section 3.4.6 shall be amended by replacing “the Manulife Conservative Unit Trust Fund” with “Manulife Conservative Fund”.
- ii. The paragraph under sub-section (c) under section 3.4.6 shall be deleted entirely and replaced with:

“The Conservative Fund and its underlying APIF may not engage in security lending and may not enter into repurchase agreements.”
- iii. The paragraph under sub-section (d) under section 3.4.6 shall be deleted entirely and replaced with:

“The Conservative Fund and its underlying APIF may not acquire financial futures contracts and financial option contracts.”
- iv. The following risk factor shall be inserted immediately after the bullet point “Interest rate risks” under sub-section (e) of section 3.4.6:

“• Risks associated with investment in underlying funds”

7. Section 5.1.1 (pages 65-72 of the MPF Scheme Brochure)

- i. The first table under section 5.1.1 shall be amended by replacing the row relating to “Management fees” of the “Manulife MPF Conservative Fund” under “(C) & (D) FEES, EXPENSES AND CHARGES OF CONSTITUENT FUNDS & FEES, EXPENSES AND CHARGES OF UNDERLYING FUNDS” with the following:

Name of constituent fund	Current level###	Deducted from#
Manulife MPF Conservative Fund	0.75% p.a. of the NAV	Relevant assets of the constituent fund

- ii. The table under “(i) Breakdown of management fees” of the Explanatory Notes under section 5.1.1 shall be amended by replacing the row relating to “Manulife MPF Conservative Fund†††” with the following:

Name of constituent fund	Breakdown of current level of management fees						Management fees	
	Constituent fund level (% p.a. of the NAV)				Underlying fund level (% p.a. of the NAV)		Current level	Maximum level†††
	Trustee and administration Fee^^			Investment management fee	Trustee fee	Investment management fee		
	Sponsor fee^^^	Trustee and custodian fee	Administration fee^^^^					
Manulife MPF Conservative Fund†††	0%	0%	0.50%	0.25%	Nil	Nil	0.75%	2.63%

8. Section 5.2 (page 72 of the MPF Scheme Brochure)

Section 5.2 shall be amended by replacing the words “underlying first level APIF” wherever they appear with the words “underlying APIF”.

9. Section 8 (pages 98-100 of the MPF Scheme Brochure)

The definition of “investment manager” shall be amended as follows:

““investment manager” means an investment manager of each constituent fund and/or that of an underlying fund.”

The following new definition shall be inserted in the appropriate alphabetical order:

““MIMHK” means Manulife Investment Management (Hong Kong) Limited.”

The following amendments to the MPF Scheme Brochure will be effected on October 20, 2022:

10. Section 2 (page 5 of the MPF Scheme Brochure)

The third row in the initial table starting with “Investment Manager” shall be replaced with:

Investment Manager	MIMHK	10/F, Lee Garden One, 33 Hysan Avenue, Causeway Bay, Hong Kong
--------------------	-------	--

11. Section 2.3 (page 5 of the MPF Scheme Brochure)

Section 2.3 shall be deleted entirely and replaced by the following:

“Section 2.3 Investment manager

MIMHK manages all the constituent funds of the Scheme and the underlying APIF(s) of certain constituent funds. MIMHK, a wholly-owned subsidiary of MFC, conducts its global asset management business under the brand name of Manulife Investment Management. The investment division of MFC has been operating for over 100 years[†], and has global expertise around the world in wealth management. MIMHK is licensed with the SFC to carry out asset management activities in Hong Kong.

Subject to the prior approval of the SFC and agreement of the MPFA, MIMHK may from time to time delegate any or all of its investment management functions to one or more sub-investment managers who may or may not be within the Manulife Group.”

12. Section 3.1 (page 6 of the MPF Scheme Brochure)

Section 3.1 shall be deleted entirely and replaced by the following:

“3.1 Scheme structure

Constituent funds	Underlying APIF(s)/ITCIS(s)
Manulife MPF Interest Fund	Interest Fund Policy
Manulife MPF Stable Fund	Stable Fund Policy

^{##} These APIFs are managed by MIMHK and/or managed by other investment managers.”

14. Section 3.4 (pages 15-46 of the MPF Scheme Brochure)

Under sub-section (e) of the following sections:

- i. section 3.4.7 (Manulife MPF Hong Kong Equity Fund);
- ii. section 3.4.8 (Manulife MPF International Equity Fund);
- iii. section 3.4.9 (Manulife MPF Pacific Asia Equity Fund);
- iv. section 3.4.10 (Manulife MPF European Equity Fund);
- v. section 3.4.11 (Manulife MPF North American Equity Fund);
- vi. section 3.4.12 (Manulife MPF Japan Equity Fund);
- vii. section 3.4.13 (Manulife MPF Hong Kong Bond Fund);
- viii. section 3.4.14 (Manulife MPF RMB Bond Fund);
- ix. section 3.4.15 (Manulife MPF Pacific Asia Bond Fund);
- x. section 3.4.16 (Manulife MPF International Bond Fund);
- xi. section 3.4.17 (Manulife MPF China Value Fund); and
- xii. section 3.4.18 (Manulife MPF Healthcare Fund),

the following risk factor shall be inserted in the appropriate order in line with the list of risk factors under section 4:

- “• Risks associated with investment in underlying funds”

15. Section 3.4.1 - Manulife MPF Interest Fund (pages 15-16 of the MPF Scheme Brochure)

The following sentence shall be inserted immediately after the last sentence of sub-section (b) under section 3.4.1:

“The Interest Fund invests solely in an APIF.”

16. Section 3.4.2 - Manulife MPF Stable Fund (pages 17-18 of the MPF Scheme Brochure)

The following sentence shall be inserted immediately after the last sentence of sub-section (b) under section 3.4.2:

“The Stable Fund invests solely in an APIF.”

17. Section 3.4.3 - Manulife MPF Retirement Income Fund (pages 19-21 of the MPF Scheme Brochure)

- i. The second sentence of the first paragraph of sub-section (b) under section 3.4.3 shall be amended by replacing the words “underlying portfolio” with the word “NAV”.
- ii. The following sentence shall be inserted immediately after the last sentence of sub-section (b) under section 3.4.3:

“The Retirement Income Fund will invest in two or more APIF(s) and/or ITCIS(s) which will be selected from those available in the market that will allow the Retirement Income Fund to achieve the stated investment objective.”

- iii. The first sentence of the paragraph of sub-section (c) under section 3.4.3 shall be deleted entirely and replaced with:

“The Retirement Income Fund and any of its underlying APIFs may not engage in security lending and may not enter into repurchase agreements.”
 - iv. The first sentence of the paragraph of sub-section (d) under section 3.4.3 shall be deleted entirely and replaced with:

“The Retirement Income Fund and any of its underlying APIFs may acquire financial futures contracts and financial option contracts for hedging purposes.”
 - v. Sub-section (f) under section 3.4.3 shall be amended by replacing the words “the investment manager of the underlying first level APIF” wherever they appear with the word “MIMHK”.
 - vi. The second sentence of the second paragraph under the “Notes” in sub-section (f) under section 3.4.3 shall be deleted entirely and replaced by the following:

“The Trustee and MIMHK may consider various factors such as economic and market conditions and outlook, investment environment and performance of the Retirement Income Fund, etc. and in any case the dividend shall be determined by the Trustee at its sole discretion.”
18. Section 3.4.4 - Manulife MPF Growth Fund (page 22 of the MPF Scheme Brochure)
- i. The second sentence of the paragraph of sub-section (b) under section 3.4.4 shall be amended by replacing the words “underlying portfolio” with the word “NAV”.
 - ii. The following sentence shall be inserted immediately after the last sentence of sub-section (b) under section 3.4.4:

“The Growth Fund will invest in two or more APIF(s) and/or ITCIS(s) which will be selected from those available in the market that will allow the Growth Fund to achieve the stated investment objective.”
 - iii. The first sentence of the paragraph of sub-section (c) under section 3.4.4 shall be deleted entirely and replaced with:

“The Growth Fund and any of its underlying APIFs may not engage in security lending and may not enter into repurchase agreements.”
 - iv. The first sentence of the paragraph of sub-section (d) under section 3.4.4 shall be deleted entirely and replaced with:

“The Growth Fund and any of its underlying APIFs may acquire financial futures contracts and financial option contracts for hedging purposes.”
19. Section 3.4.5 - Manulife MPF Aggressive Fund (pages 22-23 of the MPF Scheme Brochure)
- i. The reference to “underlying portfolio” in the second sentence of the paragraph of sub-section (b) under section 3.4.5 shall be deleted entirely and replaced with “Aggressive Fund”.
 - ii. The following sentence shall be inserted immediately after the last sentence of sub-section (b) under section 3.4.5:

“The Aggressive Fund will invest in two or more APIF(s) and/or ITCIS(s) which will be selected from those available in the market that will allow the Aggressive Fund to achieve the stated investment objective.”
 - iii. The first sentence of the paragraph of sub-section (c) under section 3.4.5 shall be deleted entirely and replaced with:

“The Aggressive Fund and any of its underlying APIFs may not engage in security lending and may not enter into repurchase agreements.”

“The Hong Kong Equity Fund will invest in two or more APIFs which will be selected from those available in the market that will allow the Hong Kong Equity Fund to achieve the stated investment objective.”

- ii. The paragraph under sub-section (c) under section 3.4.7 shall be deleted entirely and replaced with:

“The Hong Kong Equity Fund and any of its underlying APIFs may not engage in security lending and may not enter into repurchase agreements.”

- iii. The paragraph under sub-section (d) under section 3.4.7 shall be deleted entirely and replaced with:

“The Hong Kong Equity Fund and any of its underlying APIFs may acquire financial futures contracts and financial option contracts for hedging purposes.”

21. Section 3.4.8 - Manulife MPF International Equity Fund (page 25 of the MPF Scheme Brochure)

- i. The reference to “underlying portfolio of the” in the second sentence of the paragraph of sub-section (b) under section 3.4.8 shall be deleted.

- ii. The following sentence shall be inserted immediately after the last sentence of sub-section (b) under section 3.4.8:

“The International Equity Fund will invest in two or more APIF(s) and/or ITCIS(s) which will be selected from those available in the market that will allow the International Equity Fund to achieve the stated investment objective.”

- iii. The first sentence of the paragraph of sub-section (c) under section 3.4.8 shall be deleted entirely and replaced with:

“The International Equity Fund and any of its underlying APIFs may not engage in security lending and may not enter into repurchase agreements.”

- iv. The first sentence of the paragraph of sub-section (d) under section 3.4.8 shall be deleted entirely and replaced with:

“The International Equity Fund and any of its underlying APIFs may acquire financial futures contracts and financial option contracts for hedging purposes.”

22. Section 3.4.9 - Manulife MPF Pacific Asia Equity Fund (pages 25-26 of the MPF Scheme Brochure)

- i. The following sentence shall be inserted immediately after the last sentence of sub-section (b) under section 3.4.9:

“The Pacific Asia Equity Fund will invest in two or more APIFs which will be selected from those available in the market that will allow the Pacific Asia Equity Fund to achieve the stated investment objective.”

- ii. The paragraph under sub-section (c) under section 3.4.9 shall be deleted entirely and replaced with:

“The Pacific Asia Equity Fund and any of its underlying APIFs may not engage in security lending and may not enter into repurchase agreements.”

- iii. The paragraph under sub-section (d) under section 3.4.9 shall be deleted entirely and replaced with:

“The Pacific Asia Equity Fund and any of its underlying APIFs may acquire financial futures contracts and financial option contracts for hedging purposes.”

23. Section 3.4.10 - Manulife MPF European Equity Fund (pages 26-27 of the MPF Scheme Brochure)
- i. The following sentence shall be inserted immediately after the last sentence of sub-section (b) under section 3.4.10:
“The European Equity Fund invests solely in an APIF.”
 - ii. The paragraph under sub-section (c) under section 3.4.10 shall be deleted entirely and replaced with:
“The European Equity Fund and its underlying APIF may not engage in security lending and may not enter into repurchase agreements.”
 - iii. The paragraph under sub-section (d) under section 3.4.10 shall be deleted entirely and replaced with:
“The European Equity Fund may not acquire financial futures contracts and financial option contracts. Its underlying APIF may acquire financial futures contracts and financial option contracts for hedging purposes.”
24. Section 3.4.11 - Manulife MPF North American Equity Fund (page 27 of the MPF Scheme Brochure)
- i. The following sentence shall be inserted immediately after the last sentence of sub-section (b) under section 3.4.11:
“The North American Equity Fund will invest in two or more APIFs which will be selected from those available in the market that will allow the North American Equity Fund to achieve the stated investment objective.”
 - ii. The paragraph under sub-section (c) under section 3.4.11 shall be deleted entirely and replaced with:
“The North American Equity Fund and any of its underlying APIFs may not engage in security lending and may not enter into repurchase agreements.”
 - iii. The paragraph under sub-section (d) under section 3.4.11 shall be deleted entirely and replaced with:
“The North American Equity Fund and any of its underlying APIFs may acquire financial futures contracts and financial option contracts for hedging purposes.”
25. Section 3.4.12 - Manulife MPF Japan Equity Fund (pages 27-28 of the MPF Scheme Brochure)
- i. The following sentence shall be inserted immediately after the last sentence of sub-section (b) under section 3.4.12:
“The Japan Equity Fund invests solely in an APIF.”
 - ii. The paragraph under sub-section (c) under section 3.4.12 shall be deleted entirely and replaced with:
“The Japan Equity Fund and its underlying APIF may not engage in security lending and may not enter into repurchase agreements.”
 - iii. The paragraph under sub-section (d) under section 3.4.12 shall be deleted entirely and replaced with:
“The Japan Equity Fund may not acquire financial futures contracts and financial option contracts. Its underlying APIF may acquire financial futures contracts and financial option contracts for hedging purposes.”
26. Section 3.4.13 - Manulife MPF Hong Kong Bond Fund (pages 28-29 of the MPF Scheme Brochure)
- i. The following sentence shall be inserted immediately after the last sentence of sub-section (b) under section 3.4.13:
“The Hong Kong Bond Fund invests solely in an APIF.”

- ii. The paragraph under sub-section (c) under section 3.4.13 shall be deleted entirely and replaced with:

“The Hong Kong Bond Fund and its underlying APIF may not engage in security lending and may not enter into repurchase agreements.”

- iii. The paragraph under sub-section (d) under section 3.4.13 shall be deleted entirely and replaced with:

“The Hong Kong Bond Fund may not acquire financial futures contracts and financial option contracts. Its underlying APIF may acquire financial futures contracts and financial option contracts for hedging purposes.”

27. Section 3.4.14 - Manulife MPF RMB Bond Fund (pages 29-30 of the MPF Scheme Brochure)

- i. The reference to “underlying APIF” in the first sentence of the first paragraph of sub-section (b) under section 3.4.14 shall be deleted entirely and replaced with “underlying APIFs”.
- ii. The reference to “underlying APIF” in the first sentence of the second paragraph of sub-section (b) under section 3.4.14 shall be deleted entirely and replaced with “underlying APIF(s)”.
- iii. The reference to “underlying APIF” in the first sentence of the fourth paragraph of sub-section (b) under section 3.4.14 shall be deleted entirely and replaced with “RMB Bond Fund”.
- iv. Each reference to “underlying APIF” in the last paragraph of sub-section (b) under section 3.4.14 shall be deleted entirely and replaced with “RMB Bond Fund”.
- v. The following sentence shall be inserted immediately after the last sentence of sub-section (b) under section 3.4.14:

“The RMB Bond Fund will invest in two or more APIFs which will be selected from those available in the market that will allow the RMB Bond Fund to achieve the stated investment objective.”

- vi. The paragraph under sub-section (c) under section 3.4.14 shall be deleted entirely and replaced with:

“The RMB Bond Fund and any of its underlying APIFs may not engage in security lending and may not enter into repurchase agreements.”

- vii. The paragraph under sub-section (d) under section 3.4.14 shall be deleted entirely and replaced with:

“The RMB Bond Fund and any of its underlying APIFs may acquire financial futures contracts and financial option contracts for hedging purposes.”

28. Section 3.4.15 - Manulife MPF Pacific Asia Bond Fund (pages 30-31 of the MPF Scheme Brochure)

- i. The following sentence shall be inserted immediately after the last sentence of sub-section (b) under section 3.4.15:

“The Pacific Asia Bond Fund invests solely in an APIF.”

- ii. The paragraph under sub-section (c) under section 3.4.15 shall be deleted entirely and replaced with:

“The Pacific Asia Bond Fund and its underlying APIF may not engage in security lending and may not enter into repurchase agreements.”

- iii. The paragraph under sub-section (d) under section 3.4.15 shall be deleted entirely and replaced with:

“The Pacific Asia Bond Fund may not acquire financial futures contract and financial option contracts. Its underlying APIF may acquire financial futures contracts and financial option contracts for hedging purposes.”

29. Section 3.4.16 - Manulife MPF International Bond Fund (page 31 of the MPF Scheme Brochure)
- i. The following sentence shall be inserted immediately after the last sentence of sub-section (b) under section 3.4.16:
“The International Bond Fund invests solely in an APIF.”
 - ii. The paragraph under sub-section (c) under section 3.4.16 shall be deleted entirely and replaced with:
“The International Bond Fund and its underlying APIF may not engage in security lending and may not enter into repurchase agreements.”
 - iii. The paragraph under sub-section (d) under section 3.4.16 shall be deleted entirely and replaced with:
“The International Bond Fund may not acquire financial futures contracts and financial option contracts. Its underlying APIF may acquire financial futures contracts and financial option contracts for hedging purposes.”
30. Section 3.4.17 - Manulife MPF China Value Fund (page 32 of the MPF Scheme Brochure)
- i. The following sentence shall be inserted immediately after the last sentence of sub-section (b) under section 3.4.17:
“The China Value Fund will invest in two or more APIFs which will be selected from those available in the market that will allow the China Value Fund to achieve the stated investment objective.”
 - ii. The paragraph under sub-section (c) under section 3.4.17 shall be deleted entirely and replaced with:
“The China Value Fund and any of its underlying APIFs may not engage in security lending and may not enter into repurchase agreements.”
 - iii. The paragraph under sub-section (d) under section 3.4.17 shall be deleted entirely and replaced with:
“The China Value Fund and any of its underlying APIFs may acquire financial futures contracts and financial option contracts for hedging purposes.”
31. Section 3.4.18 - Manulife MPF Healthcare Fund (pages 32-33 of the MPF Scheme Brochure)
- i. The following sentence shall be inserted immediately after the last sentence of sub-section (b) under section 3.4.18:
“The Healthcare Fund will invest in two or more APIFs which will be selected from those available in the market that will allow the Healthcare Fund to achieve the stated investment objective.”
 - ii. The paragraph under sub-section (c) under section 3.4.18 shall be deleted entirely and replaced with:
“The Healthcare Fund and any of its underlying APIFs may not engage in security lending and may not enter into repurchase agreements.”
 - iii. The paragraph under sub-section (d) under section 3.4.18 shall be deleted entirely and replaced with:
“The Healthcare Fund and any of its underlying APIFs may acquire financial futures contracts and financial option contracts for hedging purposes.”
32. Section 3.4.19 - Manulife MPF Hang Seng Index Tracking Fund (pages 33-34 of the MPF Scheme Brochure)
- i. The reference to “the underlying investments of” in the first sentence of the paragraph under sub-section (b) under section 3.4.19 shall be deleted entirely.

- ii. The following sentence shall be inserted immediately after the last sentence of sub-section (b) under section 3.4.19:

“The Hang Seng Index Tracking Fund invests solely in an ITCIS.”

- iii. The first sentence of the paragraph under sub-section (c) under section 3.4.19 shall be deleted entirely and replaced with:

“The Hang Seng Index Tracking Fund may not engage in security lending and may not enter into repurchase agreements.”

- iv. The following sentence shall be added as the first sentence of the paragraph under sub-section (d) under section 3.4.19:

“The Hang Seng Index Tracking Fund may not acquire financial futures contracts and financial option contracts.”

33. Section 3.4.20 - Manulife MPF Fidelity Growth Fund (pages 34-35 of the MPF Scheme Brochure)

- i. The first paragraph of sub-section (b) under section 3.4.20 shall be deleted entirely and replaced by the following:

“The assets of the Fidelity Growth Fund will be invested as a feeder fund into the respective APIF operated within an umbrella unit trust structure currently managed by FIL Investment Management (Hong Kong) Limited.”

- ii. The following sentence shall be inserted immediately after the last sentence of sub-section (b) under section 3.4.20:

“The Fidelity Growth Fund invests solely in an APIF.”

- iii. The paragraph under sub-section (c) under section 3.4.20 shall be deleted entirely and replaced with:

“The Fidelity Growth Fund and its underlying APIF may not engage in security lending and may not enter into repurchase agreements.”

- iv. The paragraph under sub-section (d) under section 3.4.20 shall be deleted entirely and replaced with:

“The Fidelity Growth Fund may not acquire financial futures contracts and financial option contracts. Its underlying APIF may acquire financial futures contracts and financial option contracts for hedging purposes.”

34. Section 3.4.21 - Manulife MPF Fidelity Stable Growth Fund (page 35 of the MPF Scheme Brochure)

- i. The first paragraph of sub-section (b) under section 3.4.21 shall be deleted entirely and replaced by the following:

“The assets of the Fidelity Stable Growth Fund will be invested as a feeder fund into the respective APIF operated within an umbrella unit trust structure currently managed by FIL Investment Management (Hong Kong) Limited.”

- ii. The following sentence shall be inserted immediately after the last sentence of sub-section (b) under section 3.4.21:

“The Fidelity Stable Growth Fund invests solely in an APIF.”

- iii. The paragraph under sub-section (c) under section 3.4.21 shall be deleted entirely and replaced with:

“The Fidelity Stable Growth and its underlying APIF may not engage in security lending and may not enter into repurchase agreements.”

- iv. The paragraph under sub-section (d) under section 3.4.21 shall be deleted entirely and replaced with:

“The Fidelity Stable Growth may not acquire financial futures contracts and financial option contracts. Its underlying APIF may acquire financial futures contracts and financial option contracts for hedging purposes.”

35. Section 3.4.22 - Manulife MPF Core Accumulation Fund (pages 35-37 of the MPF Scheme Brochure and page 1 of the First Addendum)

- i. Section 3.4.22 shall be amended by replacing the words “second level APIF” wherever they appear with the words “underlying APIF”.
- ii. The first paragraph and following diagram of sub-section (b) under section 3.4.22 shall be deleted entirely and replaced by the following:

“The CAF invests as a feeder fund into an underlying APIF, currently the Amundi Moderate Growth Fund (the “**underlying APIF**”).

- iii. The word “indirectly” in the first sentence of the fifth paragraph of sub-section (b) under section 3.4.22 shall be deleted.
- iv. The reference to “underlying APIFs” in the last paragraph of sub-section (b) under section 3.4.22 shall be deleted entirely and replaced with “underlying APIF”.
- v. The following sentence shall be inserted immediately after the last sentence of sub-section (b) under section 3.4.22:

“The CAF invests solely in an APIF.”

- vi. The paragraph under sub-section (d) under section 3.4.22 shall be deleted entirely and replaced with:

“The CAF may not acquire financial futures contracts and financial option contracts. Its underlying APIF may acquire currency forward contracts, financial futures contracts and financial option contracts for hedging purposes.”

36. Section 3.4.23 - Manulife MPF Age 65 Plus Fund (pages 37-39 of the MPF Scheme Brochure and page 2 of the First Addendum)

- i. Section 3.4.23 shall be amended by replacing the words “second level APIF” wherever they appear with the words “underlying APIF”.
- ii. The first paragraph and following diagram of sub-section (b) under section 3.4.23 shall be deleted entirely and replaced by the following:

“The A65F invests as a feeder fund into an underlying APIF, currently the Amundi Income Fund (the “**underlying APIF**”).

- iii. The word “indirectly” in the first sentence of the fifth paragraph of sub-section (b) under section 3.4.23 shall be deleted.
- iv. The reference to “underlying APIFs” in the last paragraph of sub-section (b) under section 3.4.22 shall be deleted entirely and replaced with “underlying APIF”.

- v. The following sentence shall be inserted immediately after the last sentence of sub-section (b) under section 3.4.23:
 “The A65F invests solely in an APIF.”
 - vi. The paragraph under sub-section (d) under section 3.4.23 shall be deleted entirely and replaced with:
 “The A65F may not acquire financial futures contracts and financial option contracts. Its underlying APIF may acquire currency forward contracts, financial futures contracts, and financial option contracts for hedging purposes.”
37. Section 3.4.24 - Manulife MPF Smart Retirement Fund (pages 39-40 of the MPF Scheme Brochure)
- i. The reference to “of the underlying portfolio” in the second sentence of the first paragraph of sub-section (b) under section 3.4.24 shall be deleted.
 - ii. The following sentence shall be inserted immediately after the last sentence of sub-section (b) under section 3.4.24:
 “The Smart Retirement Fund will invest in two or more APIF(s) and/or ITCIS(s) which will be selected from those available in the market that will allow the Smart Retirement Fund to achieve the stated investment objective.”
 - iii. The first sentence of the paragraph under sub-section (c) under section 3.4.24 shall be deleted entirely and replaced with:
 “The Smart Retirement Fund and any of its underlying APIFs may not engage in security lending and may not enter into repurchase agreements.”
 - iv. The first sentence of the paragraph under sub-section (d) under section 3.4.24 shall be deleted entirely and replaced with:
 “The Smart Retirement Fund and any of its underlying APIFs may acquire financial future contracts and financial option contracts for hedging purposes.”
38. Section 3.4.25 - Manulife MPF 2025 Retirement Fund (pages 40-41 of the MPF Scheme Brochure)
- i. The references to “the investment manager” in the last sentence of the first paragraph and the last sentence of the last paragraph of sub-section (b) under section 3.4.25 shall be replaced with “MIMHK”.
 - ii. The following sentence shall be inserted immediately after the last sentence of sub-section (b) under section 3.4.25:
 “The 2025 Retirement Fund will invest in two or more APIF(s) and/or ITCIS(s) which will be selected from those available in the market that will allow the 2025 Retirement Fund to achieve the stated investment objective.”
 - iii. The first sentence of the paragraph under sub-section (c) under section 3.4.25 shall be deleted entirely and replaced with:
 “The 2025 Retirement Fund and any of its underlying APIFs may not engage in security lending and may not enter into repurchase agreements.”
 - iv. The first sentence of the paragraph under sub-section (d) under section 3.4.25 shall be deleted entirely and replaced with:
 “The 2025 Retirement Fund and any of its underlying APIFs may acquire financial future contracts and financial option contracts for hedging purposes.”
39. Section 3.4.26 - Manulife MPF 2030 Retirement Fund (pages 41-42 of the MPF Scheme Brochure)
- i. The references to “the investment manager” in the last sentence of the first paragraph and the last sentence of the last paragraph of sub-section (b) under section 3.4.26 shall be replaced with “MIMHK”.

- ii. The following sentence shall be inserted immediately after the last sentence of sub-section (b) under section 3.4.26:

“The 2030 Retirement Fund will invest in two or more APIF(s) and/or ITCIS(s) which will be selected from those available in the market that will allow the 2030 Retirement Fund to achieve the stated investment objective.”
 - iii. The first sentence of the paragraph under sub-section (c) under section 3.4.26 shall be deleted entirely and replaced with:

“The 2030 Retirement Fund and any of its underlying APIFs may not engage in security lending and may not enter into repurchase agreements.”
 - iv. The first sentence of the paragraph under sub-section (d) under section 3.4.26 shall be deleted entirely and replaced with:

“The 2030 Retirement Fund and any of its underlying APIFs may acquire financial future contracts and financial option contracts for hedging purposes.”
40. Section 3.4.27 - Manulife MPF 2035 Retirement Fund (pages 42-43 of the MPF Scheme Brochure)
- i. The references to “the investment manager” in the last sentence of the first paragraph and the last sentence of the last paragraph of sub-section (b) under section 3.4.27 shall be replaced with “MIMHK”.
 - ii. The following sentence shall be inserted immediately after the last sentence of sub-section (b) under section 3.4.27:

“The 2035 Retirement Fund will invest in two or more APIF(s) and/or ITCIS(s) which will be selected from those available in the market that will allow the 2035 Retirement Fund to achieve the stated investment objective.”
 - iii. The first sentence of the paragraph under sub-section (c) under section 3.4.27 shall be deleted entirely and replaced with:

“The 2035 Retirement Fund and any of its underlying APIFs may not engage in security lending and may not enter into repurchase agreements.”
 - iv. The first sentence of the paragraph under sub-section (d) under section 3.4.27 shall be deleted entirely and replaced with:

“The 2035 Retirement Fund and any of its underlying APIFs may acquire financial future contracts and financial option contracts for hedging purposes.”
41. Section 3.4.28 - Manulife MPF 2040 Retirement Fund (pages 44-45 of the MPF Scheme Brochure)
- i. The references to “the investment manager” in the last sentence of the first paragraph and the last sentence of the last paragraph of sub-section (b) under section 3.4.28 shall be replaced with “MIMHK”.
 - ii. The following sentence shall be inserted immediately after the last sentence of sub-section (b) under section 3.4.28:

“The 2040 Retirement Fund will invest in two or more APIF(s) and/or ITCIS(s) which will be selected from those available in the market that will allow the 2040 Retirement Fund to achieve the stated investment objective.”
 - iii. The first sentence of the paragraph under sub-section (c) under section 3.4.28 shall be deleted entirely and replaced with:

“The 2040 Retirement Fund and any of its underlying APIFs may not engage in security lending and may not enter into repurchase agreements.”
 - iv. The first sentence of the paragraph under sub-section (d) under section 3.4.28 shall be deleted entirely and replaced with:

“The 2040 Retirement Fund and any of its underlying APIFs may acquire financial future contracts and financial option contracts for hedging purposes.”

42. Section 3.4.29 - Manulife MPF 2045 Retirement Fund (pages 45-46 of the MPF Scheme Brochure)
- i. The references to “the investment manager” in the last sentence of the first paragraph and the last sentence of the last paragraph of sub-section (b) under section 3.4.29 shall be replaced with “MIMHK”.
 - ii. The following sentence shall be inserted immediately after the last sentence of sub-section (b) under section 3.4.29:

“The 2045 Retirement Fund will invest in two or more APIF(s) and/or ITCIS(s) which will be selected from those available in the market that will allow the 2045 Retirement Fund to achieve the stated investment objective.”
 - iii. The first sentence of the paragraph under sub-section (c) under section 3.4.29 shall be deleted entirely and replaced with:

“The 2045 Retirement Fund and any of its underlying APIFs may not engage in security lending and may not enter into repurchase agreements.”
 - iv. The first sentence of the paragraph under sub-section (d) under section 3.4.29 shall be deleted entirely and replaced with:

“The 2045 Retirement Fund and any of its underlying APIFs may acquire financial future contracts and financial option contracts for hedging purposes.”
43. Section 3.5 (page 46 of the MPF Scheme Brochure)
- The references to “investment manager” and “investment manager of underlying APIFs” in the first and last sentences of the second paragraph and the first sentence of the last paragraph of section 3.5 shall be deleted entirely and replaced with “investment manager of the Retirement Funds”.
44. Section 3.7 (page 48 of the MPF Scheme Brochure)
- Section 3.7 shall be deleted entirely and replaced by the following:
- “Section 3.7 Investment restrictions and guidelines**
- The assets in the constituent funds may be invested in any investments, securities, pooled investment funds or any other properties, and may hold cash and deposits, in accordance with Part V and Schedule 1 to the General Regulation and any codes and guidelines issued by the MPFA or the SFC from time to time.
- The Trustee, the trustee(s) of the underlying trust-based APIFs and Manulife (International) Limited, as the Insurer of the first level insurance policy based APIFs, may in their sole discretion retain certain amount of cash for any other purposes which the Trustee, the trustee(s) and/or Manulife (International) Limited (as the case may be) consider appropriate.”
45. Section 4.15 (page 53 of the MPF Scheme Brochure)
- The reference to “through underlying fund(s)” in the first sentence of the first paragraph of section 4.15 shall be deleted.
46. Section 4.20 (page 54 of the MPF Scheme Brochure)
- i. The first sentence of the paragraph under section 4.20 shall be deleted entirely and replaced by the following:

“The funds and/or their underlying funds may invest in futures and options which are volatile.”
 - ii. The last sentence of the paragraph under section 4.20 shall be deleted entirely and replaced by the following:

“To maintain the required amount of margin deposits, the funds and/or their underlying funds may have to liquidate their investments at unfavourable prices and incur significant loss as a result.”

47. Section 4.24 (page 56 of the MPF Scheme Brochure)

- i. The references to “APIF/” in the second last paragraph of section 4.24 shall be deleted.
- ii. The last sentence of the last paragraph of section 4.24 shall be deleted entirely and replaced by the following:

“Other than the above, because the calculation of performance of the Manulife MPF Hang Seng Index Tracking Fund is on an after-fee basis and it may hold idle cash to meet redemption and/or switching requests, tracking error resulted from such fee deduction and cash holding would be unavoidable.”

48. Section 4.27 (pages 58-59 of the MPF Scheme Brochure)

- i. Section 4.27 shall be amended by replacing the words “second level APIF” wherever they appear with the words “underlying APIF”.
- ii. The last sentence of the last paragraph under section 4.27 shall be deleted entirely and replaced by the following:

“Other than the above, because the calculation of performance of the DIS CFs is on an after-fee basis and the DIS CFs may hold idle cash to meet redemption and/or switching requests, tracking error resulted from such fee deduction and cash holding would be unavoidable.”

49. Section 5.1.1 (pages 65-72 of the MPF Scheme Brochure)

- i. The first table under section 5.1.1 shall be amended by deleting the rows associated with “Management fees” under “(C) & (D) FEES, EXPENSES AND CHARGES OF CONSTITUENT FUNDS & FEES, EXPENSES AND CHARGES OF UNDERLYING FUNDS” in their entirety and replacing them with the following:

- v. Footnote ^{§§§} under section “(i) Breakdown of management fees” of the Explanatory Notes shall be deleted entirely.
- vi. Insert the following new footnotes [§] and ^{§§} under section “(i) Breakdown of management fees” of the Explanatory Notes immediately after the description of footnote ^{****}:

“§ The investment management fee of the Manulife MPF Core Accumulation Fund and Manulife MPF Age 65 Plus Fund is inclusive of the total management fee at the underlying fund level while that of the Manulife MPF Fidelity Growth Fund and Manulife MPF Fidelity Stable Growth Fund is inclusive of the investment management fee at the underlying fund level.

§§ As the investment manager of the Manulife MPF Core Accumulation Fund, Manulife MPF Age 65 Plus Fund, Manulife MPF Fidelity Growth Fund, and Manulife MPF Fidelity Stable Growth Fund, MIMHK will carry out investment management functions including supervision and monitoring in respect of these constituent funds and review in relation to the selection of underlying funds.”

- vii. The last two sentences of footnote ##### under section “(i) Breakdown of management fees” of the Explanatory Notes shall be deleted entirely.
- viii. Explanatory Notes (iii) shall be deleted entirely and Explanatory Notes (iv) and (v) shall be renumbered as (iii) and (iv) respectively.
- ix. Footnote & under section “(i) Breakdown of management fees” of the Explanatory Notes shall be deleted entirely.

50. Section 5.3 (page 72 of the MPF Scheme Brochure)

The third paragraph under section 5.3 shall be deleted entirely and replaced by the following:

“Services provided by the principal service providers of the DIS CFs: (i) the Trustee manages the operations of Scheme and execution of the Trust Deed; (ii) MIMHK is responsible for managing the investment of the DIS CFs; (iii) the Administrator carries out the daily administration work of the Scheme and provides other customer services to the enrolled participating employers and Members; (iv) the investment manager of the underlying APIFs is responsible for managing the investment of respective underlying APIF of the DIS CFs; (v) the custodian of the underlying APIFs is responsible to safe-keep the respective underlying APIF’s assets and provides related administration services, the fee of which is included in the investment management fee.”

51. Section 5.4 (page 73 of the MPF Scheme Brochure)

The first sentence of section 5.4 shall be amended by replacing the words “second level umbrella unit trusts” with the words “underlying APIFs in the form of an umbrella unit trust”.

The following amendments to the MPF Scheme Brochure will take immediate effect:

52. Section 6.10.4 (pages 86-87 of the MPF Scheme Brochure)

The last sentence of the first paragraph under section 6.10.4 shall be deleted entirely and replaced by the following:

“Any such withdrawal requests will be effected by the Trustee normally within 30 days from the receipt of the request and the proceeds shall be paid to the individual relevant employee member accordingly.”

53. Appendix A (pages 101-102 of the MPF Scheme Brochure)

The last sentence of the last paragraph shall be amended and replaced by “The Hang Seng Indexes Company Limited and the Hang Seng Data Services Limited are independent of and not associated with MIMHK and the Trustee.”.

54. Save as specifically set out above, all other provisions of the MPF Scheme Brochure shall remain unchanged.

Manulife Provident Funds Trust Company Limited

Illustrative example for Manulife MPF Conservative Fund of the Manulife Global Select (MPF) Scheme

Issued: 31-03-2020

PURPOSE OF THE EXAMPLE

This example is intended to help you compare the total amounts of current annual fees payable under this Scheme with those under other registered schemes.

THIS EXAMPLE ASSUMES THAT :

Your MPF Account Activities

- (a) your monthly relevant income is HK\$8,000
- (b) you have put all the accrued benefits into the Manulife MPF Conservative Fund; you have not switched your accrued benefits to other constituent funds during the financial period
- (c) you have not transferred any accrued benefits into or out of this Scheme during the financial period

Your Company Profile

- (d) 5 employees (including yourself) of your company participate in this Scheme
- (e) the monthly relevant income of each employee is HK\$8,000
- (f) no voluntary contribution is made
- (g) each of the other 4 employees has the same MPF account activities as yours

Investment Return & Savings Rate

- (h) the monthly rate of investment return is 0.5% on total assets
- (i) the prescribed savings rate is 3.25% per annum throughout the financial period

Based on these assumptions, the **total amounts of current annual fees** you need to pay under this Scheme (including those payable to the underlying approved pooled investment fund) in this financial period would be : HK\$45

Warnings : This is just an illustrative example. The actual amounts of fees you need to pay may be **higher or lower**, depending on your choice of investments and activities taken during the financial period. The MPF Scheme Brochure should be read for further details of the Scheme.

宏利環球精選(強積金)計劃宏利MPF保守基金年費解說例子

發出日期:31-03-2020

本解說例子的目的

本例子有助您比較本計劃與其他註冊計劃所徵收的年費總額。

本例子假設 :

您的強積金帳戶活動

- (a) 您每月的有關入息為HK\$8,000
- (b) 您把所有累算權益投資於宏利 MPF保守基金;而且在財政期內沒有把累算權益轉投其他成分基金
- (c) 您在財政期內沒有把累算權益移入或調出本計劃

您的任職公司資料

- (d) 您的僱主有5名僱員(包括您本人)參加本計劃
- (e) 每名僱員的每月有關入息為HK\$8,000
- (f) 勞資雙方並無作出自願性供款
- (g) 另外4名僱員的強積金帳戶活動與您的帳戶活動相同

投資回報及儲蓄利率

- (h) 每月投資回報率為總資產的0.5%
- (i) 在整段財政期內的訂明儲蓄年利率為3.25%

根據以上假設,您在每一財政期須就本計劃支付的**年費總額**(包括所投資的核准匯集投資基金的費用)為 : HK\$45

注意: 本例子謹作解說用。您所須支付的實際年費,視乎您在財政期內的投資選擇及活動而定,因此或會**高於或低於**上述例子所計算的款額。更多有關本計劃之詳情,請參閱強積金計劃說明書。

ON-GOING COST ILLUSTRATIONS FOR Manulife Global Select (MPF) Scheme 宏利環球精選 (強積金) 計劃 持續成本列表

ABOUT THIS ILLUSTRATION

This is an illustration of the total effect of fees and charges on each HK\$1,000 contributed in the funds named below. The fees and charges of a fund are one of the factors that you should consider in making investment decisions across funds. You should however also consider other important information such as the risks of the fund, the nature of the fund, the attributes of relevant parties, the range and quality of services being offered and, most importantly, your own personal circumstances and expectations. The information about fees and charges set out in this table is intended to help you compare the cost of investing in one constituent fund with the cost of investing in other constituent funds.

The Illustration has been prepared based on some assumptions that are the same for all funds. The Illustration assumes the following:

- (a) a gross contribution of HK\$1,000 is made in the respective constituent fund now and, being eligible to do so, you withdraw all of your accrued benefits arising from this contribution at the end of each time period indicated;
- (b) for the purpose of this illustration only, the contribution has a 5% gross return each year [It is important to note that the assumed rate of return used in this document for illustrative and comparative purposes only. The return is neither guaranteed nor based on past performance. The actual return may be different.]; and
- (c) the expenses of the funds (expressed as a percentage called the 'fund expense ratio' below) remain the same for each fund for all the periods shown in this illustration.

有關本列表

本列表旨在說明就下列基金每供款HK\$1,000所須支付的費用總額。基金的收費是選擇基金的考慮因素之一，但您亦須考慮其他重要的資料，如基金的風險、基金的性質、受託人及服務提供者的基本資料、服務範疇及質素等，而最重要的一項，是您個人的情況及期望。下表載列的收費資料，旨在協助您比較投資於不同成分基金的成本。

本列表按下列假設因素編製，而各基金的假設因素均相同：

- (a) 向成分基金供款總計HK\$1,000，並在符合資格的情況下，於以下每個時段結束時提取累積權益；
- (b) 純就本列表的目的而言，供款的總投資回報率為每年5%。（請注意，該5%為本列表採用的模擬回報率，僅作解說及比較資料用。該項回報並非保證回報，亦非過往回報。實際回報與模擬回報或有差異）；及
- (c) 在本列表所示的整段投資期內，各基金的開支（以百分比表示，稱為「基金開支比率」）均沒有改變。

BASED ON THE ABOVE ASSUMPTIONS, YOUR COSTS ON EACH HK\$1,000 CONTRIBUTED ARE ILLUSTRATED IN THE FOLLOWING TABLE. PLEASE NOTE THAT THE ACTUAL COSTS WILL DEPEND ON VARIOUS FACTORS AND MAY BE DIFFERENT FROM THE NUMBERS SHOWN BELOW.

根據以上假設因素，您每供款HK\$1,000所須承擔的成本載列如下。請注意，實際成本視乎不同因素而定，與下列數字或有差異：

Name of constituent fund 成分基金名稱	Fund expense ratio for financial period ended Mar 2021 截至2021年3月止 財政年度的 基金開支比率	Cost on each HK\$ 1,000 contributed 每供款HK\$1,000 所須承擔的成本

Notice to Customers relating to the Personal Data (Privacy) Ordinance (Version 20130401-01)

DEFINITIONS

1. “Data access request”, “data correction request”, “data subject”, “data user”, “direct marketing”, “matching procedures” and “personal data” used throughout this Notice shall have the meaning as defined in the Ordinance.

For the purpose of this Notice:

“customers” shall mean data subjects and include (but not be limited to) existing and prospective insurance policy owners, insured, beneficiaries and other persons designated or entitled to receive moneys and/or other benefits under an insurance policy; and members under an occupational retirement scheme; and scheme members under a mandatory provident fund scheme; and share/unit holders of investment funds.

“Hong Kong” shall mean the Hong Kong Special Administrative Region.

“Manulife” shall mean Manulife (International) Limited, Manulife Provident Funds Trust Company Limited, Manulife Investment Management (Hong Kong) Limited, or a Manulife Fund (as the case may be) in respect of its respective customers.

“Manulife Fund” shall mean any investment fund sponsored or managed from time to time by a member of the Manulife Group (including but not limited to Manulife Global Fund and Manulife Advanced Fund SPC) and “Manulife Funds” shall mean all such investment funds.

“Manulife Group” shall mean Manulife Financial Corporation and its subsidiaries and affiliates (including but not limited to Manulife (International) Limited, Manulife Provident Funds Trust Company Limited, Manulife Investment Management (Hong Kong) Limited, and Manulife Funds. The rights and obligations of each member of Manulife Group under this Notice are several and not joint. No member of Manulife Group shall be liable for an act or omission by another member of Manulife Group.

“Ordinance” shall mean Personal Data (Privacy) Ordinance.

COLLECTION

2. From time to time, it is necessary for customers to supply Manulife with personal data in connection with the establishment or continuation of business relationship, or provision of products or services. Failure to supply such data may result in Manulife being unable to establish or continue the business relationship, or provide products or services.
3. It is also the case that personal data are collected or received by Manulife from and/or in respect of customers in the ordinary course of the continuation of the business relationship, for example, when an application is made for a change of beneficiary/insured member under the insurance policy; or when notification is made by the employer of a change of employment/address of an employee member of an occupational retirement scheme/mandatory provident fund scheme; or when a joint share holder of an investment fund applies for investment fund switching.

PURPOSES

4. The purposes for which personal data of a customer may be used will vary depending on the nature of the customer’s relationship with Manulife. Such purposes may include the following:
- processing, assessing and determining applications or requests made by customers for products and/or services;
 - administering, maintaining, managing and operating products and/or services provided to customers;
 - confirming customer’s identity and uniquely identifying customer;
 - confirming the accuracy of the information collected;
 - understanding customer’s financial situation better, evaluating customer application, assessing the risks Manulife is assuming and reviewing claims submitted to Manulife;

- any purposes in connection with any claims made by or against or otherwise involving customers in respect of any products and/or services including but not limited to making, defending, analysing, investigating, processing, assessing, determining or responding to such claims;
- providing investment management services, dealing and advisory services, custody services and other services under the terms and conditions of the accounts a customer holds with Manulife;
- performing any functions and activities related to products and/or services including but not limited to marketing, audit, reporting, research, analysis, reinsurance, and general servicing and maintenance of online and other services;
- researching and/or designing products and/or services for customers, and promoting, improving and furthering the provision of products and/or services;
- conducting matching procedures (as defined in the Ordinance, but broadly includes comparison of two or more sets of the data subject’s data, for purposes of taking actions adverse to the interests of the data subject, such as declining an application);
- making disclosure under and/or complying with the requirements of any law, rules, regulations, codes of practice, guidelines or guidances binding on or applicable to Manulife or any member of Manulife Group (whether within or outside Hong Kong) including but not limited to making disclosure to local or foreign regulators, governmental bodies, industry recognised bodies (whether within or outside Hong Kong) such as federations or associations of insurers, credit reference agencies or auditors;
- complying with any contractual or other commitment or arrangement with local or foreign regulators, governmental bodies, or industry recognised bodies (whether within or outside Hong Kong) that is assumed by or imposed on Manulife or any member of Manulife Group by reason of its financial, commercial, business or other interests or activities in or related to the jurisdiction of the relevant local or foreign regulators, governmental bodies, or industry recognised bodies;
- for operational purposes, credit assessment, credit scoring models or statistical analysis (including in each case, behaviour analysis and evaluation on the overall relationship with Manulife Group which includes using such data to comply with any obligations, requirements, policies, procedures, measures or arrangements for sharing data and information within Manulife Group and/or other use of data and information in accordance with any Manulife Group-wide programmes for compliance with sanctions or prevention or detection of money laundering, terrorist financing or other unlawful activities), whether on the data subjects or otherwise;
- exercising any rights Manulife may have in connection with the provision to customers of products and/or services;
- conducting identity and/or credit checks;
- determining any amount of indebtedness owing to or from customers, and collecting and recovering any amount owing from customers or any person who has provided any security or undertaking for customers’ liabilities;
- enabling an actual or proposed assignee, transferee, participant or sub-participant of the rights or business of Manulife or any member of Manulife Group to evaluate the transaction intended to be the subject of the assignment, transfer, participation or sub-participation;
- purposes specifically provided for in any particular service or product offered by Manulife;
- any purposes relating to the above (including seeking professional advices) or any other purposes in accordance with the general policies of Manulife or any member of Manulife Group in relation to insurance, occupational retirement schemes, mandatory provident fund schemes, investment funds, wealth management services and other financial products and services as set out in notices, circulars, or other terms and conditions made available by Manulife or any member of Manulife Group to customers from time to time.

TRANSFEREES

5. Personal data of a customer held by Manulife will be kept confidential but Manulife may transfer such data to the following persons and/or entities (whether within or outside Hong Kong) for any of the purposes set out in paragraph 4 above:
- any person in connection with any claims made by or against or otherwise involving customers in respect of any products and/or services;
 - any agent, contractor or third party service provider who provides administrative, telecommunications, computer, information technology, payment, data processing or storage, marketing, mailing, printing, telemarketing, customer satisfaction analysis, or other services to Manulife or any member of Manulife Group in connection with the operation of business, including any custodian, administrator, investment manager, investment advisor or distributor;
 - any credit reference agencies or, in the event of default, any debt collection agencies;
 - any advisor (including his or her employees) or other intermediary (including their employees);
 - reinsurers and medical service providers;
 - employers of the customers;
 - any person which has undertaken to Manulife or any member of Manulife Group to keep such data confidential;
 - any actual or proposed assignee, transferee, participant or sub-participant of the rights or business of Manulife or Manulife Group;
 - any member of Manulife Group;
 - any person to whom Manulife or any member of Manulife Group is under an obligation or otherwise required to make disclosure under the requirements of any law, rules, regulations, codes of practice, guidelines or guidances binding on or applicable to Manulife or any member of Manulife Group including but not limited to any local or foreign regulators, governmental bodies, or industry recognised bodies;
 - any person to whom Manulife or any member of Manulife Group is under an obligation or otherwise required to make disclosure pursuant to any contractual or other commitment or arrangement with local or foreign regulators, governmental bodies, or industry recognised bodies (whether within or outside Hong Kong) that is assumed by or imposed on Manulife or any member of Manulife Group by reason of its financial, commercial, business or other interests or activities in or related to the jurisdiction of the relevant local or foreign regulators, governmental bodies, industry recognised bodies.

USE OF PERSONAL DATA IN DIRECT MARKETING

6. Manulife intends to use, from time to time, customer's personal data in direct marketing of the following products and services:
- insurance, provident funds and/or schemes, investment funds, wealth management services, or other financial products and services;
 - reward, loyalty or privilege programmes and related products and services;
 - products and services of co-branding partners of any member of Manulife Group (the names of such co-branding partners can be found in the application form(s) for the relevant products and services as the case may be).

Only the following kinds of personal data of the customer may be used in such direct marketing:

- name;
- gender;
- date of birth;
- part of identity card or passport number;
- contact information (including but not limited to phone number, fax number, email address, correspondence address and residential address);
- information about the products and/or services the customer has purchased or applied, including the distribution channels (including

their individual advisors or intermediaries) through which the products and/or services were purchased or applied for.

Manulife may not so use the data unless it has received the customer's consent to the intended use.

PROVISION OF PERSONAL DATA FOR USE IN DIRECT MARKETING

7. Manulife intends to provide, from time to time and **for money and other property**, customer's personal data to Manulife Group (other than Manulife itself) for use by Manulife Group in direct marketing of the following products and services:
- insurance, provident funds and/or schemes, investment funds, wealth management services, or other financial products and services;
 - reward, loyalty or privilege programmes and related products and services;
 - products and services of co-branding partners of any member of Manulife Group (the names of such co-branding partners can be found in the application form(s) for the relevant products and services as the case may be).

Only the following kinds of personal data of the customer may be provided to Manulife Group (other than Manulife itself) for use by Manulife Group in such direct marketing:

- name;
- gender;
- date of birth;
- part of identity card or passport number;
- contact information (including but not limited to phone number, fax number, email address, correspondence address and residential address);
- information about the products and/or services the customer has purchased or applied, including the distribution channels (including their individual advisors or intermediaries) through which the products and/or services were purchased or applied for.

Manulife may not so provide the data unless it has received the customer's written consent to the intended provision.

8. Under the Ordinance, a data subject has the right to:
- request access to his or her personal data;
 - request correction of any of his or her personal data which is inaccurate;
 - ascertain a data user's policies and practices in relation to personal data;
 - be informed of the kind of personal data held by the data user;
 - be informed of the main purposes for which personal data held by the data user are or are to be used;
 - make data access request and data correction request through the channel set out in paragraph 9 below.
9. In accordance with the provisions of the Ordinance, Manulife has the right to charge a reasonable fee for processing any data access request. Requests may be made in writing to the Privacy Officer at:

GUIDE TO TRANSFER OF MPF ACCRUED BENEFITS (“BENEFITS”) UNDER EMPLOYEE CHOICE ARRANGEMENT (“ECA”) Sections 148A and 148B of the Mandatory Provident Fund Schemes (General) Regulation (Cap 485A)

註：此乃「僱員自選安排」強積金累算權益（「權益」）轉移指南。如需下載本指南之中文版本，請瀏覽宏利網站www.manulife.com.hk

Note: Chinese copy of the Guide to Transfer of MPF Accrued Benefits (“Benefits”) Under Employee Choice Arrangement is available on our website www.manulife.com.hk

Explanation of terms used in Form MPF(S)-P(P), the Explanatory Notes and this Guide:

- (a) “Contribution account” – has the same meaning as in section 2 of the Mandatory Provident Fund Schemes (General) Regulation (“the Regulation”). Generally, it is an account in an MPF registered scheme (“scheme”) which is mainly used to receive MPF contributions (both employer and employee portions) made by an employer for an employee and on behalf of the employee. Contribution account may also include an account of a self-employed person in New Scheme which is mainly used to receive MPF contributions made by himself while self-employed.
- (b) “Personal account” – has the same meaning as in section 2 of the Regulation. Generally, it is an account (other than a contribution account and TVC account) in a scheme which is mainly used to receive the benefits transferred from other contribution or personal account(s).
- (c) “Original Scheme” – the scheme from which your benefits are to be transferred.
- (d) “New Scheme” – the scheme to which your benefits are to be transferred. If you elect to transfer your benefits to another account within the same scheme, the new scheme on this Form will be the same as the original scheme.
- (e) “Calendar year” – the one-year period from 1 January to 31 December.

Rights of employees under the ECA

- (1) Under the ECA, an employee can, **during employment**, make an election to transfer part of the accrued benefits from a contribution account in Original Scheme to an account in New Scheme nominated by him.
- (2) The table below shows the parts of benefits derived from the mandatory contributions in a contribution account and the transferability of these parts of benefits in a contribution account under the ECA.

Parts of benefits in a contribution account		Under ECA
(a)	Employer mandatory contributions in current employment	Not transferable
(b)	Employee mandatory contributions in current employment	Transferable to an MPF personal account once per calendar year ¹
(c)	Mandatory contributions that have been transferred into the contribution account and are attributable to former employment(s)	Transferable to an MPF personal account or contribution account anytime

- (3) The transferability of benefits derived from voluntary contributions is subject to the governing rules of Original Scheme. Please check this information from the MPF Scheme Brochure of Original Scheme, which can be found on the website of the trustee of Original Scheme. You may also consult your employer or contact the trustee of Original Scheme.
- (4) You can only elect to transfer out the benefits derived from your employee mandatory contributions once per calendar year (unless the governing rules of Original Scheme provide for more frequent transfer-out). **The date the trustee of New Scheme receives the completed election form is adopted for counting that quota.** You may check that date from the transfer statement issued by your trustee of Original Scheme, or consult your trustee of Original Scheme directly.
- (5) Please note that the benefits derived from your employee mandatory contributions in current employment and employee voluntary contributions in current employment (if any) can be transferred to **a personal account** only. They cannot be transferred to another contribution account (Note: if you are concurrently working for more than one employer, you would have other contribution accounts).
- (6) After your benefits are transferred out from Original Scheme, future contributions made by your existing employer (both employer and employee portions) will continue to be made to your contribution account with the trustee of Original Scheme. If you want to transfer the benefits derived from the subsequent employee mandatory contributions to your account in New Scheme, you should make a separate transfer election in the next calendar year (or earlier if the governing rules of Original Scheme allow for more frequent transfer-out in a calendar year).

Reminders before making an election to transfer

- (7) Before you decide to transfer your benefits to another scheme, you should take into consideration the following factors:
 - (a) services of the trustees (e.g. frequency of issuance of benefit statement to scheme members; number of free fund switching per year);
 - (b) fees and charges of the funds (for detailed information, please refer to the website of the MPFA);
 - (c) the range of fund choices offered by the schemes and in particular whether there are funds available that match what you need; and
 - (d) if you are currently investing in an MPF guaranteed fund, a transfer of the benefits out of that guaranteed fund may result in some or all of the guarantee conditions not being satisfied; thus affecting your entitlement to the guarantee. Please check the MPF Scheme Brochure of Original Scheme or consult the trustee of Original Scheme for details.
- (8) Before deciding to transfer benefits to New Scheme, you should try to understand as much as you can about New Scheme. Please check the information about New Scheme from the MPF Scheme Brochure of New Scheme, which can be found on the website of the trustee of New Scheme or contact the trustee of New Scheme.
- (9) Please ensure that you have an MPF account in New Scheme. Otherwise, you have to submit a membership enrolment form before or at the same time you submit this Form to the trustee of New Scheme. Please consult your trustee of New Scheme for the procedures and required documents for setting up an account.

¹ Unless the governing rules of Original Scheme provide for more frequent transfer-out.

- (10) If you wish to transfer your benefits from a scheme to another, please be aware of how the transferred-in benefits will be invested. In general, the transferred-in benefits will be invested according to the default investment strategy ("DIS") if you either (a) do not give or have not given any investment instructions for the account to the trustee of New Scheme or (b) have given investment instructions for the account to invest benefits according to the DIS. In this regard, please check your investment instruction for future contributions under your transferee account at Manulife where necessary. If you wish to change or specify an investment instruction for the account, including re-investing the accrued benefits into some other constituent funds in the scheme, you are free to give us investment instructions to do so at any time, by submitting instruction(s) either online or by using the "Contribution Investment Instruction (for future contributions) / Fund Switching Instruction (for past accumulations)" form, which can be obtained from our website. For details of the DIS, including its automatic de-risking features and fee level, you may refer to the MPF Scheme Brochure of the Scheme or the related information which is available on our website at www.manulife.com.hk.
- (11) If you have reached, or are approaching, the age of 50 and your benefits are currently invested according to the DIS of the scheme, you should be aware that the de-risking mechanism of the DIS starts at the age of 50. When one or more instruction(s) from members, such as subscription, redemption or switching instructions, are also being processed and with units to be issued/redeemed (except for the Interest Fund where investment to be made in or monies to be withdrawn from) on the same dealing day as the dealing day scheduled for the annual de-risking, such instruction(s) and the annual de-risking in respect of such member will take place on the same day. In such case, the annual de-risking will only take place after processing those instruction(s).
- (12) In order to prevent a third party from filling in incorrect information, please **DO NOT sign on a blank form**. After the completed election form has been received by the trustee of New Scheme, the administration procedures taken by the trustees may not be reversible.
- (13) The number of fund units shown in your current MPF account on the date you elect to transfer may be different from that as of the date on which the fund units are redeemed. The trustee of Original Scheme will redeem all the fund units from the part(s) of benefits in your MPF account that you elect to transfer out on the date of redemption and transfer out the redeemed benefits. The trustee of New Scheme will subscribe fund units in accordance with your instructions. There will be a time-lag of about one to two weeks, during which your benefits will not be invested in any fund. During this period, fund prices may change due to market fluctuations, and there is a risk of a "sell low, buy high" scenario occurring.
- (14) Please refer to the MPFA's publication available from the MPFA website (www.mpfa.org.hk) for the factors to consider when choosing a scheme and the potential risks involved in MPF investment.

Enquiries

- (15) Information about a scheme is set out in the MPF Scheme Brochure of that scheme. This information will assist you in making a decision about whether to make a transfer of benefits to that scheme. Please contact the relevant trustees for enquiries about account details and information on specific schemes or funds.
- (16) For general enquiries regarding the ECA, you may contact the relevant trustees or the MPFA (email: mpfa@mpfa.org.hk or MPFA hotline: 2918 0102).
